

North Texas Area Association of School Boards

Membership is open to school districts in Region 10 and 11.

NTAASB is an organization whose **purpose is to coordinate and deliver programs and training for Regions 10 & 11's school board trustees and administrators.** NTAASB focuses on issues most critical to public education in North Texas.

Per year, we host four meetings held at school districts around Region 10 and 11. Member districts attend our dinner meetings where they can network with other trustees. Due to recent legislation, Continuing Education Credit (CEC) is offered at meetings with non-legislative advocacy topics.
