Objective

The Lone Star Investment Pool (hereafter referred to as the Pool) is a public funds investment pool created pursuant to the Interlocal Cooperation Act, Texas Government Code, Chapter 791, and the Public Funds Investment Act, Texas Government Code, Chapter 2256 (the Investment Act). The investment objectives of the Pool, in order of priority, are preservation and safety of principal, liquidity, and yield.

The Pool seeks to maintain the safety of principal, while providing participating government entities (Participants) with the highest possible rate of return for invested funds. Participants in the Pool own pro rata interests in the underlying assets of the fund in which they participate. A Participant's sole source of payment from its investment in the Pool is the market value of such assets; although the Pool seeks to preserve the value of a Participant's investment, it is possible to lose money by investing in the Pool.

Safety of Principal—The Pool will only invest in those investments authorized under the Investment Act. Certain funds within the Pool contain further restrictions on eligible investments. These restrictions are stated in the Investment Strategy and Guidelines section. Each fund within the Pool will be marked-to-market daily to maintain an accurate net asset value. Pool investments will be diversified among a number of individual issues of securities maturing at different times.

Maximum Total Return—With larger amounts of money to invest, the Pool can purchase securities in large denominations, thereby improving yields and reducing transaction costs. Larger investment pools also permit the selection of securities maturing at various times, which can enhance the average yield of the Pool. These strategies, together with the investment advice of professional portfolio managers (see Organization), are designed to maximize the total return earned by each fund within the Pool.

Investment Strategy and Guidelines

Government Overnight Fund

The Government Overnight Fund is designed for funds that may be required for immediate expenditure. The objectives of the Government Overnight Fund are, in order of importance:

1. An understanding of the suitability of the investment to the financial requirements of the Government Overnight Fund;
2. Preservation and safety of principal;
3. Liquidity;
4. Marketability of each investment if the need arises to liquidate the investment before maturity;

5. Diversification of the investment portfolio;
6. And yield.

The Government Overnight Fund seeks to offer daily liquidity and seeks to maintain a net asset value of one dollar. The net asset value of the Government Overnight Fund is determined daily to ensure that the market value of the Government Overnight Fund's assets is maintained at one dollar. The dollar-weighted average maturity of the Government Overnight Fund is 60 days or fewer. The maximum stated maturity of each security acquired by the Government Overnight Fund is 13 months for fixed rate securities and 24 months for variable rate securities. Because of their short maturities, high quality, and minimal price fluctuations, securities in which the Government Overnight Fund invests are generally considered to be marketable and very liquid. Though the Government Overnight Fund may hold investments until they mature, it may periodically trade securities to take advantage of perceived disparities between markets for various categories of investments in an effort to increase returns. The Government Overnight Fund may not invest more than one-third of the value of its assets (determined as of the date of investment) in the securities of any single issuer, except for direct obligations of the U.S. Government. For liquidity purposes or to respond to unusual market conditions, the Government Overnight Fund may hold some or all of its total assets in cash as a temporary defensive measure, for purposes of assuring sufficient liquidity, or due to the lack of eligible investment securities.

Though the Pool has the authority to invest in all securities authorized under the Investment Act, it is the Board's policy that only the following of such authorized investments will be eligible Government Overnight Fund investments:

- + Obligations of the United States or its agencies and instrumentalities.
- + Other obligations, the principal and interest of which are unconditionally guaranteed or insured by, or backed by the full faith and credit of, the United States or its agencies and instrumentalities.
- + Fully collateralized repurchase agreements that meet the following criteria: (1) have a defined termination date; (2) are secured by obligations of the United States or its agencies and instrumentalities; (3) require the securities being purchased by the Government Overnight Fund to be pledged to the Government Overnight Fund, held in the Government Overnight Fund's name, and deposited at the time the investment is made with the Government Overnight Fund or with a third party selected and approved by the Government Overnight Fund; and (4) are placed through a primary government securities dealer, as defined by the Federal Reserve, or a financial institution doing business in this state. The market value of repurchase agreement collateral is required to initially be 102 percent of the principal amount of such repurchase agreement. Thereafter, the market value of such collateral will be determined (marked-to-market) daily and reset to 102 percent of the principal amount if the market value of the collateral falls below 100 percent.

- + The Government Overnight Fund may lend up to 25 percent of its securities pursuant to a reverse repurchase agreement authorized under the Investment Act. Any funds obtained pursuant to a reverse repurchase agreement must be invested in authorized Government Overnight Fund investments and match the term of the reverse repurchase agreement. The term of any reverse repurchase agreement may not exceed 90 days.
- + No-load money market mutual funds regulated by the Securities and Exchange Commission (SEC) that invest exclusively in authorized Government Overnight Fund investments, provided the Government Overnight Fund shall not invest its funds in any one money market mutual fund in an amount that exceeds (i) 25 percent of the Government Overnight Fund's total assets or (ii) 10 percent of the total assets of such money market mutual fund.

Corporate Overnight Fund

The Corporate Overnight Fund is designed for funds that may be required for immediate expenditure. The objective of the Corporate Overnight Fund are, in order of importance:

1. An understanding of the suitability of the investment to the financial requirements of the Government Overnight Fund;
2. Preservation and safety of principal;
3. Liquidity;
4. Marketability of each investment if the need arises to liquidate the investment before maturity;
5. Diversification of the investment portfolio;
6. And yield.

The Corporate Overnight Fund seeks to offer daily liquidity and seeks to maintain a net asset value of one dollar. The net asset value of the Corporate Overnight Fund is determined daily to ensure that the market value of the Fund's assets is maintained at one dollar. The dollar-weighted average maturity of the Corporate Overnight Fund is 60 days or fewer. The maximum stated maturity of each security acquired by the Corporate Overnight Fund is 13 months for fixed rate securities and 24 months for variable rate securities. Because of their short maturities, high quality, and minimal price fluctuations, securities in which the Corporate Overnight Fund invests are generally considered to be marketable and very liquid. Though the Corporate Overnight Fund may hold investments until they mature, it may periodically trade securities to take advantage of perceived disparities between markets for various categories of investments in an effort to increase returns. For liquidity purposes or to respond to unusual market conditions, the Corporate Overnight Fund may hold some or all its total assets in cash as a temporary defensive measure, for purposes of assuring sufficient liquidity, or due to the lack of eligible investment securities.

The Corporate Overnight Fund has the authority to invest in all securities authorized under the Investment Act. However, it is the Board's policy to also have the following restrictions:

- + Except for money market mutual funds regulated by the SEC, the Corporate Overnight Fund shall not invest its assets in the securities of any one nongovernmental issuer in an amount that exceeds 5 percent of the Corporate Overnight Fund's total assets at cost.
- + Fully collateralized repurchase agreements that meet the following criteria: (1) have a defined termination date; (2) are secured by obligations authorized under the Investment Act ; (3) require the securities being purchased by the Corporate Overnight Fund to be pledged to the Corporate Overnight Fund, held in the Corporate Overnight Fund's name, and deposited at the time the investment is made with the Corporate Overnight Fund or with a third party selected and approved by the Corporate Overnight Fund; and (4) are placed through a primary government securities dealer, as defined by the Federal Reserve, or a financial institution doing business in this state. The market value of repurchase agreement collateral is required to initially be 102 percent of the principal amount of such repurchase agreement. Thereafter, the market value of such collateral will be determined (marked-to-market) daily and reset to 102 percent of the principal amount if it falls below 100 percent.
- + If an A-1 or P-1 investment is placed on the watch list with negative implications by Standard & Poor's or Moody's Investor Services, the Investment Advisor must notify the Investment Consultant and Administrator that same day and if a ready market exists for that security, sell the investment within one week.
- + The Corporate Overnight Fund shall not invest its funds in any one money market mutual fund in an amount that exceeds (i) 25 percent of the Corporate Overnight Fund's total assets or (ii) 10 percent of the total assets of such money market mutual fund.

Corporate Overnight Plus Fund

The Corporate Overnight Plus Fund is designed for funds that may be required for immediate expenditure. The objectives of the Corporate Overnight Plus Fund are, in order of importance:

1. An understanding of the suitability of the investment to the financial requirements of the Government Overnight Fund;
2. Preservation and safety of principal;
3. Liquidity;
4. Marketability of each investment if the need arises to liquidate the investment before maturity;
5. Diversification of the investment portfolio;
6. And yield.

The Corporate Overnight Plus Fund has longer maturities than those of the Corporate Overnight Fund and Government Overnight Fund. The Corporate Overnight Plus Fund seeks to maintain a net asset value of one dollar. The net asset value of the Corporate Overnight Plus Fund will be determined daily to ensure that the fair value of the Corporate Overnight Plus Fund's assets is maintained at one dollar. The dollar-weighted average maturity of the Corporate Overnight Plus Fund is 120 days or

fewer. The maximum stated maturity of each security acquired by the Corporate Overnight Plus Fund is two years from date of purchase unless otherwise restricted by the Investment Act. Because of their short maturities, high quality, and minimal price fluctuations, securities in which the Corporate Overnight Plus Fund invests are generally considered to be marketable and very liquid. Though the Corporate Overnight Plus Fund may hold investments until they mature, it may periodically trade securities to take advantage of perceived disparities between markets for various categories of investments in an effort to increase returns. For liquidity purposes or to respond to unusual market conditions, the Corporate Overnight Plus Fund may hold some or all its total assets in cash as a temporary defensive measure, for purposes of assuring sufficient liquidity, or due to the lack of eligible investment securities.

The Corporate Overnight Plus Fund has the authority to invest in all securities authorized under the Investment Act. However, it is the Board's policy to also have the following restrictions:

- + Except for money market mutual funds regulated by the SEC, the Corporate Overnight Plus Fund shall not invest its assets in the securities of any one nongovernmental issuer in an amount that exceeds 5 percent of the Corporate Overnight Plus Fund's total assets at cost.
- + Fully collateralized repurchase agreements that meet the following criteria: (1) have a defined termination date; (2) are secured by obligations authorized under the Investment Act ; (3) require the securities being purchased by the Corporate Overnight Plus Fund to be pledged to the Corporate Overnight Plus Fund, held in the Corporate Overnight Plus Fund's name, and deposited at the time the investment is made with the Corporate Overnight Plus Fund or with a third party selected and approved by the Corporate Overnight Plus Fund; and (4) are placed through a primary government securities dealer, as defined by the Federal Reserve, or a financial institution doing business in this state. The market value of repurchase agreement collateral is required to initially be 102 percent of the principal amount of such repurchase agreement. Thereafter, the market value of such collateral will be determined (marked-to-market) daily and reset to 102 percent of the principal amount if it falls below 100 percent.
- + If an A-1 or P-1 investment is placed on the watch list with negative implications by Standard & Poor's or Moody's Investor Services, the Investment Advisor must notify the Investment Consultant and Administrator that same day and if a ready market exists for that security, sell the investment within one week.
- + The Corporate Overnight Plus Fund shall not invest its funds in any one money market mutual fund in an amount that exceeds (i) 25 percent of the Corporate Overnight Plus Fund's total assets or (ii) 10 percent of the total assets of such money market mutual fund.

Determining Whether Your Investment Goals Are Consistent with the Pool

Participants should be aware of certain investment risks applicable to all fixed-income securities, including obligations of the U.S. Government. Such risks include credit risk, market risk, liquidity risk, and counterparty risk.

Credit risk. Credit risk is the possibility that the issuer of a bond or other security will fail to make timely payments of interest and principal. The credit risk associated with each fund within the Pool, therefore, depends on the credit quality of the underlying debt instruments held by that fund. In the event of a payment default on a debt instrument held in a fund, the investment return on the fund within the Pool that owns the investment in default will be adversely affected and, in some cases, the fund could experience a loss of principal (i.e., a reduction in the asset value below par value). The pool attempts to manage this risk by purchasing securities issued by the U.S. Government, its agencies, and instrumentalities; fully collateralized repurchase agreements; highly rated no-load money market mutual funds regulated by the SEC; certificates of deposit; and commercial paper that is rated not less than A-1 or P-1 or an equivalent rating by a nationally recognized statistical rating organization.

Market Risk. Market risk (or interest rate risk) is the potential for a decline in the market value of a debt instrument due to rising interest rates. For example, a bond or other security issued or backed by the U.S. Government is guaranteed only with regard to the timely payment of interest and principal; its market price is not guaranteed. Just like bonds issued by government entities and corporations, U.S. Government securities will fluctuate in market value as prevailing market interest rates change. In general, the market value of a bond varies inversely with interest rates: If interest rates rise, market prices generally fall; if interest rates fall, market prices generally rise. In addition, for a given change in interest rates, longer-maturity bonds fluctuate more in price (gaining or losing more in market value) than shorter-maturity bonds. To compensate investors for this risk, longer-maturity bonds generally offer higher yields than shorter-maturity bonds (all other factors, including credit quality, being equal).

Liquidity Risk. Liquidity risk is the potential for there not to be a ready market for the securities in which the Pool invests. Lack of ready markets could prevent the Pool from selling securities to provide cash to meet liquidity needs, including amounts required for timely payment of withdrawals requested by participants.

Counterparty risk. Counterparty risk is the risk that a counterparty in a repurchase agreement could fail to honor the terms of its agreement. See also, Credit Risk (above).

Government Overnight Fund—With a dollar-weighted average maturity of 60 days or fewer, the NAV of investments held in the Government Overnight Fund and the NAV of each Participant's pro rata share in the Government Overnight Fund are expected to maintain a stable NAV of \$1.00 per share; however, there is no guarantee that it will

be able to do so. The Government Overnight Fund is not registered under the Investment Company Act of 1940 or regulated by the SEC.

Corporate Overnight Fund—With a dollar-weighted average maturity of 60 days or fewer, the net asset value (NAV) of investments held in the Corporate Overnight Fund and the NAV of each Participant’s pro rata share in the Corporate Overnight Fund are expected to maintain a stable NAV of \$1.00 per share; however, there is no guarantee that it will be able to do so. The Corporate Overnight Fund is not registered under the Investment Company Act of 1940 or regulated by the SEC.

Corporate Overnight Plus Fund—With a dollar-weighted average maturity of 120 days or fewer, the NAV of investments held in the Corporate Overnight Plus Fund and the NAV of each Participant’s pro rata share in the Corporate Overnight Plus Fund are expected to maintain a stable NAV of \$1.00 per share; however, there is no guarantee that it will be able to do so. The Corporate Overnight Plus Fund is not registered under the Investment Company Act of 1940 or regulated by the SEC.

Organization

Pool Structure

By entering into the Investment Agreement (see Enrollment Book), Participants designate the Pool as an agency and instrumentality and its Board of Trustees (the Board) as the governing body of the Pool. The Pool holds legal title to all money, investments, and other assets and, through the Board, has the authority to employ personnel, engage in other administrative activities, and provide other administrative services necessary to accomplish the Pool’s objectives.

Board and Bylaws

Pursuant to the Investment Agreement, the business, and affairs of the Pool are required to be managed by the Board, and the Board is authorized and directed to adopt and maintain bylaws (the Bylaws) to provide for the governance and administration of the Pool to the extent not otherwise provided in the Investment Agreement; provided, however, that no provision of such Bylaws may be adopted if such provision would adversely affect the legal status of the Pool including the Pool’s status as a public funds investment pool pursuant to the Investment Act. The Bylaws set forth procedures governing the selection of, and action taken by members of the Board, subject to the requirement in the Investment Agreement that all voting members of the Board be either employees or elected officials of a Participant.

The Bylaws provide for an 11-member Board consisting of individuals representing school districts that have adopted the Investment Agreement, including school board members, school administrators, and school business officials. Any Board member who ceases to be an employee or elected official of a Participant or who represents an entity that ceases to be a Participant is required to vacate his or her position.

Any vacancy on the Board, whether for a full or partial term, shall be filled by the Board within 120 days of when the position becomes vacant. Board members are appointed for staggered, three-year terms after their initial appointment. Board members serve without compensation but are entitled to reimbursement of reasonable out-of-pocket expenses incurred in the performance of Board duties.

The Board holds an annual meeting for the purpose of electing officers for the ensuing year and transacting other business. Officers elected at the annual meeting include the chair and vice-chair, who are required to be Board members, and a secretary, who may or may not be a Board member. The Board will also appoint one or more investment officers (Investment Officers), who may or may not be Board members. The Board may hold other meetings as deemed appropriate and necessary for transacting business. A majority of the members of the Board constitutes a quorum, and when a quorum is present, concurrence of a majority of those present and voting at any Board meeting is necessary for any official action to be taken, except that a majority of the Board's full membership is required to amend any provision of the Investment Agreement. For purposes of determining whether a quorum is present, vacant Board positions are not counted as part of the full membership of the Board until filled. Valid Board business may be conducted by meeting, telephone, mail ballot, or any combination thereof.

Advisory Board

Pursuant to Section 2256.016(g) of the Investment Act, the Pool has established an Advisory Board composed of Participants and other knowledgeable individuals representing public schools, public junior colleges, cities, counties, and other local governments. The purpose of the Advisory Board shall be to gather and exchange information from Participants and non-Participants relating to Pool operation.

Members of the Advisory Board shall be appointed by the Board. Members shall serve without compensation but shall be entitled to reimbursement for reasonable out-of-pocket expenses incurred in the performance of Advisory Board duties.

Administrator/Distributor

The Board has entered into an agreement with First Public, LLC (First Public), a Texas limited liability company and a member of the Financial Industry Regulatory Authority, Securities Investor Protection Corporation, and Municipal Securities Rulemaking Board, pursuant to which First Public serves as administrator of the Pool's operations (the Administrator). The Administrator is responsible for servicing Participants' accounts daily; negotiating contracts with investment advisors and consultants, custodian banks, lawyers, accountants, and other service providers; and performing related administrative services. The Administrator employs a supporting staff of management and administrative personnel and provides office space and equipment needed to perform its duties. In this role, First Public markets the Pool to potential investors and is responsible for preparing and updating this Information Statement and maintaining its consistency with the

Neither the Board, the Advisory Board, the Investment Officers, the Administrator, nor any organization approved by the Board as an endorser of the Pool nor any officers, trustees, employees, or board members of any of the foregoing shall be held liable for any action or failure to act on behalf of the Pool or the Participants unless caused by willful misconduct. The Pool shall indemnify and hold harmless (either directly or through insurance) any such person, to the extent permitted by law, for any and all litigation, claims, or other proceedings, including (but not limited to) reasonable attorney fees, costs, judgments, and settlement payments and penalties arising out of the management and operation of the Pool, unless such litigation, claim, or other proceeding resulted from the willful misconduct of such person.

Any amendment to the Interlocal Investment Agreement, Statement of

Investment Policy, or this Information Statement that may have a material effect on Participants' investments may not take effect unless notice thereof is sent to the Participants at least 60 days prior to the effective date.

Participation

Eligibility

Only Government Entities of the State of Texas, including both Local Governments and Agencies may become Participants in the Pool. The term Local Government refers to any school district; county; municipality; special district; junior college district; any other legally constituted political subdivision, authority, public corporation, body politic, or instrumentality of the state; a combination of two or more of those entities (e.g., a combination by means of an interlocal agreement); or any other entity that may be included in the definition of Local Government contained in the Interlocal Cooperation Act or the Investment Act, as the same may be amended or restated from time to time. The term Agency includes the following: (1) a department, board, bureau, commission, court, office, authority, council, or institution; (2) a university, college, or any service or part of a state institution of higher education; and (3) any statewide job or employment training program for disadvantaged youth that is substantially financed by federal funds and that has been created by executive order no later than December 30, 1986.

To become a Participant in the Pool, a Government Entity's governing body (e.g., board of trustees, city council, etc.) must adopt a resolution authorizing the Government Entity to become a Participant and approving an Investment Agreement to which all Participants are parties. In addition, the resolution accomplishes the following:

- + Establishes the Pool as an agency and instrumentality.
- + Designates the Board as the governing body of the Pool.
- + Approves the investment policies of the Pool (as amended from time to time by the Board) and directs that any conflicting local investment policies shall not apply to Pool investments.
- + Designates Authorized Representatives and Investment Officers.

Following adoption of the Resolution, the Government Entity must complete and forward to the Administrator: the Lone Star Application, a

certified copy of the Resolution, an executed counterpart of the Investment Agreement, and First Public Account Application. All of these documents are included in this Information Statement and Enrollment Book. A Government Entity may become a Participant and open an account with the Pool without being obligated to deposit any money to such account or otherwise actively participate in the Pool. There is no cost for setting up an account in the Pool.

Deposits

Deposits are required to be made by either Automated Clearing House (ACH) electronic funds transfer or wire transfer through the Federal Reserve Bank System (Wire Transfer). Deposits will be accepted by the Pool on any business day (each such day, a Deposit Day). For a Participant's deposit to the Pool to be credited to its account on a particular Deposit Day, the Participant is required to provide the Administrator with the name of the government entity, identifying access code, Pool account number, verification of the bank's name and the account number from which funds are being transferred, and the amount to be deposited:

- + In the case of an ACH deposit, the Participant must notify the Administrator by 4 p.m. CST at least one business day prior to the Deposit Day.
- + In the case of a Wire Transfer deposit, the Participant must notify the Administrator by 3 p.m. CST on the Deposit Day. In addition to contacting the Administrator and furnishing the information described above, the Participant must instruct its local bank to wire funds to the Custodian. Under no circumstances will a same-day wire transfer deposit be accepted after the Pool has calculated its Daily NAV per share.
- + We request notification to the Pool at least one business day in advance of transactions in excess of \$10 million.

Withdrawals

For a withdrawal from a Participant's account to occur on a particular Withdrawal Day (Withdrawal Day being any business day), the Participant is required to provide the Administrator with the name of the government entity, identifying access code, Pool account number, verification of the bank name and account number, and the amount to be withdrawn. The amount requested to be withdrawn cannot exceed the net asset value of the Participant's account on the date such notice is given.

In addition, the amount withdrawn can never exceed the net asset value of a Participant's account on the actual Withdrawal Day. See Valuation and Return beginning on page 17. A Participant may terminate its withdrawal request, in whole or in part, by notifying the Administrator by 4 p.m. CST at least one business day prior to the Withdrawal Day. A withdrawal may be delayed in whole or in part beyond the scheduled Withdrawal Day if a general suspension of trading in securities shall have occurred on the New York Stock Exchange or other major

securities market, a general banking moratorium shall have been declared by banking authorities of the United States or the State of Texas, or some other national or state emergency exists that adversely affects the Pool's liquidity. Alternatively, a withdrawal may be honored in whole or in part by distributing Pool securities that have a current market value equal in amount to a related withdrawal request.

Withdrawals will be permitted each Withdrawal Day.

- + In the case of an ACH withdrawal, the Participant must notify the Administrator by 4 p.m. CST at least one business day prior to the Withdrawal Day.
- + In the case of a same-day Wire Transfer withdrawal, the Participant must submit a withdrawal request to the Administrator by 3 p.m. CST on the Withdrawal Day. Under no circumstances will a same-day wire transfer deposit be accepted after the Pool has calculated its Daily NAV per share.
- + We request notification to the Pool at least one business day in advance of transactions in excess of \$10 million.

Minimum Transaction Amounts

The minimum amount required for any initial deposit and/or balance in any Pool account is \$50,000. There is no minimum on subsequent deposits or withdrawals. The Pool may, at its option, transfer the balance in any account, if less than \$50,000, to the Participant.

Internet

First Public has an interactive Web Site, www.investmentaccounts.firstpublic.com, which allows Participants to make deposits to and withdrawals from the Lone Star Investment Pool; view and print account balances and the latest yields; and print transaction confirmations and month-end reports. Transactions can be set up in advance if they are transmitted and received by Lone Star no later than 4 p.m. CST on the business day prior to the requested payment date. Same-day wire transfers are permitted as long as they are transmitted and received by Lone Star no later than 3 p.m. CST.

The system permits Participants to pay vendors directly from their account. This allows Participants to earn interest on their funds until the payment due date. It also reduces the number of checks the Participant processes each month, allowing district personnel to allocate their time to other tasks. To pay vendors, Participants select whom to pay from a predetermined list and enter the amount of payment and due date.

Pool Income

Participants accrue income on their account balances daily. All income received is automatically credited to the Participant's account at the end of each month.

Reports to the Participants

Participants receive a transaction confirmation after each deposit and withdrawal. Each Participant also receives a monthly and quarterly account statement showing current balances and all activity since the prior report. The Pool issues annual audited financial statements; Participants may obtain a copy upon request.

Participant Fees and Expenses

A Participant's account will be directly and automatically charged for the cost of any special services rendered by the Administrator. A Participant's account also will be charged with all actual costs and expenses associated with extraordinary events affecting the account, including (but not limited to) losses of investment income to the Pool associated with ACH returns or failure to transmit a Wire Transfer for deposit in a timely manner.

Valuation and Return

Government Overnight Fund

Each day the Government Overnight Fund determines the Gross Distributable Investment Income (GDII) for that day. The GDII is determined by adjusting the Government Overnight Fund's accrued interest for that day by the amortization of any premiums and/or the accretion of any discounts. The Government Overnight Fund's daily yield is determined by dividing the GDII for that day by the total investable balance of the Government Overnight Fund for that day. The resulting yield is then used to determine the amount of investment income to distribute to each Participant's account. Investment income accrued during the month is credited to each Participant's account at the end of the month.

All investments are stated at amortized cost, which in most cases approximates the market value of the securities due to the short-term nature of the investments. The NAV of each Participant's pro rata share of the investments held in the Government Overnight Fund is expected to be maintained at one-dollar per share. The NAV of the Government Overnight Fund is determined daily (on days that the New York Stock Exchange is open for business) to ensure that the market value of the Government Overnight Fund's assets is within one-half of 1 percent of the amortized cost. If the Government Overnight Fund's amortized cost is above or below the market value by more than one-half of 1 percent, the Investment Officer will take such action as the Investment Officer deems appropriate to eliminate or reduce to the extent reasonably practicable any dilution or unfair result to existing participants, including a sale of portfolio holdings to attempt to maintain the ratio between 0.995 and 1.005. Gains and losses generated by the sale of a security held

by the Government Overnight Fund are allocated to Participant accounts over a period generally not to exceed 30 days, based on the straight-line amortization method. The only source for payment to Participants in the Government Overnight Fund is the assets of the Government Overnight Fund.

Corporate Overnight Fund

Each day the Corporate Overnight Fund determines the GDII for that day. The GDII is determined by adjusting the Corporate Overnight Fund's accrued interest for that day by the amortization of any premiums and/or the accretion of any discounts. The Corporate Overnight Fund's daily yield is determined by dividing the GDII for that day by the total investable balance of the Corporate Overnight Fund for that day. The resulting yield is then used to determine the amount of investment income to distribute to each Participant's account. Investment income accrued during the month is credited to each Participant's account at the end of the month.

All investments are stated at amortized cost, which in most cases approximates the market value of the securities due to the short-term nature of the investments. The NAV of each Participant's pro rata share of the investments held in the Corporate Overnight Fund is expected to be maintained at one-dollar per share. The NAV of the Corporate Overnight Fund is determined daily (on days that the New York Stock Exchange is open for business) to ensure that the market value of the Corporate Overnight Fund's assets is within one-half of 1 percent of the amortized cost. If the Corporate Overnight Fund's amortized cost is above or below the market value by more than one-half of 1 percent, the Investment Officer will take such action as the Investment Officer deems appropriate to eliminate or reduce to the extent reasonably practicable any dilution or unfair result to existing participants, including a sale of portfolio holdings to attempt to maintain the ratio between 0.995 and 1.05. Gains and losses generated by the sale of a security held by the Corporate Overnight Fund are allocated to Participant accounts over a period generally not to exceed 30 days, based on the straight-line amortization method. The only source for payment to Participants in the Corporate Overnight Fund is the assets of the Corporate Overnight Fund.

Corporate Overnight Plus Fund

Each day the Corporate Overnight Plus Fund determines the GDII for that day. The GDII is determined by adjusting the Corporate Overnight Plus Fund's accrued interest for that day by the amortization of any premiums and/or the accretion of any discounts. The Corporate Overnight Plus Fund's daily yield is determined by dividing the GDII for that day by the total investable balance of the Corporate Overnight Plus Fund for that day. The resulting yield is then used to determine the amount of investment income to distribute to each Participant's account. Investment income accrued during the month is credited to each Participant's account at the end of the month.

The NAV of each Participant's pro rata share of the investments held in the Corporate Overnight Plus Fund is expected to be maintained at one-dollar per share. The NAV of the Corporate Overnight Plus Fund is

determined daily (on days that the New York Stock Exchange is open for business) to ensure that the fair market value of the Corporate Overnight Plus Fund's assets is maintained at one dollar. If the Corporate Overnight Plus Fund's book value of NAV is above or below one dollar, the Investment Officer will take such action as the Investment Officer deems appropriate to eliminate or reduce to the extent reasonably practicable any dilution or unfair result to existing participants, including a sale of portfolio holdings to attempt to maintain one dollar. Gains and losses generated by the sale of a security held by the Corporate Overnight Plus Fund are allocated to Participant accounts over a period generally not to exceed 30 days, based on the straight-line allocation method. The only source for payment to Participants in the Corporate Overnight Plus Fund is the assets of the Corporate Overnight Plus Fund.

The Investment Agreement must be executed by having an Authorized Representative sign and date the last page of such agreement (entitled Additional Party Agreement).

Sections A, B, and C of the Lone Star Investment Pool Application (see **Form III**) and sections A and B of the First Public New Account Application (**Form V**) must be completed (including execution by an Authorized Representative of the Government Entity as named in the Resolution). The application provides all applicable information about the applicant and its local depository bank. After the application is received by First Public, a user ID and password for each Authorized Representative will be sent to the Government Entity. Once the account is open, the Participant may make its initial deposit according to the instructions included in the Information Statement. To open additional accounts, photocopy and complete sections B and C of the application form.

Deliver an executed original of the Resolution (Form I), Investment Agreement (Form II), Lone Star Application (Form III), and First Public Account Application (Form V) to the Administrator: First Public, 12007 Research Blvd., Austin, Texas 78759.

(b) The Board shall adopt and maintain a Statement of Investment Policy, consistent with the general objective of the Pool, which shall provide more detailed guidelines for investment and management of Pool assets. The Board shall, subject to the terms of this Agreement, have the authority to amend any term or provision of the Statement of Investment Policy, provided that notice is sent to each Participant at least 60 days prior to the effective date of any change that, in the Board's opinion, will have a material effect on the Participant's investment in the Pool.

(c) The Board shall designate one or more Investment Officers for the Pool who shall be responsible for the investment of Pool assets, provided that no person who is an officer or employee of a regional planning commission, council of governments, or similar regional planning agency created pursuant to Chapter 391 of the Local Government Code of the State shall be eligible to serve as an Investment Officer.

(i) The enumeration of any specific power or authority herein shall not be construed as limiting the general power and authority of the Board over the Pool.

Such requests will be honored by First Public without making any independent investigation of the underlying facts, and First Public disclaims all liability for actions taken in honoring such requests whether or not the original transferor was correct in making such request. Under no other circumstances will First Public honor requests from third parties to electronically transfer funds from our account.

Arbitration Disclosures:

All parties to this agreement are giving up the right to sue each other in court, including the right to a trial by jury, except as provided by the rules of the arbitration forum in which a claim is filed.

Arbitration awards are generally final and binding; a party's ability to have a court reverse or modify an arbitration award is very limited.

The ability of the parties to obtain documents, witness statements and other discovery is generally more limited in arbitration than in court proceedings.

The Arbitrators do not have to explain the reason(s) for their award.

The panel of Arbitrators will typically include a minority of arbitrators who were or are affiliated with the securities industry.

The rules of some arbitration forums may impose time limits for bringing a claim in arbitration. In some cases, a claim that is ineligible for arbitration may be brought in court.

The rules of the arbitration forum in which a claim is filed, and any amendments thereto, shall be incorporated into this agreement.

Arbitration and Dispute Resolution:

- (a) We agree that any dispute or controversy, either arising in the future or in existence now, between us and First Public (including First Public's officers, directors, employees or agents) will be resolved by arbitration conducted before the Financial Industry Regulatory Authority (FINRA) and in accordance with its rules then in force.
- (b) A court of competent jurisdiction may enter judgment based on the award rendered by the Arbitrators.
- (c) Nothing in this Agreement shall be deemed to limit or waive the application of any relevant state or federal statute of limitation, repose, or other time bar. Any claim made by either party to this Agreement that is time barred for any reason shall not be eligible for arbitration.

The parties to this Agreement shall not bring putative or certified class-action to arbitration, nor seek to enforce any pre-dispute arbitration agreement against any person who has initiated in a court a putative class action or who is a member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action until:

- (i) the class certification is denied,
- (ii) the class is decertified, or
- (iii) the customer is excluded from the class by the court.

Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this Agreement except to the extent stated herein.
