# Visitor Factsheet - Further Information

The data in this factsheet refers to visitors who have spent at least one night in the City of Bunbury Local Government Area (LGA).

## Important Note

All data is sourced from Tourism Research Australia's National and International Visitor Surveys (NVS and IVS).

Data has been provided for Interstate and Intrastate (sample size permitting) or Domestic, as well as International (see below) by year.

Number of international visitors cannot be provided for 2021 as this was not available at LGA level and has been provided for other years where sample size permits.

The demographics and trip details for domestic visitors show comparisons between 2022+23 (current) and 2018+19 (pre-COVID). Due to the reduced number of international visitors between 2019 and 2021 and the unreliability of 2022 data, only 2018+19 and 2023 has been provided for international visitors.

It is recommended by Tourism WA that the visitation statistics in this fact sheet are used in conjunction with other information sources that you have access to. This might include population statistics from the Australian Bureau of Statistics, feedback from local operators, information from local Visitor Centres, data from local councils etc.

Methodology and definition changes are made to both the IVS and the NVS from time to time. As such, estimates in this factsheet are not comparable to previous factsheets. For further information, see [NVS Methodology](#) or [IVS Methodology](#) on Tourism Research Australia's website and the [Changing Visitor Spend](#) factsheet on Tourism WA's website.
