Global giving strategies

Our commitment to charitable giving and participation in philanthropic causes is one of the defining elements of Edwards Lifesciences' culture.

With gratitude

To our global community,

Together with our 16,000 global employees, we have the opportunity to give our time, talent and resources to improve the lives of underserved patients and strengthen the communities where we live and work. We are humbled when we see the impact we are making with our partners, passion, innovation, and commitment to help people globally.

The needs of underserved patients, our communities and our charitable partners have continued to evolve over the past year, alongside the challenges of our world. We continued to see a need for innovative ideas to support programming from a distance, and to support the large number of underserved and underrepresented people in our communities.

To face these challenges, we grew our giving in 2021 to our most significant level yet of over \$21 million. We donated more than 10,000 of Edwards' products to help underserved patients get access to the care they need. We funded 247 global partners in over 40 countries and 82 percent of our employees engaged in a charitable activity.

Our team is as passionate and dedicated to giving back as ever, which is contagious and makes our communities and our world better. Will you join us?

With gratitude,

Mike

Michael A. Mussallem
Chairman and CEO, Edwards Lifesciences
Chairman of the Board, Edwards Lifesciences Foundation

Amanda

Amanda C. Fowler
Vice President, Global Corporate Giving, Edwards Lifesciences
Executive Director, Edwards Lifesciences Foundation

Global employees participated in a charitable activity in 2021¹

Edwards' technologies donated in 2021 for humanitarian patient treatment and recovery

Every Heartbeat Matters

Improving underserved patient lives worldwide. Meet Saadi from Tanzania, a nine-month-old boy who loves playing with his three brothers. He was born with multiple life-threatening heart issues and received free surgical treatment by EHM partner, Mending Kids. We are happy to see him smiling.

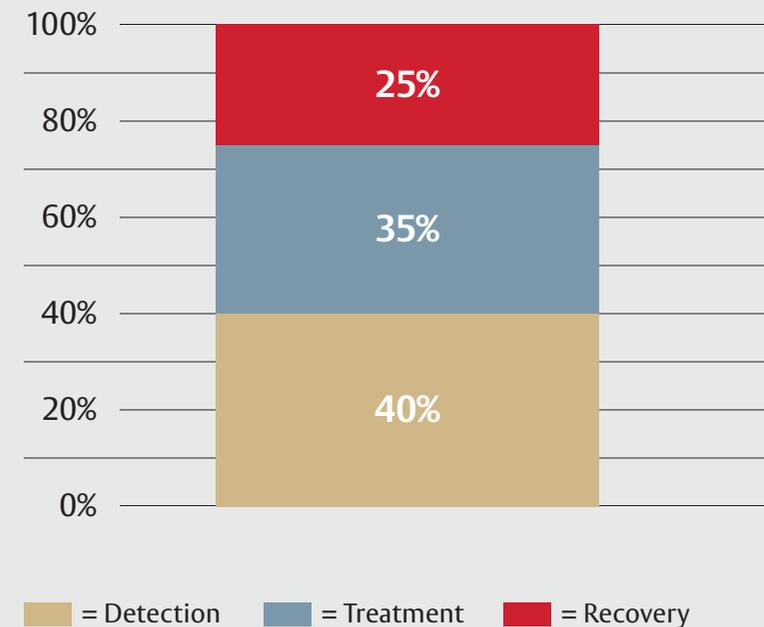

Every Heartbeat Matters (EHM): committed to improving the lives of **2.5 million** underserved structural heart and critical care patients by the end of **2025**.

We are on-track to meet this goal through the hard work and impact brought to life by our global charitable partners.

This goal can only be achieved with the partnership, volunteerism and leadership of others. **Will you join us?**

2021

Patient Impact-to-Date by Pillar

From 2020-2021, EHM improved the lives of 400,000 underserved structural heart disease (SHD) and critical care patients.

This impact includes each stage of the patient journey: detecting SHD, treating underserved SHD patients, and recovering underserved cardiac and high-risk patients.

To further reach patients, Edwards also donates technologies to get them into the hands of clinicians doing global humanitarian treatment via a partnership with MAP International. Learn more about product donations and patient care package availability at MAP.org/EHM.

Andrew Johnson, Beth Rose, Loretta Van der Bie, and Omar Jobe

*Does not include donations made to charitable organizations via the Edwards Lifesciences Foundation employee matching gift program.

About Edwards Lifesciences and Edwards Lifesciences Foundation:

Edwards Lifesciences is the global leader of patient-focused innovations for structural heart disease and critical care monitoring. We are driven by a passion for patients, dedicated to improving and enhancing lives through partnerships with clinicians and stakeholders across the global healthcare landscape.

Edwards' commitment to charitable giving and participation in philanthropic causes is one of the defining elements of our culture. Since 2004, Edwards and Edwards Lifesciences Foundation have gifted almost \$130 million to charitable organizations around the world supporting underserved patients and strengthening communities where our employees live and work. Support for these causes includes foundation donations, donations of Edwards technologies for humanitarian patient care, and pursuit of 100 percent of employee involvement in charitable activities.
