

Compact Pro™ LED Round Bay

Designed and Optimized for the Contractor

The Compact Pro™ Round High Bay by Lithonia Lighting® is the newest innovation in the Compact Pro™ Family. The CPRB features two patent-pending elements; the tri-radial glare-control lens creates an even, brilliant light ideal for most lighting needs and the integrated folding hook provides simple and secure installation. And with a lightweight, compact, and simple design, the CPRB requires only one person to install, cutting down on labor costs and helping protect your budget.

Simply Switchable

Featuring Adjustable Lumens and Switchable Color Temperature, the CPRB creates a comfortable and customized environment for your space.
