Coating systems for shelving, racking and shopping carts

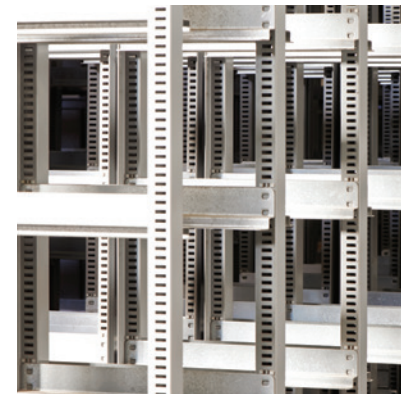

Single-source coatings for shelving, racking, shopping carts

Keeping the supply chain flowing is a full-time job. Whether you are building racks for a warehouse or shopping carts to move goods, you need reliable coatings that will withstand changes in temperature and humidity while standing up to the wear and tear of turning or transporting inventory.

PPG's broad portfolio of coatings are designed with state-of-the-art technology to provide a physical barrier against corrosion, oxidation and abrasion. All coatings are available in an array of colors to meet specific aesthetic and performance requirements.

Unique benefits

- Mar/abrasion-resistant options
- Excellent corrosion and UV resistance
- Sag resistant
- Advanced technology options providing edge protection and high transfer efficiency
- Anti-skid options
- PPG SILVERSAN™ antibacterial-protected coating* available
- Multi-substrate compatibility – steel and plastic
- Trusted and specified by original equipment manufacturers
- Extensive color palette

* Silver is a registered pesticide with the U.S. Environmental Protection Agency (EPA), which states that pesticides are used to prevent, destroy, repel or mitigate any pest ranging from insects and animals and weeds to microorganisms such as fungi, bacteria and viruses. Antibacterial is limited to the treated surface and does not protect against disease-causing bacteria. The use of these products does not protect users of any such treated article or others against food-borne or disease causing bacteria, viruses, germs or other disease-causing organisms.
