

Nonstick Coatings for Better Bakeware

Coil and spray applications
for consumer bakeware

We protect and beautify the world™

Consumer bakeware coatings from PPG

At PPG, our mission is to protect and beautify. For consumer bakeware, that means adding not just an eye-catching color, but the durability and safety consumers come to expect from their bakeware.

Our innovations are suitable for a broad range of products and backed by more than 125 years of innovation and a commitment to quality, performance and sustainability that drives confidence in the kitchen.

Non-stick coatings for better bakeware

Our comprehensive line of non-stick coatings are available for both coil and spray applications. They offer the unique combination of excellent non-stick performance and durability, available for interior or exterior applications.

Coatings can be developed to meet specific color and visual effects and are available for a range of substrates, all while remaining food-contact compliant.

A global partner with a local presence

Feel confident choosing a partner in PPG who offers you the combination of global solutions and a local presence. All of our coatings have been formulated to meet the strict requirements you face today, with our teams keeping an eye toward the future.

Unique Benefits

- Coatings are available in one- or two-coat systems
- Coatings have been developed to provide release for both sweet and savory baking
- Coatings available in a variety of finishes and effects
- Coatings available in either PTFE for coil or a silicon polyester spray coating system
- All coatings are specifically formulated without PFOA

Spray

System	Coating Type	Product Name	Availability	Product Identifier	Chemistry	Features >	< Customer benefit
Solventborne	1 coat	XYLAN®	Global	8610S	Silicone Polyester	One-coat system offering nonstick properties	Provides a cost-effective solution for entry-level products
		Xylan	Global	8620S	Silicone Polyester	One-coat system offering nonstick properties featuring ceramic reinforcement	Provides a cost-effective solution with nonstick properties for entry-level products with enhanced abrasion resistance compared to Xylan (8610S)
		QUANTUM™	Global	8678S	Silicone Polyester	Higher operating temperature compared to other silicone polyester coatings	Allows coating to withstand intense baking demands
Solventborne	2 coat	Quantum2	Global	8686 Primer 8686S Topcoat	Silicone Polyester	Moderately reinforced coating	Provides longer wear resistance compared to Quantum
		QUANTANIUM®	Global	8687 Primer 8687S Topcoat	Silicone Polyester	Moderately reinforced coating	Increases durability for extended product life compared to Quantum and Quantum2
		ECLIPSE®	Global	8688 Primer 8688S Topcoat	Silicone Polyester	Heavily reinforced system	Offers increased durability compared to our nonstick coatings

PPG: WE PROTECT AND BEAUTIFY THE WORLD™

A trusted global coatings leader

Operations in 70 countries, with 150+ manufacturing facilities and 70,000+ employees

Renowned color expertise

Trend-setting palettes for home, kitchen, auto and industry paired with unrivaled color matching

Commitment to sustainability

Over 30% of annual sales from sustainably advantaged products and processes

Dedication to innovation

3,500+ technical employees and \$470+ MM average annual R&D investment

Industrial coatings from PPG

- World-class technical services and training
- Help meeting specific, coatings-related environmental mandates
- Assistance setting up new equipment and identifying areas where your processes may be streamlined
- Troubleshooting production issues
- SECURE LAUNCH EXCELLENCE™ accelerated custom product formulation and color development process
