# Downing AIM Estate Planning Service

### Commentary for the quarter ending 30 June 2020.

In the three-month period ending 30 June 2020, Universe Group (up 121.70%), and Volex (up 35.84%) were positive contributors to performance, while Lok'nStore (down 3.48%) and Hargreaves Services (down 13.98%) were detractors.

<u>Universe</u> announced its results for the year to 31 December 2019 and reported that notwithstanding the considerable challenges posed by Covid-19, the business has robust financial resources and its customers are retailers of essential supplies. It has a revenue pipeline for this year that indicates completed revenues of £5.2 million in Q1, with further revenues of £16.8 million visible through existing recurring and repeatable revenue contracts and the order book.

<u>Volex</u> announced results for the 53 weeks ended 5 April 2020 and reported another transformative year. The group has strengthened its position, expanded its business, built a strong platform for growth and made two further acquisitions. Volex entered covid-19 period with a very strong balance sheet and ample liquidity and it has continued to generate strong cash flows in the first two months of its financial year. Management are continuing to invest back into the business for future growth and margin enhancement.

<u>Lok'nStore</u> provided a market update and reported that despite the current unsettled economic circumstances, trading remains resilient. The group continues to progress the development of its new store pipeline, having recently secured two new planning permissions. Management is determined to maintain the strength of its balance sheet and its substantial liquidity. The group's pipeline of new stores will add considerable momentum to sales and earnings growth over the medium term allowing further increases in dividends.

Pittards made no significant news announcements in the period. We believe the share price has been challenged due to the current economic volatility and is in common with many companies in the Consumer Discretionary sector.

#### **Performance**

The net performance quoted is the simulated performance of the first investor's portfolio after deducting all charges, excluding any initial fee.

Cumulative performance (%)									
	1m	3m	6m	YTD	1y	3у	5y	Launch	
Service	1.14	19.21	-24.67	-24.67	-18.08	-21.42	-4.85	63.36

# About the Downing AIM Estate Planning Service

The Downing AIM Estate Planning Service (DAEPS) allows investors to obtain IHT relief after only two years by owning a portfolio of qualifying companies quoted on AIM, provided shares have been held for at least two years at death.

Our strategy enables investors to maintain control of their assets (no need for trusts or to gift assets to obtain IHT relief) and to withdraw funds from their portfolio at any time, subject to liquidity and 10 days' notice.

DAEPS aims to manage risk by spreading your funds across at least 25 companies across a variety of sectors and has a similar strategy to our flagship OEIC, the MI Downing UK Micro-Cap Growth Fund.

The service also benefits from Downside Protection Cover, covering a loss in value of up to 20% on the net initial investment on death under the age of 90 years. This policy is included at no extra cost, with no medical exclusions or questionnaires. Please note, this is an annual policy and there is no guarantee that it will remain in place throughout the life of the investment.

There is also an option for life cover - insurance which covers 40% of your original gross investment (before charges) if you die in your first two years in the service. (Subject to terms and conditions).

### Why Downing Small-Cap?

- ► Experienced and qualified Downing Fund Managers team headed by Judith MacKenzie.
- ▶ Private equity approach to micro-cap investing, drawing on our private equity and venture capital heritage.
- ► Investment Committee oversight provides access to many years of investment experience.
- ► Value strategy with rigorous bottom up approach.
- ► Exhaustive diligence process that can take up to 18 months.
- ► Aims to manage risk by spreading your funds across at least 25 AIM-quoted companies in a variety of sectors.
- ► Seeks to invest in profitable businesses with strong management teams and a sustainable competitive advantage.

Risk warning: Your capital is at risk, and you may not get back the full amount invested. Tax treatment depends on the individual circumstances of each investor and may be subject to change. The availability of tax reliefs depends on investee companies maintaining their qualifying status. Investments in smaller companies will normally involve greater risk or volatility than investments in larger, more established companies. Return is the value of investments, plus cash, including income, after deducting all charges, excluding any initial fee. Figures refer to simulated past performance. Please note that past performance is not a guide to future performance.
