SHAREHOLDER INFORMATION

Selling shares

The Company's shares can be bought and sold in the same way as any other company listed on the London Stock Exchange, using a stockbroker. Disposing of shares may have tax implications, so Shareholders are urged to contact their independent financial adviser before making a decision.

The Company has stated that it will, from time to time, consider making market purchases of its own shares, in accordance with the policy set out in the Chairman's Statement. Shareholders who wish to sell should contact Downing LLP who will be able to provide up-to-date details. Downing LLP can be contacted on 020 7416 7780. The Company is only purchasing DSO D Shares at present as the other classes have commenced the process of returning funds to Shareholders through dividends.

Financial calendar

22 September 2016	Annual General Meeting
30 September 2016	Payment of final dividends
November 2016	Announcement of half yearly financial results

Dividends

Dividends will be paid by the registrar on behalf of the Company. Shareholders who wish to have dividends paid directly into their bank account, rather than by cheque to their registered address, can complete a mandate form for this purpose. Queries relating to dividends, shareholdings, and requests for mandate forms should be directed to the Company's registrar, Capita Asset Services, on 0871 664 0300 (calls cost 10p per minute plus network extras, lines open 8:30am to 5:30pm Monday to Friday), or by writing to them at The Registry, 34 Beckenham Road, Beckenham, Kent BR3 4TU. Mandate forms can also be downloaded from Capita's website (see below).

Notification of change of address

Communications with Shareholders are mailed to the registered address held on the share register. In the event of a change of address or other amendments this should be notified to the Company's registrar, Capita Asset Services under the signature of the registered holder.

Share scam warning

We have become aware that a significant number of shareholders of VCTs managed by both Downing and other VCT managers have recently received unsolicited telephone calls from a company purporting to be acting on behalf of a client who is looking to acquire their VCT shares at an attractive price. We believe these calls to be part of a "Boiler Room Scam". **Shareholders are warned to be very suspicious if they receive any similar type of telephone call.**

Further information can be found on Downing's website under "Existing Investments". If you have any concerns, please contact Downing on 020 7416 7780.

INVESTMENT OBJECTIVES

Downing FOUR VCT plc is a Venture Capital Trust established under the legislation introduced in the Finance Act 1995. The Company's principal objectives are to:

- invest in a portfolio of Venture Capital investments and Structured Products;
- reduce the risks normally associated with Venture Capital investments;
- provide a full exit for Shareholders in approximately six years at no discount to NAV;
- maintain VCT status to enable Shareholders to retain their 30% income tax relief on investment; and
- target an annual dividend of at least 5p per DSO D Share and 4p per DP67 share.

The detailed investment policy adopted to achieve the investment objectives is set out in the Strategic Report on pages 68 to 70.

DIRECTORS

Lord Flight (Chairman) has worked in the financial services industry for over 40 years and co-founded Guinness Flight Global Asset Management. In 1998, upon Guinness Flight's acquisition by Investec, he became joint chairman of Investec Asset Management Limited. He was MP for Arundel and South Downs from 1997 to 2005 and Shadow Chief Secretary to the Treasury between 2000 and 2004. He was appointed to the House of Lords in January 2011. He is chairman of the EIS Association and CIM Investment Management Limited; and is a director of Metro Bank plc, Investec Asset Management Limited and of a number of other companies in the financial services sector. He is also a Commissioner of the Guernsey Financial Services Commission.

Sir Aubrey Brocklebank Bt. qualified as a chartered accountant prior to working for Guinness Mahon from 1981 to 1986, initially in its corporate finance department before helping to establish a specialist development capital department. From 1986 to 1990 he was a director of Venture Founders Limited, managing a £12 million venture capital fund and subsequently managed the Avon Enterprise Fund Limited. He is chairman of Hargreave Hale AIM VCT 1 plc and Puma VCT VIII plc and five other VCTs. He has spent the last twenty years helping companies through periods of change, usually helping them raise money, including a number of AIM-quoted companies.

Russell Catley has over 25 years' experience in the financial sector and is a founding partner at Catley Lakeman LLP, which specialises in structuring, advising on and selling structured products. Its clients include J.P. Morgan, Citigroup, Nomura and HSBC. He was previously with Citigroup Global Markets Limited and AXA Investment Managers UK Limited, also specialising in structured products.

Robin Chamberlayne is a chartered financial planner and has over 20 years' experience in the financial services industry. He formed Progressive Strategic Solutions in 1997, which provides financial advice and tax planning strategies. He also holds a number of board positions in companies in the renewable energy sector, including Armstrong Energy Limited.

Mark Mathias is an investment director at Arbor Ventures, an early stage investment business. He is also a director of a number of investment funds and of Absolute Partners, a consulting business. He has extensive experience of starting and managing small businesses. Previously, he founded and was chief executive of Quantum Asset Management, an award-winning fund management company which specialised in risk management, derivatives and structured investments. He has an MBA from Cranfield School of Management and has extensive experience of closed-ended investment funds, having also been marketing director of the investment trust business at Henderson Investors, and managing director of Finsbury Asset Management.

All the Directors are non-executive and are independent of the Investment Manager.

CHAIRMAN'S STATEMENT

Introduction

I am pleased to present the Annual Report for the year ended 31 March 2016. The year has seen a significant change as a result of the merger with three other VCTs in July 2015. The Company now has seven share pools in various different phases of their expected lives.

The oldest share pool, the DSO Ordinary Share pool, has now completed the task of returning funds to Shareholders and delivered an excellent final outcome. The DSO B Share pool has also commenced the process of returning funds to Shareholders although there is still some way to go to complete the task.

In April 2016, the three DP2011 Share pools reached their five year anniversaries and have begun the process of realising their investments. The DP2011 Low Carbon Share pool paid out a substantial dividend after the year end, and the DP2011 General and DP2011 Structured pools will make their first return of capital dividends shortly.

The DSO D and DP67 Share pools are effectively fully invested and are not scheduled to start realising their investment portfolios for some time yet.

Merger

The merger of four VCTs was completed on 21 July 2015. The merger was effected by Downing Structured Opportunities VCT 1 plc acquiring Downing Planned Exit VCT 2011 plc, Downing Planned Exit VCT 6 plc and Downing Planned Exit VCT 7 plc. The merged company was renamed as Downing FOUR VCT plc immediately following the transaction.

The significant increase in size as a result of the merger reduces the burden of running costs to Shareholders. The merger has also brought benefits in terms of complying with the VCT regulations and is providing additional flexibility during the process of unwinding the various investment portfolios.

Board

As part of the merger, two new directors have joined the Company's board. Sir Aubrey Brocklebank and Russell Catley were both previously directors of Downing Planned Exit VCT 2011 plc and have extensive experience in the VCT and relevant sectors. Sir Aubrey has taken on the role of Senior Independent Director. They have both been welcome additions to the Board.

A brief summary of each share pool is provided below.

DSO Ordinary Share pool

The Company's DSO Ordinary Shares were originally issued in 2009. In line with the planned exit strategy, the DSO Ordinary pool exited from its remaining investments during the year, which realised £6.2 million.

On 24 March 2016, the DSO Ordinary Share pool paid dividends of 36.16p per DSO Ordinary Share and 15.5p per DSO A Share, being the final return of capital payment to DSO Ordinary Shareholders. This also triggered a performance fee payable to the management team, equivalent to 7.8p per DSO Ordinary Share (as set out in more detail within the Strategic Report on pages 69 to 70).

Shareholders have received a total of 131.66p for a combined holding of one DSO Ordinary Share and one DSO A Share, compared to the cost for most Shareholders who invested in the original share offer, net of income tax relief, of 70.0p. This equates to a return of around 12% per annum over the life of the investment, which the Board believes is an excellent result for shareholders.

The task of returning funds to Shareholders is now complete and steps are now being taken to wind up this share class.

A detailed review of the final exits from the DSO Ordinary Share pool is presented in the Investment Manager's report on page 8.

DSO B Share pool

The DSO B Shares were originally issued in 2010 and the process of realising the portfolio and returning funds to Shareholders is now well under way. Two significant dividends were paid out during the year totalling 59.0p per DSO B Share.

At the year end, the NAV of a combined holding of one DSO B Share and one DSO C Share stood at 17.7p, an increase of 6.4p (9.1%) over the year after adjusting for the dividends paid during the year.

Based on the above values, total Shareholder proceeds are projected to trigger the hurdle levels at which a performance fee is paid to management. After providing for such a fee, it is estimated that the final Total Return to Shareholders will be 104.4p for a holding of one DSO B Share and one DSO C Share (split 94.7p per DSO B Share and 9.7p per DSO C Share), compared to the cost for Shareholders who invested in the DSO B Share offer, net of income tax relief, of 70.0p.

Plans are now being pursued to exit from the remaining investments held by the DSO B Share pool. The Manager is optimistic that the remainder of the portfolio will be realised over the coming months and hopes that the DSO B Share pool will be in a position to pay a further return of capital dividend representing either all or most of the remaining value later in 2016.

A detailed review of the DSO B Share pool is presented in the Investment Manager's report on page 11.

CHAIRMAN'S STATEMENT (continued)

DSO D Share pool

The DSO D Share NAV stood at 75.6p at the year end, a decrease of 0.1p per share or 0.1% over the year after adjusting for the dividends of 5.0p per share paid in the year. Total Return now stands at 95.6p per share, compared to the cost for Shareholders who invested in the DSO D Share offer, net of income tax relief, of 70p.

The DSO D Share pool holds some challenging nightclub and pub investments in its portfolio which continue to demand intensive focus from the Investment Manager. The process of realising investments is not targeted to commence until August 2017 so there is some time for some recovery and growth before the exit phase.

A more detailed review of the DSO D Share pool is presented in the Investment Manager's Report on page 20.

DP67 Share pool

The DP67 Share NAV stood at 60.4p at the year end, an increase of 2.2p per share or 2.7% since the date of the merger (after adjusting for the dividends paid of 2.0p per share). Total Return now stands at 84.2p per share, compared to the original cost for Shareholders who invested in 2007, net of income tax relief, of 70p.

A more detailed review of the DP67 Share pool is presented in the Investment Manager's report on page 30.

The DP67 Share pool will be commencing the process of realising its investments in order to return funds to investors in 2018.

DP2011 General Share pool

The NAV of a combined holding of one DP2011 General Ordinary Share and one DP2011 General A Share stood at 81.0p at the year end, an increase of 0.2p per share or 0.2% since the merger, after adjusting for the dividends paid of 2.5p per share. Total Return now stands at 103.5p per share, compared to the cost for Shareholders, net of income tax relief, of 70p.

The DP2011 General Share pool passed its five year anniversary in April 2016 and has since realised several of its investments. The first substantial return of capital dividend will be paid to shareholders in August 2016.

A more detailed review of the DP2011 General Share pool is presented in the Investment Manager's report on page 39.

DP2011 Structured Share pool

The NAV of a combined holding of one DP2011 Structured Ordinary Share and one DP2011 Structured A Share stood at 83.2p at the year end, a decrease of 0.2p per share or 0.2% since the merger, after adjusting for the dividends of 2.5p per share. Total Return now stands at 105.7p per share, compared to the cost for

Shareholders, net of income tax relief, of 70p.

Since passing its five year anniversary in April, the DP2011 Structured Share pool has realised several of its investments. The first substantial return of capital dividend will be paid to Shareholders in August 2016.

A more detailed review of the DP2011 Structured Share pool is presented in the Investment Manager's Report on page 49.

DP2011 Low Carbon Share pool

The DP2011 Low Carbon Share pool NAV stood at 41.6p at the year end, an increase of 5.4p per share or 5.0% since the merger after adjusting for the dividends paid of 2.5p per share. Total Return now stands at 115.5p per share, compared to the cost for Shareholders, net of income tax relief, of 70p (after rebasing to 100p per share during the merger in July 2015.)

The DP2011 Low Carbon Share pool passed its five year anniversary in April 2016 and has since realised several of its investments. The first substantial return of capital dividend was paid to Shareholders after the year end.

A more detailed review of the DP2011 Low Carbon Share pool is presented in the Investment Manager's report on page 59.

Dividends

In the initial 5-year period of each share pool, the Company's usual policy is to pay annual dividends totalling at least 5p per share (on a twice yearly basis). The target is at least 4p per annum for the DP67 Share pool.

In line with this policy, subject to approval at the forthcoming AGM, a dividend of 2.5p per DSO D Share and 2.0p per DP67 Share will be paid on 30 September 2016 to DSO D Shareholders and DP67 Shareholders respectively on the register at 9 September 2016.

The DP2011 General and Structured Share pools have made good progress with realisations of their respective portfolios and declare the following special dividends payable on 2 September 2016 to Shareholders on the register at 12 August 2016:

DP2011 General Ordinary Shares	22.5p
DP2011 Structured Ordinary Shares	32.5p

Since the year end, a special dividend of 50p per DP2011 Low Carbon Share was paid on 27 May 2016 as part of the return of capital process.

CHAIRMAN'S STATEMENT (continued)

Share buybacks

In the initial 5-year period of each share class, the Company operates a policy of buying in its own shares that become available in the market subject to regulatory restrictions and other factors such as availability of liquid funds. Any such purchases are undertaken at a price approximately equal to NAV i.e. at a nil discount. 10,280 DSO D Shares, 35,175 DP2011 General Shares and 35,175 DP2011 General A Shares were purchased in the year to 31 March 2016.

Now that the DSO B Share pool, and all of the DP2011 Share pools have commenced or will shortly commence realisations to return funds to Shareholders, the Company will no longer undertake any further share buybacks in respect of the DSO B Shares, DSO C Shares, DP2011 General Ordinary Shares, DP2011 General A Shares, DP2011 Structured Ordinary Shares, DP2011 Structured A Shares, and DP2011 Low Carbon Shares. The Board believes it is fairer to all Shareholders to distribute proceeds from the investment realisations to all the above Shareholders by way of dividends, rather than setting aside sums to fund share buybacks.

As noted above the DSO Ordinary Share pool is in the process of winding up and the shares have no residual value.

VCT rules

As Shareholders may be aware, a number of potentially significant changes to the VCT rules were made in November 2015 and some further changes were announced in the Budget in March 2016. The rules add further restrictions on new investments that can be made by VCTs.

The impact of the new rules on most of the current share pools is expected to be minimal as they are not expecting to make any new investments.

Annual General Meeting ("AGM")

The Company's seventh AGM will be held at Fifth Floor, Ergon House, Horseferry Road, London, SW1P 2AL at 11.15 a.m. on 22 September 2016.

One item of special business is proposed: a special resolution to renew the authority to allow the Company to make market purchases of its shares.

Outlook

The Company will next report on the six month period ending 30 September 2016.

The result of the recent EU referendum has started what appears to be, a period of uncertainty in financial markets. The Board believes that the impact on the existing portfolios should be minimal given that the investments are in unquoted businesses which generally have significant asset backing. The Board will, of course, continue to monitor the situation closely, however the options available to the Board and Manager in the event of a significant deterioration of the economy are relatively limited.

Over the coming months the process of realising investments in the DSO B, DP2011 General, DP2011 Structured and DP2011 Low Carbon Share pools will continue/commence. In respect of all of these pools, the Manager is hopeful that the Company will be in a position to pay a further substantial return of capital dividend later this year.

We expect there to be a busy few months for your Company, and I look forward to reporting developments in the Half Yearly Report to 30 September 2016.

Structure of shareholdings

The Company's DSO Ordinary Share offer for subscription was open between 27 January 2009 and 2 September 2009 when the Company was under its former name, Downing Protected Opportunities VCT 1 plc. Shareholders who invested in this offer received an equal number of DSO Ordinary Shares and DSO A Shares. The combined price of issue of one DSO Ordinary Share and one DSO A Share was £1 in respect of allotments which took place on or before 30 April 2009. Shares allotted after this date were issued at slightly higher prices to take account of the increase in NAV that had occurred by that time.

The DSO A Shares are designed to facilitate the payment of a performance incentive to management. The performance incentive which became due during the year was paid by the dividend in respect of the DSO A Shares, of which approximately one third are held by management.

INVESTMENT MANAGER'S REPORT – DSO ORDINARY SHARE POOL

Introduction

In January 2016, the DSO Ordinary Share pool completed the task of realising its investments, and on 24 March 2016, paid final dividends.

Net asset value and results

Over the life of their investment, investors in the DSO Ordinary Share pool received total dividends of 116.16p per DSO Ordinary Share and 15.50p per DSO A Share making a total return of 131.66p for an original investment of 100p (70p net of income tax relief.) This equates to a return of around 12% per annum over the life of the investment, based on net cost, which we believe represents a very good return to Shareholders.

Venture Capital investments

Investment activity

The DSO Ordinary Share pool began the year with £5.6 million of investments which were realised in full during the year. Total disposal proceeds of £6.2 million were received.

All the remaining investments were sold during the year, some of the highlights being Redmed Limited, the Lincoln bar operator, which achieved a gain over original cost of £247,000; Domestic Solar Limited, which generated an uplift over original cost of £329,000; and Quadrate Spa Limited and Quadrate Catering Limited, the final investments to be sold from the portfolio, for a total of £1.3 million and a profit over cost of £281,000.

Not all exit proceeds exceeded original cost and two investments were sold at discounts in order to provide liquidity to the fund. These included Future Biogas (SF) Limited and Mosaic Spa and Health Clubs Limited which generated combined proceeds of £731,000.

The 3D Pub Co Limited and Ecosol Limited were realised for a total of £1.1 million, both at values marginally below cost due to underperformance of the investments.

Several smaller exits also completed including Fenkle Street LLP, Chapel Street Services Limited, Chapel Street Food and Beverage Limited and Chapel Street Hotel Limited, for proceeds totalling £188,000.

Outlook

We are very satisfied with the final performance of the DSO Ordinary Share pool. Following the payment of the final dividends on 24 March 2016, the DSO Ordinary Share pool had negligible value at the year end and, in line with the Articles of the Company, the Company is taking steps to cancel the share class. We will notify Shareholders of progress in due course.

Structure of shareholdings

The Company's DSO B Share offer for subscription was open between 15 October 2009 and 26 April 2010. For every £1 invested, Shareholders received one DSO B Share and one DSO C Share.

The DSO C Shares are designed to facilitate the payment of a performance incentive to management should any such incentive become payable in the future. The DSO C Shares initially had a net asset value of 0.1p per share which is only expected to increase when, and if, a performance incentive becomes payable. Any performance incentive due will be paid by declaring dividends in respect of the DSO C Shares, of which approximately one third are held by management.

Target exit date

The fifth anniversary of the close of the DSO B Share offer was April 2015, and so the process of realising the DSO B Share pool investments commenced during the year with two significant dividends having been paid to date. Shareholders should note that the process of realising the share pool's investments may take some time to complete; however, a further distribution is expected later in 2016 or early 2017.

INVESTMENT MANAGER'S REPORT- DSO B SHARE POOL

Introduction

The DSO B Share pool holds investments in 11 companies and is fully invested. The focus this year has been on realisations and 12 full exits have completed in the period. We are in the process of developing realisation plans for the remainder of the portfolio.

Net asset value and results

The NAV per DSO B Share at 31 March 2016 stood at 17.6p and per DSO C Share at 0.1p, a rise of 6.4p for a combined holding of one DSO B Share and one DSO C Share over the year after adjusting for dividends. Total Return (combined NAV plus cumulative dividends) stood at 104.4p for a combined holding, after taking account of an estimated performance incentive of 4.8p.

The return on ordinary activities after taxation for the year was £1.3 million (2015: £82,000), comprising a revenue return of £736,000 (2015: £687,000) and a capital return of £559,000 (2015: loss £605,000).

Venture Capital investments

Investment activity

The DSO B Share pool began the period with £13.7 million of investments and after realisations totalling £12.1 million, ended the year with £3.0 million spread across a portfolio of 11 Venture Capital investments.

Three follow on investments were acquired at a discount from the DSO Ordinary Share pool in order to assist the older pool with short term liquidity: £470,000 in Redmed Limited, the owner and operator of a bar in Lincoln; £244,000 in Future Biogas (SF) Limited, the operator of a biogas plant in Norfolk; and £92,000 in Mosaic Spa and Health Clubs Limited.

18 exits occurred in the period generating proceeds of £12.1 million and a realised gain over the opening 2015 valuation of £908,000.

Some highlights are as follows: Domestic Solar Limited, the installer of domestic solar panels across the UK, generated an uplift over original cost of £263,000; Alpha Schools Holdings Limited was realised in the period for a gain of £294,000 over original cost; Antelope Pub Limited which owns a pub of the same name in South West London was sold in the year for a total gain of £261,000.

Quadrat Spa Limited and Quadrat Catering Limited were sold for a total profit over cost of £321,000. £330,000 of loan note interest collected on exit offsets the write down of the remaining holding.

Green Electricity Generation Limited was sold at an uplift over cost of £129,000.

Other full exits in the period that generated proceeds above cost include Slopingtactic Limited and Progressive Energies Limited.

Liverpool Nurseries (Holdings) Limited was sold for £830,000 – an uplift over opening value of £43,000, although marginally below original investment cost of £870,000.

The exits of UK Solar (Hartwell) LLP, Future Biogas (Reepham Road) Limited, West Tower Property Limited and Commercial Street Hotel, all returned their original costs totalling £3.9 million to the share pool. Interest totalling over £550,000 was collected over the life of these investments.

Unfortunately not all exits exceeded original cost and some were sold at discounts due to performance issues. These included Ecosol Limited, Kilmarnock Monkey Bar Limited and Camandale Limited which were sold for proceeds totalling £550,000 compared to original costs totalling £711,000.

Portfolio valuation

The majority of the DSO B Share portfolio performed in line with expectations during the year. There were a small number of valuation movements and one considerable write down, which resulted in a net unrealised loss of £252,000.

Fenkle Street LLP, is a property development company based in Newcastle. The hotel is trading well and an uplift in the value of £123,000 has been recognised.

Kidspace Adventures Holdings Limited, the owner of three well established children's play areas in Croydon, Romford and Epsom continues to perform well and an increase in the valuation of £34,000 has been recognised in the period.

Avon Solar Energy, a domestic solar panel installer in Bristol was also uplifted by £15,000.

Future Biogas (Reepham Road) Limited, the owner and operator of a biogas plant in Norfolk, has been sold in the period as described above. The remaining value is based on a deferred payment expected in the coming year.

Small decreases in value were also made on three other investments: £15,000 to Mosaic Spa and Health Clubs Limited; £9,000 to Redmed Limited; and £3,000 to Camandale Limited.

Outlook

The realisations of the DSO B share pool investments have continued well and exit plans for the remaining holdings are progressing. We believe that there are good prospects for the majority of the remaining portfolio to be realised by the end of 2016.

Structure of shareholdings

The Company's DSO D Share offer for subscription was open between 31 August 2011 and 17 August 2012. For every £1 invested Shareholders received one DSO D Share.

Target exit date

It is intended that the DSO D Share pool will seek to realise its investments and start returning proceeds to investors around August 2017. Shareholders should note that the process of realising the share pool's investments may take some time to complete.

INVESTMENT MANAGER'S REPORT- DSO D SHARE POOL

Introduction

To date, the DSO D Share pool has invested £4.5 million in 15 Venture Capital investments and £1.1 million in three Structured Product investments.

The pool began the year with £4.9 million of venture capital investments and ended the period with £4.5 million. Structured Product investments were £1.5 million at the start of the year and ended at £1.1 million. One Structured Product investment matured in the period.

Net asset value and results

The net asset value ("NAV") per DSO D Share at 31 March 2016 stood at 75.6p a small decrease of 0.1p or 0.1% after adjusting for the dividend paid in the year. Total Return stands at 95.6p per share compared to initial cost to Shareholders, net of income tax relief, of 70.0p per share.

The profit on ordinary activities after taxation for the year was £48,000 (2015: £204,000), comprising a revenue profit of £129,000 (2015: £120,000) and a capital loss of £81,000 (2015: gain of £84,000).

Venture Capital investments

Investment activity

The DSO D Share pool began the period with £6.4 million of investments and ended with £5.7 million spread across a portfolio of 15 Venture Capital investments and three Structured Product investments.

A new investment of £400,000 was made in Apex Energy Limited. The company is seeking to undertake the build and operation of electricity generation power plants.

A restructuring of the investment replaced £112,000 of non-qualifying loan with a qualifying investment in Pearce and Saunders Limited, the freehold pub company that operates three sites in South East London. Trade has grown slowly at the newly opened pubs, and the valuation has been reduced by £24,000 in the year.

A further £20,000 was also invested in a new company, Pearce and Saunders DevCo Limited that will be used to take advantage of a related development opportunity.

One full exit of a qualifying company occurred in the period: Tor Solar Limited, the operator of a solar farm in the south west of England, generating proceeds of £709,000 and a £69,000 profit over the original investment cost.

Portfolio valuation

The majority of the DSO D Share pool investments have performed in line with expectations over the period and continue to be valued at original cost. There have however been several adjustments made which have resulted in a net unrealised loss of £162,000 in the year.

Lambridge Solar Limited, the owner of a solar farm in Lincolnshire is performing well and the valuation has been increased by £17,000.

Performance at two Scottish nightclubs, Fubar Stirling Limited and City Falkirk Limited, has continued to be below expectations and value reductions of £116,000 and £39,000 respectively have been made. Whilst we continue to work closely with the management of both clubs to bring trading back on track, it is clear that the depressed economic conditions in the region are a major contributing factor to the performance.

Structured Products

One structured product was realised during the year, generating proceeds of £409,000. This represented a profit on cost of £11,000 and an uplift of £58,000 over the March 2015 valuation.

Outlook

The focus now for the DSO D Share portfolio is on close monitoring and support of the portfolio companies to ensure that prospects for growth are optimised in the period until the realisation process commences in 2017.

Structure of shareholdings

The original Share offers under Downing Planned Exit VCT 6 plc and Downing Planned Exit VCT 7 plc were launched in July 2007 followed by a Share Realisation and Reinvestment Programme ("SRRP") offered in 2013, under which many investors committed for a further five years. For every £1 invested, Shareholders received one Downing Planned Exit VCT 6 Share or one Downing Planned Exit VCT 7 Share. Each Share was converted to a Downing FOUR DP67 share as part of the merger in July 2015.

Target exit date

It is intended that the DP67 Share pool will seek to realise its investments and start returning proceeds to investors around 2018. Shareholders should note that the process of realising the share pool's investments may take some time to complete.

INVESTMENT MANAGER'S REPORT - DP67 SHARE POOL

Introduction

The DP67 Share pool was formed as part of the merger in July 2015 and includes the portfolios of Downing Planned Exit VCT 6 plc and Downing Planned Exit VCT 7 plc. These companies were sister companies which held identical investment portfolios.

Net asset value and results

The net asset value ("NAV") per DP67 Share at 31 March 2016 stood at 60.4p an increase of 2.2p or 2.7% since the merger, after adjusting for the dividends paid in the period. Total Return stands at 84.2p per share compared to initial cost to Shareholders, net of income tax relief, of 70.0p per share.

The profit on ordinary activities after taxation for the period since the merger was £259,000, comprising a revenue profit of £93,000 and a capital gain of £166,000.

Venture Capital investments

Investment activity

At the merger date, the DP67 Share pool held £4.6 million of investments and ended the period with £5.8 million spread across a portfolio of 10 Venture Capital investments.

During the period since the merger there were four follow on investments made:

Gatewales Limited holds rights to profit shares from a development project. The project is performing in line with plan and the profit shares are now being paid out - £424,000 was received in the year. A further £350,000 investment was purchased in the period since the merger. In addition the investment was uplifted by £285,000 at the year end, reflecting the anticipated future returns.

An additional £245,000 was invested in the Thames Club Limited, a health and fitness centre in Staines. As previously reported the value of the investment has deteriorated recently, following increased local competition. During the period, the entire holding was sold for £100,000, against a total cost of £735,000.

A further investment of £328,000 was made into Fenkle Street LLP and £584,000 into Snow Hill Developments LLP.

New investments totalling £965,000 were made in Kidspace Adventures Holdings Limited, which owns three well established children's play areas, and Hobblers Heath Limited which is building an adventure playground in Hounslow.

Two short term non-qualifying loans made to UK Solar (Hartwell) LLP and UK Solar (Lower Newton) LLP were redeemed in full at par during the period, generating total proceeds of £1.0 million. £56,000 of interest was received for these loans over the period held.

Two small new investments in Dominions House Limited and London City Shopping Centre Limited for £54,000 and £99,000 respectively were also made during the period.

Portfolio valuation

The DP67 Share pool portfolio held at the year-end has performed well and there were two significant uplifts in the period; £285,000 on Gatewales Limited, noted above; and £204,000 on Cadbury House Limited.

Additionally, Fenkle Street LLP, a property development company based in Newcastle, was uplifted in value by £114,000.

The investment in Snow Hill Developments LLP was also uplifted by £84,000.

These uplifts were partly offset by a value reduction of £205,000 on Oak Grove Renewables Limited due to performance issues at the anaerobic digestion plant.

The total uplift on the portfolio was £482,000 over the period since the merger.

Outlook

We are generally pleased with the state of the DP67 portfolio, although The Thames Club performance was a disappointment. The portfolio is now almost fully invested and we will be continuing to monitor all investments closely to ensure that prospects for growth are maximised.

Structure of shareholdings

The original Share offer under Downing Planned Exit VCT 2011 plc was launched in March 2011. For every £1 invested, Shareholders received one Downing Planned Exit 2011 General Share and one Downing Planned Exit 2011 General A Share. Each Share was converted to one Downing FOUR DP2011 General Ordinary share and one Downing FOUR DP2011 General A share as part of the merger in July 2015.

Target exit date

The fifth anniversary of the close of the DP2011 General Share offer was April 2016, and so the process of realising the DP2011 General Share pool investments has recently commenced. Shareholders should note that the process of realising the share pool's investments may take some time to complete.

INVESTMENT MANAGER'S REPORT - DP2011 GENERAL SHARE POOL

Introduction

At 31 March 2016 the DP2011 General Share pool was fully invested with a portfolio value of £10.4 million, comprising 13 fully or partly qualifying investments and a further six non-qualifying investments.

Now that the five-year anniversary has passed, we will look to seek appropriate exit strategies to maximise returns to Shareholders.

Net asset value and results

The combined net asset value ("NAV") of one DP2011 General Ordinary Share and one DP2011 General A Share at 31 March 2016 stood at 81.0p an increase of 0.2p or 0.2% since the merger, after adjusting for the dividend paid in the period. Total Return stands at 103.5p per share compared to initial cost to Shareholders, net of income tax relief, of 70.0p per share.

The profit on ordinary activities after taxation for the period since the merger was £32,000, comprising a revenue profit of £383,000 and a capital loss of £351,000.

Venture Capital investments

Investment activity

At the merger date, the DP2011 General Share pool held £13.1 million of investments and ended the period with £10.4 million spread across a portfolio of 19 Venture Capital investments.

The process of exiting investments in the portfolio has begun in order to return funds to Shareholders. As such, a number of investments were sold in the period.

A portfolio of solar panel companies was sold during the period; Residential PV Trading Limited for £892,000, South West Farms Limited for £742,000 and Angel Solar Limited for £369,000. The total profit over cost of these three disposals was £386,000.

Antelope Pub Limited owns and operates a pub of the same name in South West London. The holding of £300,000 was sold at par during the period.

Dominions House Limited was fully disposed of in the period for £98,000.

Portfolio valuation

The DP2011 General portfolio suffered a number of setbacks in the period with a total unrealised loss of £657,000 being recognised.

Odysian (Holdings) Limited, the holding company for a nightclub and bar in Chester, has suffered a significant drop in trade; Mosaic Spa and Health Club Limited has had continued performance issues at the Shrewsbury site and Oak Grove Renewables Limited had issues at the anaerobic digestion plant.

Performance at two Scottish nightclubs, Fubar Stirling Limited and City Falkirk Limited, has continued to operate below expectations and value reductions have been made. Whilst we continue to work closely with the management of both clubs to bring trading back on track, it is clear that the depressed economic conditions in the region are a major contributing factor to the weak performance.

Outlook

The DP2011 General Share pool is now focussed on the realisation of the portfolio, and the coming months should be busy. We expect to make a substantial dividend payment in the near future, however the full disposal process may take some time to complete.

Structure of shareholdings

The original Share offer under Downing Planned Exit VCT 2011 plc was launched in March 2011. For every £1 invested, Shareholders received one Downing Planned Exit 2011 Structured Share and one Downing Planned Exit 2011 Structured A Share. Each Share was converted to one Downing FOUR DP2011 Structured Ordinary Share and one Downing FOUR DP2011 Structured A Share as part of the merger in July 2015.

Target exit date

The fifth anniversary of the close of the DP2011 Structured Share offer was April 2016, and so the process of realising the DP2011 Structured Share pool investments has recently commenced. Shareholders should note that the process of realising the share pool's investments may take some time to complete.

INVESTMENT MANAGER'S REPORT- DP2011 STRUCTURED SHARE POOL

Introduction

At 31 March 2016 the DP2011 Structured Share pool was fully invested with a portfolio value of £7.4 million, comprising 13 fully or partly qualifying venture capital investments and four Structured Product investments.

Now that the five-year anniversary has passed, we are looking to seek appropriate exit strategies to maximise returns to Shareholders.

Net asset value and results

The net asset value ("NAV") of a combined holding of one DP2011 Structured Ordinary Share and one DP2011 Structured A Share at 31 March 2016 stood at 83.2p a decrease of 0.2p or 0.2% since the merger after adjusting for the dividend paid in the period. Total Return stands at 105.7p per share compared to initial cost to Shareholders, net of income tax relief, of 70.0p per share.

The loss on ordinary activities after taxation for the period since the merger was £10,000, comprising a revenue profit of £247,000 and a capital loss of £257,000.

Venture Capital investments

Investment activity

At the merger date, the DP2011 Structured Share pool held £9.2 million of investments and ended the period with £7.3 million spread across a portfolio of 13 Venture Capital investments and four Structured Product investments.

The process of exiting investments in the portfolio has begun in order to return funds to Shareholders. As such, a number of investments were sold in the period.

A portfolio of solar panel companies was sold during the period; Residential PV Trading Limited for £595,000, South West Farms Limited for £495,000 and Angel Solar Limited for £246,000. The total profit over cost of these three disposals was £258,000.

Portfolio valuation

The DP2011 Structured portfolio suffered a number of setbacks in the period and the unquoted portfolio was written down by £494,000 over the period since the merger.

Odysian (Holdings) Limited, the holding company for a nightclub and bar in Chester has suffered a significant drop in trade; Mosaic Spa and Health Club Limited has had continued performance issues at the Shrewsbury site and Oak Grove Renewables Limited has suffered performance issues at the anaerobic digestion plant.

Performance at two of the Share pool's Scottish nightclubs, Fubar Stirling Limited and City Falkirk Limited, has continued to operate below expectations and value reductions have been made. Whilst we continue to work closely with the management of both clubs to bring trading back on track, it is clear that the depressed economic conditions in the region are a major contributing factor to the weak performance.

Some small uplifts have also been recognised across the portfolio: Kidspace Adventures Holdings Limited, Tooting Tram and Social Limited and Avon Solar Energy Limited totalling £58,000.

Structured Products

The value of the Structured portfolio has increased by £31,000 over the period since the merger.

There was one redemption during the period at a gain against original cost of £41,000.

After the period end the remainder of the Structured portfolio was disposed of generating proceeds totalling £1.5 million at a profit of £282,000 over original cost.

Outlook

The DP2011 Structured Share pool is now focussed on the realisation of the portfolio. We expect to make a substantial dividend payment in the near future, however the full disposal process may take some time to complete.

Structure of shareholdings

The original Share offer under Downing Planned Exit VCT 2011 plc was launched in March 2011. For every 93.5p invested, Shareholders received one Downing Planned Exit 2011 Low Carbon Share. Each Share was converted to 0.935 Downing FOUR DP2011 Low Carbon Ordinary shares as part of the merger in July 2015 in order to rebase the cost of the original shares to £1 in line with the other share pools.

Target exit date

The fifth anniversary of the close of the DP2011 Low Carbon Share offer was April 2016, and so the process of realising the DP2011 Low Carbon Share pool investments has recently commenced. Shareholders should note that the process of realising the share pool's investments may take some time to complete.

INVESTMENT MANAGER'S REPORT- DP2011 LOW CARBON SHARE POOL

Introduction

The task of building the DP2011 Low Carbon portfolio was completed at an early stage. The process of realising the portfolio and returning funds to Shareholders is now underway and a substantial dividend of 50p was paid out on 27 May 2016.

Net asset value and results

The net asset value ("NAV") per DP2011 Low Carbon Share at 31 March 2016 stood at 41.6p an increase of 5.4p or 5.0% since the merger after adjusting for the dividend paid in the period. Total Return stands at 115.5p per share compared to initial cost to Shareholders, net of income tax relief, of 70.0p per share, after rebasing to 100p during the merger.

The profit on ordinary activities after taxation for the period since the merger was £424,000, comprising a revenue profit of £211,000 and a capital gain of £213,000.

Venture Capital investments

Investment activity

At the merger date, the DP2011 Low Carbon Share pool held £6.9 million of investments and ended with £3.0 million spread across a portfolio of 4 Venture Capital investments. All of the investments own solar PV panels sited on a mix of commercial and residential rooftops, all of which received Feed in Tariffs ("FiTs").

During the period a successful exit was made from three of the companies held at the date of the merger. Green Electricity Generation Limited, Progressive Energies Limited and PV Generation Limited were sold for total proceeds of £4.1 million generating a gain against original pre merger costs of £733,000.

Portfolio valuation

The remainder of the portfolio is performing consistently and there are no valuation movements in the period.

Outlook

We are satisfied with the progress made by the portfolio companies to date, and with the exits already secured. We are optimistic that a full exit from the rest of the portfolio can be achieved in the fourth quarter of 2016 in order to facilitate a final dividend to shareholders at the end of this year or early next year.

STRATEGIC REPORT

The Directors present the Strategic Report for the year ended 31 March 2016. The Board have prepared this report in accordance with the Companies Act 2006 (Strategic Report and Directors' Reports) Regulations 2013.

Principal objectives and strategy

The Company's principal objective is to provide Shareholders with an attractive level of tax-free capital gains and income generated from a portfolio of investments in a range of different sectors.

The Company's strategy for achieving this objective is to:

- invest in a portfolio of venture capital investments across a range of differing sectors, primarily in the UK and EU; and
- comply with the VCT regulations to enable Shareholders to retain the initial income tax relief and ongoing tax reliefs.

Business review and developments

The Company expanded significantly following the completion of the merger in July 2015, under which Downing Structured Opportunities VCT 1 plc acquired the assets and liabilities of the following VCTs:

Downing Planned Exit VCT 2011 plc ("DP2011")
Downing Planned Exit VCT 6 plc ("DP6")
Downing Planned Exit VCT 7 plc ("DP7")

The merged company was renamed Downing FOUR VCT plc.

DP2011 contained three share pools which are the new D4 DP2011 pools; General, Structured and Low Carbon. The DP6 and DP7 assets were merged into one pool in Downing FOUR entitled "DP67" as the two VCTs were sister entities with identical portfolios.

DSO Ordinary Share pool

The DSO Ordinary Share pool began the year with £5.6 million of investments which were realised in full during the year.

The profit on ordinary activities after taxation for the period was £571,000, comprising a revenue profit of £328,000, and a capital gain of £243,000.

DSO B Share pool

The DSO B Share pool began the period with £13.7 million of investments and after realisations totalling £12 million, ended the year with £3.0 million spread across a portfolio of 11 Venture Capital investments.

The profit on ordinary activities after taxation for the period was £1.3 million, comprising a revenue profit of £736,000 and a capital gain of £559,000.

DSO D Share pool

The DSO D Share pool began the period with £6.4 million of investments and ended with £5.7 million spread across a portfolio of 15 Venture Capital investments and three Structured Product investments.

The profit on ordinary activities after taxation for the period was £48,000 comprising a revenue profit of £129,000 and a capital loss of £81,000.

DP67 Share pool

At the merger date, the DP67 Share pool held £4.6 million of investments and ended the period with £5.8 million spread across a portfolio of ten Venture Capital investments.

The profit on ordinary activities after taxation for the period was £259,000 comprising a revenue profit of £93,000 and a capital profit of £166,000.

DP2011 General Share pool

At the merger date, the DP2011 General Share pool held £13.1 million of investments and ended the period with £10.4 million spread across a portfolio of 19 Venture Capital investments.

The profit on ordinary activities after taxation for the period was £32,000 comprising a revenue profit of £383,000 and a capital loss of £351,000.

DP2011 Structured Share pool

At the merger date, the DP2011 Structured Share pool held £9.2 million of investments and ended the period with £7.3 million spread across a portfolio of 13 Venture Capital investments and four Structured Product investments.

The loss on ordinary activities after taxation for the period was £10,000 comprising a revenue profit of £247,000 and a capital loss of £257,000.

DP2011 Low Carbon Share pool

At the merger date, the DP2011 Low Carbon Share pool held £6.9 million of investments and ended with £3.0 million spread across a portfolio of four Venture Capital investments.

The profit on ordinary activities after taxation for the period was £424,000 comprising a revenue profit of £211,000 and a capital profit of £213,000.

The Company's business and developments during the period are reviewed further within the Chairman's Statement, Investment Manager's reports and the Review of Investments for each share pool.

STRATEGIC REPORT (continued)

Key performance indicators

At each Board meeting, the Directors consider a number of performance measures to assess the Company's success in meeting its objectives. The Board believes the Company's key performance indicators are Net Asset Value, Total Return (NAV plus cumulative dividends paid to date) and dividends per share (see Shareholder Information pages). In addition, the Board considers the Company's performance in relation to other VCTs.

Principal risks and uncertainties

The principal risks faced by the Company, which include market risk, credit risk and liquidity risk, are summarised within note 16 to the financial statements.

In addition to these risks, the Company, as a fully listed company on the London Stock Exchange and as a Venture Capital Trust, operates in a complex regulatory environment and therefore faces a number of related risks. A breach of the VCT Regulations could result in the loss of VCT status and consequent loss of tax reliefs currently available to Shareholders and the Company being subject to capital gains tax. Serious breaches of other regulations, such as the Listing Rules of the Financial Conduct Authority, and the Companies Act, could lead to suspension from the Stock Exchange and damage to the Company's reputation.

Four of the share pools are now seeking to realise their portfolios. This process may take some time, and there is an associated risk that timely disposals could result in a lower realised value.

The Board reviews and agrees policies for managing each of these risks. They receive quarterly reports from the Manager which monitors the compliance of these risks, and places reliance on the Manager to give updates in the intervening periods. These policies have remained unchanged since the beginning of the financial year.

Viability statement

In accordance with C.2.1 and C.2.2 of the 2014 revision of the UK Corporate Governance Code, the Directors have assessed the prospects of the Company over a longer period than the 12 months required by the 'Going Concern' provision. The Board has conducted this review for the period covering the expected remaining life of each of the existing share pools, being approximately three years from the balance sheet date.

The three year review considers the principal risks facing the Company which are summarised within note 16 as well as the Company's cash flows, dividend cover and VCT monitoring compliance over the period. The three year review makes assumptions about the normal level of capital recycling likely to occur, expenses, dividends and share buybacks.

The Directors believe that the Company is well placed to manage its business risks successfully. Based on the results, the Board believes that, taking into account the Company's current position, and subject to the principal risks faced by the business, the Company will be able to continue in operation and meet its liabilities as they fall due for the expected remaining life of each of the existing share pools.

Business model

The Company operates as a Venture Capital Trust to ensure its Shareholders can benefit from tax reliefs available.

The business of the Company is to act as an investment company, investing in a portfolio which meets the conditions set within its investment policy, as shown on the following page.

STRATEGIC REPORT (continued)

Investment policy

Asset allocation

It is intended that at least 70% of each share pools' funds are invested in VCT investments within three years of the close of the relevant share offer. The remainder of the funds will be held in Non-Qualifying Investments:

For share pools designated as having a "planned exit" strategy, following the fifth anniversary of the last share allotment, the Company will seek realisations of its investments such that funds can be returned to Shareholders.

Venture Capital investments

Venture Capital investments comprise investments in UK businesses that own substantial assets (over which a charge will be taken by the Company) or have predictable revenue streams from financially sound customers. VCT investments will usually be VCT qualifying investments under the VCT Regulations.

As a condition of each of its investments, it is intended that the Company will have the ability to restrict the investee company's ability to borrow.

Non-Qualifying investments

The funds not employed in VCT investments will typically be invested in:

- Secured loans; and/or
- Structured Products; and/or
- Fixed income securities

Secured loans will be secured on assets held by the investee company.

Structured Products will be primarily designed to produce capital appreciation, rather than income. Therefore, the profit arising from the disposal or maturity of the Structured Products typically gives rise to capital gains, which are tax-free for the Company and can be distributed tax-free to Shareholders.

The choice of index or exchange that the Company's Structured Products are linked to will be dependent on market conditions at the time of investment.

Fixed income securities will consist of bonds issued by the UK Government, major companies and institutions, liquidity funds, fixed deposits, or similar securities, and will have credit ratings of not less than A minus (Standard & Poor's rated)/A3 (Moody's rated).

Risk Diversification

The Directors control the overall risk of the Company. The Manager ensures that the Company has exposure to a diversified range of VCT investments from different sectors.

Listing rules

In accordance with the listing rules:

- (i) the Company may not invest more than 10% in aggregate, of the value of total assets of the Company at the time an investment is made in other listed closed-ended investment funds except listed closed-ended investment funds which have published investment policies which permit them to invest no more than 15% of their total assets in other closed-ended investment funds;
- (ii) the Company must not conduct any trading activity which is significant in the context of the Company; and
- (iii) the Company must, at all times, invest and manage its assets in a way which is consistent with its objective of spreading investment risk and in accordance with its published investment policy set out in this document. This investment policy is in line with Chapter 15 of the Listing Rules and Part 6 of the Income Tax Act 2007.

STRATEGIC REPORT (continued)

Venture Capital Trust Regulations

In continuing to maintain its VCT status, the Company complies with a number of regulations as set out in Part 6 of the Income Tax Act 2007. How the main regulations apply to the Company is summarised as follows:

1. The Company holds at least 70% of its investments in qualifying companies (as defined by Part 6 of the Income Tax Act 2007);
2. At least 30% of the Company's qualifying investments (by value) are held in "eligible shares" for funds raised before 6 April 2011 and at least 70% in "eligible shares" for funds raised after 6 April 2011 ("eligible shares" generally being ordinary share capital);
3. At least 10% of each investment in a qualifying company is held in "eligible shares" (by cost at time of investment);
4. No investment constitutes more than 15% of the Company's portfolio (by value at time of investment);
5. The Company's income for each financial year is derived wholly or mainly from shares and securities; and
6. The Company distributes sufficient revenue dividends to ensure that not more than 15% of the income from shares and securities in any one year is retained.

Borrowing policy

It is not the Company's intention to have any borrowings. The Company does, however, have the ability to borrow a maximum amount equal to 15% of the aggregate amount paid on any shares issued by the Company (together with any share premium thereon).

Performance incentive fees

DSO Ordinary Share pool and DSO B Share pool

The structure of DSO A Shares and DSO C Shares enables an incentivisation of the management team by way of a distribution of income.

No performance incentive fee will be payable until Shareholders:

- i) receive proceeds, by way of dividends/distributions/share buybacks ("Total Proceeds"), of at least 100.0p per £1 invested; and
- ii) achieve a tax-free compound return of at least 7% per annum (after allowing for income tax relief on investment).

Subject to these conditions being met, Total Proceeds will be distributed as follows:

Shareholders	97% of the first 100.0p of proceeds per £1 invested and 80% thereafter
Management	3% of the first 100.0p of proceeds and 20% thereafter

If the above distribution would result in Shareholders receiving less than 100.0p per £1 invested or lower than a 7% compound return, then the return to the management team will be reduced until Shareholders receive at least 100.0p per £1 invested and a 7% compound return. Management's share of the Total Proceeds will be subject to a cap at 1.25% of net assets of the Company per annum and will only be payable if the hurdle is achieved.

The maximum performance incentive is limited to an amount equivalent to 1.25% of net assets per annum ("the Cap"). If, in any accounting period, the performance incentive payable is less than the Cap then the shortfall shall be aggregated to the Cap in respect of the following accounting period and so on until fully utilised.

DSO D Share pool

The DSO D Shares enable a payment, by way of a fee, of the performance incentive fees to the management team.

No performance incentive fee will be payable until Shareholders:

- i) receive proceeds, by way of dividends/distributions/share buybacks ("Total Proceeds"), of at least 100.0p per £1 invested; and
- ii) achieve a tax-free compound return of at least 7% per annum (after allowing for income tax relief on investment).

Subject to these conditions, "the Hurdles", being met, the performance incentive will be 3.0p per DSO D Share plus 20% above 100.0p per DSO D Share of the funds available (for distribution to DSO D Shareholders and the payment of the performance incentive).

The performance incentive will only be paid to the extent that the Hurdles continue to be met and will be subject to a maximum amount over the life of the Company equivalent to 7.0p per DSO D Share (based on the number of DSO D Shares in issue at the close of the Offers). After the Hurdles have been met, the performance incentive will be deducted from any distribution.

STRATEGIC REPORT (continued)

DP2011 General Share pool and DP2011 Structured Share pool

The structure of DP2011 General A Shares and DP2011 Structured A Shares ("DP2011 A Shares") enables a payment, by way of a distribution of income, of the performance incentive fees to Management (Downing LLP, as defined in the prospectus).

Total Proceeds will be distributed as follows (measured separately for the DP2011 General and DP2011 Structured Share pools):

Approximate split of Total Proceeds

Total Proceeds per DP2011 Ordinary Share (Gen or Struc)	Shareholder Proceeds	Management	Shareholders
Up to 70p	DP2011 Ordinary Shareholders	0%	100%
Above 70p and below 120p	DP2011 A Shareholders	15%	85%
120p and above	DP2011 Ordinary Shareholders	0%	100%

Partners and staff of the Investment Manager have subscribed for 15% of the total DP2011 General A Shares and DP2011 Structured A Shares, at a price of 6.5p per A Share, which was the same price paid by investors. As Management holds 15% of the total A Shares for these two share pools, this cost of 6.5p per A Share is equivalent to 1.15p per DP2011 General Ordinary Share and DP2011 Structured Ordinary Share in issue. The maximum Performance Incentive (at total proceeds of 120p) is effectively limited to 7.5p per DP2011 General Ordinary Share and DP2011 Structured Ordinary Share in issue.

DP2011 Low Carbon Share pool

In respect of the DP2011 Low Carbon pool, no 'A' Shares were issued due to the smaller size of the pool. The Performance Incentive will be calculated on the same basis as that for the DP2011 General Shares and DP2011 Structured Shares, however, it will be payable by way of a fee to the Manager.

On 24 March 2016 final dividends were paid for DSO Ordinary and DSO A Shares. The effective performance incentive fee paid to members of the management team was £804,000.

As the targets for all other pools have not been met, no other fee is due to be paid for the year ended 31 March 2016. It will be recalculated for the year ended 31 March 2017, and annually thereafter, following approval of the audited accounts by Shareholders.

Borrowings

Under its Articles, the Company has the ability to borrow a maximum amount equal to 15% of the aggregate amount paid on any shares issued by the Company (together with any share premium thereon), currently equal to £6.7 million.

Although the Board does not intend to borrow, it has the flexibility to do so. In particular, because the Board intends to minimise cash balances, the Company may borrow on a short-term basis for cashflow purposes.

Environmental and social policy

As a VCT, with all of its executive and administrative activities delegated to third parties, the Company does not have a policy on either environmental or social and community issues.

Global greenhouse gas emissions

The Company has no greenhouse gas emissions to report from its operations, nor does it have any other emissions producing sources under the Companies Act 2006 (Strategic Report and Directors' Reports) Regulations 2013.

Directors and senior management

The Company does not have any employees, including senior management, other than the Board of five non-executive directors. All directors are male.

Future prospects

The Company's future prospects are set out in the Chairman's Statement and Investment Manager's Reports.

REPORT OF THE DIRECTORS

The Directors present the Annual Report and Accounts of the Company for the year ended 31 March 2016. The Company was incorporated on 12 January 2009 and commenced activities from 21 January 2009.

The Company is registered in England and Wales and domiciled in the UK.

Share capital

On 21 July 2015 following completion of the merger as set out in note 15, a total of 76,280,249 Downing FOUR VCT shares were issued to Shareholders in Downing Planned Exit VCT 2011 plc, Downing Planned Exit VCT 6 plc and Downing Planned Exit VCT 7 plc across four new share pools. The majority of the shares were issued on a one for one basis, except for Downing Planned Exit VCT 2011 plc Low Carbon Shareholders who received 0.935 new shares in Downing FOUR for every share held.

At the year end, the Company had in issue 10,288,157 DSO Ordinary Shares, 15,506,488 DSO A Shares, 19,911,070 DSO B Shares, 29,926,070 DSO C Shares, 7,867,247 DSO D Shares, 11,320,258 DP67 Shares, 15,644,066 DP2011 General Ordinary Shares, 18,418,614 DP2011 General A Shares, 10,678,725 DP2011 Structured Ordinary Shares, 12,572,817 DP2011 Structured A Shares and 7,575,419 DP2011 Low Carbon Shares.

Every Shareholder is entitled to receive notice of, to attend, speak and vote at any general meeting. Shareholders who are present in person or by proxy can vote on a show of hands and will have one vote each. On a poll every Shareholder present in person or by proxy is entitled to the number of votes per Share as set out in the table below:

Class of share	Number of votes per share
DSO Ordinary Share	625
DSO A Share	1
DSO B Share	825
DSO C Share	1
DSO D Share	925
DP67 Share	750
DP2011 General Ordinary Share	850
DP2011 General A Share	75
DP2011 Structured Ordinary Share	875
DP2011 Structured A Share	75
DP2011 Low Carbon Share	1,000

If the net asset value of the Share class moves by more than 25%, then the number of votes per share shall correspondingly increase or decrease as set out in the Articles of the Company.

Shareholders who invested in the Company's DSO Ordinary Share offer for subscription received equal numbers of DSO Ordinary Shares and DSO A Shares. The DSO A Shares were structured to be part of the Company's performance incentive scheme.

During the year the final distributions were paid to DSO Ordinary and DSO A Shareholders bringing the total return to 131.66p per Ordinary share. The effective performance incentive paid to members of the management team totalled £804,000.

Shareholders who invested in the Company's DSO B Share offer for subscription received equal numbers of DSO B Shares and DSO C Shares. As with the DSO A Shares described above, the DSO C Shares are related to the Company's performance incentive scheme. They have a net asset value at the year end of 0.1p per share. Based on the pool's performance to date it is expected that the various performance hurdles will be met and a performance fee will become payable in respect of the DSO B Share pool. Once the hurdles have been exceeded the DSO C Shares will appreciate in value.

The DP2011 General A Shares and DP2011 Structured A Shares are similarly related to the performance incentive schemes for the relevant share pool. Neither pool has exceeded its performance hurdles so far, and accordingly the value of the respective A Shares has not been uplifted.

The Company operates a policy, subject to certain restrictions, of buying DSO D Shares and DP67 Shares that become available in the market at a price equal to the latest published NAV (i.e. at nil discount). The Company does not intend to buyback any other class of shares.

During the year, the Company repurchased 10,280 DSO D Shares for an aggregate consideration of £8,000 being an average price of 76p per share and which represented 0.13% of the Company's issued DSO D Share capital. During the year, the Company repurchased 35,175 DP2011 General Ordinary Shares for an aggregate consideration of £28,000 being an average price of 78.5p per share and which represented 0.22% of the Company's issued DP2011 General Ordinary Share capital. During the year 35,175 DP2011 General 'A' Shares were repurchased for an aggregate consideration of £2,000 being an average price of 0.6p per share and which represented 0.19% of the Company's issued DP2011 General 'A' Share capital. All the shares detailed above were subsequently cancelled.

REPORT OF THE DIRECTORS (continued)

Share capital (continued)

At the AGM that took place on 29 September 2015, the Company was authorised to make market purchases of its DSO Ordinary Shares, DSO A Shares, DSO B Shares, DSO C Shares and DSO D Shares up to a limit of 1,532,935 DSO Ordinary Shares, 2,310,467 DSO A Shares, 2,966,749 DSO B Shares, 4,458,984 DSO C Shares and 1,173,751 DSO D Shares which represented approximately 14.9% of the issued DSO Ordinary Share capital, DSO A Share capital, DSO B Share capital, DSO C Share capital and DSO D Share capital at the date of the AGM.

At the current date, authority remains for 1,532,935 DSO Ordinary Shares, 2,310,467 DSO A Shares, 2,966,749 DSO B Shares, 4,458,984 DSO C Shares and 1,163,471 DSO D Shares. A resolution to renew this authority and to include the Share classes acquired in the merger will be put to Shareholders at the AGM taking place on 22 September 2016.

The minimum price which may be paid for a DSO Ordinary Share, DSO A Share, DSO B Share, DSO C Share, DSO D Share, DP67 Share, DP2011 General Ordinary Share, DP2011 General A Share, DP2011 Structured Ordinary Share, DP2011 Structured A Share, or a DP2011 Low Carbon Share is 0.1p, exclusive of all expenses, and the maximum price which may be paid for an DSO Ordinary Share, DSO A Share, DSO B Share, DSO C Share, DSO D Share, DP67 Share, DP2011 General Ordinary Share, DP2011 General A Share, DP2011 Structured Ordinary Share, DP2011 Structured A Share, or a DP2011 Low Carbon Share is an amount, exclusive of all expenses, equal to 105% of the average of the middle market quotations.

Between 31 March 2016 and the date of this report there has been no movement in Directors' shareholdings.

A Director is required to retire at the Annual General Meeting ("AGM") following his first appointment. Accordingly, Aubrey Brocklebank and Russell Catley will retire at the forthcoming AGM and, being eligible, offer themselves for re-election. The Board recommends that Shareholders take into consideration each Director's considerable experience in VCTs and other areas, as shown in their respective biographies on page 3, together with the results for the period to date, in order to support the resolutions to re-appoint both Directors.

The remaining three Directors resigned and were reappointed at the AGM on 29 September 2015.

REPORT OF THE DIRECTORS (continued)

Directors (continued)

Each of the following Directors entered into a letter of appointment with the Company dated 27 January 2009: Lord Flight, Robin Chamberlayne and Mark Mathias. Sir Aubrey Brocklebank and Russell Catley entered into letters of appointment in July 2016. These agreements were for a period of three years and thereafter were terminable on three months' notice by either side. Each Director is required to devote such time to the affairs of the Company as the Board reasonably requires.

Investment management and administration fees

Downing LLP ("Downing") provides investment management services to the Company. Downing is paid a fee equivalent to 1.3% of each of DSO Ordinary Share, DSO B Share and DSO D Share net assets per annum, 1.35% of DP67 Share net assets per annum, and 1.6% of each of DP2011 General Share, DP2011 Structured Share and DP2011 Low Carbon Share net assets per annum.

The Board is satisfied with Downing's strategy, approach and procedures in providing investment management services to the Company. The Directors have therefore concluded that the continuing appointment of Downing as Investment Manager remains in the best interests of Shareholders.

Additionally, Downing continues to provide administration services to the Company for a fee calculated as follows: (i) a basic fee of £40,000; (ii) A fee of 0.1% of NAV per annum on funds in excess of £10 million; (iii) £5,000 per additional share pool.

The agreement is dated 20 July 2015 and may be terminated by either side giving not less than 12 months' notice in writing.

During the year a total of £778,000 (2015: £480,000) was paid to Downing for investment management and administration fees.

Downing also receives arrangement and monitoring (non-executive directorship) fees from the investee companies. During the year, Downing received arrangement fees of £231,000 (2015: £101,000) and monitoring fees of £765,000 (2015: £648,000). These fees also relate to investments made by other funds managed by Downing.

The annual running costs of the Company, for the period, are also subject to a cap of 3.0% of net assets of the Company for all share pools except DP67 which is subject to a 2.9% cap. Any excess costs over this cap are met by Downing through a reduction in fees.

Trail commission

The Company has an agreement to pay trail commission annually to Downing in connection to the funds raised under the offers for subscription. This is calculated at between 0.25% and 0.5% of the net assets of each share class at each period end.

VCT status

The Company has retained Philip Hare & Associates LLP to advise it on compliance with VCT requirements, including evaluation of investment opportunities as appropriate and regular review of the portfolio. Although Philip Hare & Associates LLP works closely with the Investment Manager, they report directly to the Board.

Compliance with the main VCT regulations (as described in the Investment policy) at 31 March 2016 and for the period under review is summarised as follows:

1. 70% of its investments held in qualifying companies; 100.0%
2. At least 30% of the Company's qualifying investments are held in "eligible shares" for funds raised before 6 April 2011; 49.2%
- 2a. At least 70% of the Company's qualifying investments are held in "eligible shares" for funds raised on or after 6 April 2011; 74.1%
3. At least 10% of each investment in a qualifying company is held in eligible shares; Complied
4. No investment constitutes more than 15% of the Company's portfolio; Complied
5. Income for the year is derived wholly or mainly from shares and securities; and 95.6%
6. The Company distributes sufficient revenue dividends to ensure that not more than 15% of the income from shares and securities in any one year is retained. Complied

REPORT OF THE DIRECTORS (continued)

Substantial interests

As at 31 March 2016, and the date of this report, the Company had not been notified of any beneficial interest exceeding 3 per cent of the issued share capital.

Auditor

A resolution proposing the reappointment of BDO LLP as the Company's Auditor will be submitted at the Annual General Meeting.

Annual General Meeting

The Company's sixth Annual General Meeting ("AGM") will be held at Downing LLP, Fifth Floor, Ergon House, Horseferry Road, London, SW1P 2AL at 11.15 a.m. on 22 September 2016. The Notice of the Annual General Meeting and Form of Proxy are at the end of this document.

Directors' responsibilities

The Directors are responsible for preparing the Report of the Directors, the Directors' Remuneration Report and the financial statements in accordance with applicable law and regulations. They are also responsible for ensuring that the Annual Report includes information required by the Listing Rules of the Financial Conduct Authority.

Company law requires the Directors to prepare financial statements for each financial year. Under that law, the Directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom accounting standards and applicable law) including Financial Reporting Standard 102, the financial reporting standard applicable in the UK and Republic of Ireland (FRS 102). Under company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions, to disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In addition, each of the Directors considers that the Annual Report, taken as a whole, is fair, balanced and understandable and provides the information necessary for Shareholders to assess the Company's performance, business model and strategy.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of the financial statements and other information included in the annual reports may differ from legislation in other jurisdictions.

Directors' statement pursuant to the Disclosure Rules and Transparency Rules

Each of the Directors, whose names and functions are listed on page 3, confirms that, to the best of each person's knowledge:

- the financial statements, which have been prepared in accordance with the applicable set of accounting standards, give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company; and
- the management report included within the Report of the Directors, Chairman's Statement, Investment Manager's Report, and Review of Investments includes a fair review of the development and performance of the business and the position of the company together with a description of the principal risks and uncertainties that it faces.

REPORT OF THE DIRECTORS (continued)

Website publication

The directors are responsible for ensuring the annual report and the financial statements are made available on a website. Financial statements are published on the website of the Investment and Administration Manager (www.downing.co.uk) in accordance with legislation in the United Kingdom governing the preparation and dissemination of financial statements, which may vary from legislation in other jurisdictions. The Directors' responsibility also extends to the ongoing integrity of the financial statements contained therein.

Corporate governance

The Company's compliance with, and departures from, the Financial Reporting Council's UK Corporate Governance Code June 2010 (www.frc.org.uk) is shown on page 83.

Other matters

Information in respect of financial instruments, principal risks and future developments which were previously disclosed within the Directors Report has been disclosed within the Strategic Report on pages 66 to 70.

Statement as to disclosure of information to Auditor

The Directors in office at the date of the report have confirmed, as far as they are aware, that there is no relevant audit information of which the Auditor is unaware. Each of the Directors has confirmed that they have taken all the steps that they ought to have taken as Directors in order to make themselves aware of any relevant audit information and to establish that it has been communicated to the Auditor.

DIRECTORS' REMUNERATION REPORT

The Board has prepared this report in accordance with the requirements of Sections 420 to 422 of the Companies Act 2006. A resolution to approve this report will be put to the Shareholders at the AGM to be held on 22 September 2016.

Under the requirements of Section 497, the Company's Auditor is required to audit certain disclosures contained within the report. These disclosures have been highlighted and the audit opinion thereon is contained within the Auditor's Report on pages 84 to 87.

Directors' remuneration policy

Below is the Company's remuneration policy. In accordance with regulations, Shareholders must vote on the remuneration policy for the financial year commencing after the AGM, every three years or sooner if the Company wants to make changes to the policy. This policy applies from 1 April 2015.

The Company's policy on Directors' remuneration is to seek to remunerate Board members at a level appropriate for the time commitment required and degree of responsibility involved for the self-managed Venture Capital Trust, where all investment decisions are made by the Board and the non-executive Directors are more closely involved with the investee companies and other similar VCTs.

Directors' remuneration is calculated in accordance with the Company's Articles of Association as follows:

- (i) The Directors shall be paid out of the funds of the Company, by way of fees for their services, an aggregate sum not exceeding £150,000 per annum (excluding any performance incentive fees to which the Directors may be entitled from time to time). The Directors shall also receive by way of additional fees such further sums (if any) as the Company in General Meeting may from time to time determine. Such fees and additional fees shall be divided among the Directors in such proportion and manner as they may determine and, in default of the determination, equally.
- (ii) The Directors shall be entitled to be repaid all reasonable travelling, hotel and other expenses incurred by them respectively in or about the performance of their duties as Directors. This includes any expenses incurred in attending meetings of the Board, Committees of the Board or General Meetings. If, in the opinion of the Directors, it is desirable that any of their number should make any special journeys or perform any special services on behalf of the Company or its business, such Director or Directors may be paid reasonable additional remuneration and expenses as the Directors may from time to time determine.

No payment for loss of office will be made to a current or former director except in exceptional circumstances when the Directors will consider the position on an ad-hoc basis.

The Company's policy is that fees payable to Directors should reflect their expertise, responsibilities and time spent on Company matters. In determining the level of remuneration, market equivalents are considered in comparison to the overall activities and size of the Company. There is no performance related pay criteria applicable to Directors.

Service contracts

Each of the Directors has entered into a consultancy agreement for the fixed term of three years from the date of their appointment and thereafter on a three month rolling notice.

Directors' remuneration (audited)

Directors' remuneration for the Company for the year under review was as follows:

	Current Annual fee (excl. VAT) £	Year ended 31/03/16 £	Year ended 31/03/15 £
Lord Flight	20,000	19,000	18,000
Aubrey			
Brocklebank	20,000	14,000	n/a
Robin			
Chamberlayne	18,000	16,000	12,500
Mark Mathias	18,000	16,000	12,500
Russell Catley	18,000	12,500	n/a
	94,000	82,500	43,000

No other emoluments, pension contributions or life assurance contributions were paid by the Company to, or on behalf of, any Director. The Company does not have any share options in place.

Statement of voting at AGM

Shareholders' views in respect of Directors' remuneration communicated at the Company's AGM and are taken into account in formulating the Directors' remuneration policy. At the last AGM on 29 September 2015, the votes in respect of the resolution to approve the Directors' Remuneration Report were as follows:

In favour	91.6%
Against	8.4%
Withheld	-

At the 2014 AGM, when the remuneration policy was last put to a Shareholder vote, 99.3% voted for the resolution and 0.7% against, showing significant Shareholder support.

Relative importance of spend on pay

The difference in actual spend between the year ended 31 March 2015 and the year ended 31 March 2016 on remunerations for all employees in comparison to distributions (dividends and share buybacks) and other significant spend are set out in the graph below:

Insurance cover

Directors' and Officers' liability insurance cover is held by the Company in respect of the Directors.

Performance graph

The charts below and on the following pages represent the DSO Ordinary, DSO B, DSO D, DP67, DP2011 General, DP2011 Structured and DP2011 Low Carbon Share pools performances over the period since the shares were first listed on the London Stock Exchange and compare the Total Return of the Company (Net Asset Value plus dividends) to a rebased Numis Smaller Companies Index including dividends reinvested. It has been rebased to 100p at the launch date of each respective pool.

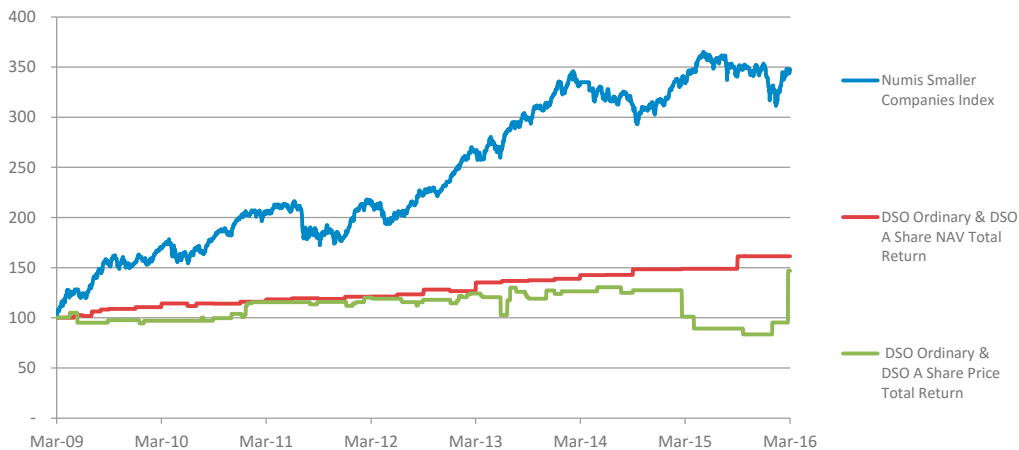

As there is no publicly available VCT index, we have selected the Numis Smaller Companies Index as a comparison as it is a publicly available broad equity index which focuses on smaller companies and is more relevant than most other publicly available indices.

CORPORATE GOVERNANCE

The Directors support the relevant principles of the UK Corporate Governance Code issued in September 2012, being the principles of good governance and the code of best practice, as set out in Section 1 of the UK Corporate Governance Code annexed to the Listing Rules of the Financial Conduct Authority.

The Board

The Company has a Board comprising five non-executive Directors. The Chairman is Lord Flight. Biographical details of all Board members (including significant other commitments of the Chairman) are shown on page 3.

In accordance with Company policy, Aubrey Brocklebank and Russell Catley are offering themselves for re-election at the next AGM.

Full Board meetings take place quarterly and additional meetings are held as required to address specific issues, including considering recommendations from the Investment Manager, making all decisions concerning the acquisition or disposal of investments, and reviewing periodically the terms of engagement of all third party advisers (including the Investment and Administration Manager). The Board has a formal schedule of matters specifically reserved for its decision.

The Board has also established procedures whereby Directors wishing to do so in the furtherance of their duties may take independent professional advice at the Company's expense.

All Directors have access to the advice and services of the Company Secretary. The Company Secretary provides the Board with full information on the Company's assets and liabilities and other relevant information requested by the Chairman, in advance of each Board meeting.

As the Company has a small Board of non-executive Directors, all Directors sit on each Committee. The Chairman of each Committee is Lord Flight. The Audit Committee normally meets twice yearly, and the Remuneration and Nomination Committees meet as required. All Committees have defined terms of reference and duties.

The Board has authority to make market purchases of the Company's own shares. This authority for up to 14.9% of the Company's issued share capital was granted at the AGM on 29 September 2015. A resolution will be put to Shareholders to renew this authority at the forthcoming AGM.

The capital structure of the Company is disclosed on page 71.

Audit Committee

The Company has an Audit Committee comprising of Sir Aubrey Brocklebank (Chairman), Robin Chamberlayne Lord Flight, Mark Mathias, and Russell Catley. This Committee has defined terms of reference and duties.

The Audit Committee is responsible for reviewing the half yearly and annual accounts before they are presented to the Board, the terms of appointment of the Auditor, together with their remuneration, as well as a full review of the effectiveness of the Company's internal control and risk management systems.

In particular, the Committee reviews, challenges (where appropriate) and agrees the basis for the carrying value of the unquoted investments, as prepared by the Investment Manager, for presentation within the half yearly and annual accounts.

The Committee also takes into consideration, comments on matters regarding valuation, revenue recognition and disclosures arising from the Report to the Audit Committee prepared by BDO as part of the finalisation process for the annual accounts.

Any non-audit services provided by the Auditor are reviewed and approved by the Committee prior to being undertaken (such services being undertaken by a separate department to the Auditor), to ensure that the Auditor's objectivity and independence are safeguarded. In addition the Auditor confirms their independent status on an annual basis.

The Audit Committee met twice during the year. The Committee reviewed the internal financial controls and concluded that they remained appropriate. They also considered the need for an internal audit function and concluded that, due to the size of the Company, this would not be an appropriate function.

As part of its annual review procedures, the Committee has obtained sufficient assurance from their own evaluation, the audit feedback documentation and from correspondence and discussions with the engagement partner of BDO LLP.

As the Company has no staff, other than the Directors, there are no procedures in place in respect of C3.4 of the UK Corporate Governance Code relating to whistleblowing. The Audit Committee understands that the Investment and Administration Manager have whistleblowing procedures in place.

Conflicts of interest

A conflict of interest may arise where assets are transferred between share pools, or from one Downing fund to another. The Board ensures that any such transaction is at "arm's length" and will obtain independent valuations where necessary.

CORPORATE GOVERNANCE (continued)

External auditor

The Committee reviews and agrees the audit strategy paper presented by the Auditor in advance of the audit and confirms their status on independence.

The Committee confirms that the two main areas of risk for the year under review are the carrying value of the investments and revenue recognition. The Committee's consideration of these matters is set out in this report on page 80.

The Committee, after taking into consideration comments from the Investment Manager and Administration Manager, Downing LLP, regarding the effectiveness of the audit process, immediately before the conclusion of the annual audit, will recommend to the Board either the re-appointment or removal of the auditors.

Following assurances received from the Managers at completion of the audit for the year ended 31 March 2016, and taking discussions held with the engagement Partner at BDO LLP into consideration, the Committee has recommended they be re-appointed at the forthcoming AGM.

Non audit services

The Committee will approve the provision of ad-hoc work and maximum expected fee before the work is undertaken to ensure the Auditor objectivity and independence are safeguarded.

Board and Committee meetings

The following table sets out the Directors' attendance at the Board and Committee meetings held during the year.

	Board meetings attended (6 held)	Audit Committee meetings attended (2 held)
Lord Flight	6/6	2/2
Aubrey Brocklebank	4/4	1/1
Robin Chamberlayne	5/6	2/2
Mark Mathias	6/6	2/2
Russell Catley	4/6	1/1

No Nomination Committee meetings were held in the year.

Remuneration Committee

The Committee meets as and when required to review the levels of Directors' remuneration. Details of the specific levels of remuneration to each Director are set out in the Directors' Remuneration Report on page 76, and this is subject to Shareholder approval.

Nomination Committee

The Nomination Committee's primary function is to make recommendations to the Board on all new appointments and also to advise generally on issues relating to Board composition and balance. The Committee meets as and when appropriate.

When considering a new appointment to the Board, the Committee's responsibility is to ensure that Shareholders are safeguarded by appointing the most appropriate person for the position (irrespective of gender), giving due regard to past and present experience in the sectors in which the Company invests. The Company therefore does not have a specific diversity policy in place.

Sir Aubrey Brocklebank (Senior Independent Director) and Russell Catley were appointed on 21 July 2015. The Board considered all of the above matters regarding the new appointments and the changes in remuneration (set out in the Directors Remuneration Report) as part of the merger process.

Relations with Shareholders

Shareholders have the opportunity to meet the Board at the AGM. The Board is also happy to respond to any written queries made by Shareholders during the course of the year, or to meet with major Shareholders if so requested.

In addition to the formal business of the AGM, representatives of the Investment Manager and the Board are available to answer any questions a Shareholder may have. Separate resolutions are proposed at the AGM on each substantially separate issue. The Administration Manager collates proxy votes and the results (together with the proxy forms) are forwarded to the Company Secretary immediately prior to the AGM. In order to comply with the UK Corporate Governance Code, proxy votes are announced at the AGM, following each vote on a show of hands, except in the event of a poll being called. The notice of the sixth AGM and proxy form can be found at the end of these financial statements.

The terms of reference of the Committees and the conditions of appointment of non-executive Directors are available to Shareholders on request.

CORPORATE GOVERNANCE (continued)

Financial reporting

The Directors' responsibilities for preparing the accounts are set out in the Report of the Directors on page 74, and a statement by the Auditor about their reporting responsibilities is set out in the Independent Auditor's report on page 84.

Internal control

The Board has adopted an Internal Control Manual ("Manual") for which they are responsible, which has been compiled in order to comply with the UK Corporate Governance Code. The Manual is designed to provide reasonable, but not absolute, assurance against material misstatement or loss, which it achieves by detailing the perceived risks and controls to mitigate them. The Board reviews the perceived risks in line with relevant guidance on an annual basis and implements additional controls as appropriate.

The Board reviews a Risk Register on an annual basis. The main aspects of internal control in relation to financial reporting by the Board were as follows:

- Review of quarterly reports from the Investment Manager on the portfolio of investments held, including additions and disposals;
- Quarterly reviews by the Board of the Company's investments, other assets and liabilities, revenue and expenditure and detailed review of unquoted investment valuations;
- Quarterly reviews by the Board of compliance with the venture capital trust regulations to retain status, including a review of half yearly reports from Philip Hare & Associates LLP;
- A separate review of the Annual Report and Half Yearly report by the Audit Committee prior to Board approval; and
- A review by the Board of all financial information prior to publication.

The Board is responsible for ensuring that the procedures to be followed by the advisers and themselves are in place, and they review the effectiveness of the Manual, based on the report from the Audit Committee, on an annual basis to ensure that the controls remain relevant and were in operation throughout the year.

Although the Board is ultimately responsible for safeguarding the assets of the Company, the Board has delegated, through written agreements, the day-to-day operation of the Company (including the Financial Reporting Process) to Downing LLP.

Anti-bribery policy

The Company operates an anti-bribery policy to ensure that it meets its responsibilities arising from the Bribery Act 2010. This policy can be found on the website maintained by the Manager at www.downing.co.uk.

Going concern

The Company's business activities, together with the factors likely to affect its future development, performance and position are set out in the Chairman's Statement on pages 4 and 6, the Investment Manager's Report on pages 8, 11, 20, 30, 39, 49 and 59, the Strategic Report on page 66 and the Report of the Directors on page 72. The financial position of the Company, its cash flows, liquidity position, and borrowing facilities are shown in the Balance Sheet on page 93, Statement of Cash Flows on page 99 and the Strategic Report on page 70. In addition, note 16 to the financial statements includes the Company's objectives, policies and processes for managing its capital and financial risk management objectives, details of its financial instruments, and its exposures to credit risk and liquidity risk.

The Company has considerable financial resources at the year end and holds a diversified portfolio of investments. As a consequence, the Directors believe that the Company is well placed to manage its business risks successfully despite the current uncertain economic outlook.

The Directors confirm that they are satisfied that the Company has adequate resources to continue in business for the foreseeable future. For this reason they believe that the Company continues to be a going concern and that it is appropriate to apply the going concern basis in preparing the financial statements.

Share capital

The company has 11 classes of share capital: DSO Ordinary Shares, DSO A Shares, DSO B Shares, DSO C Shares, DSO D Shares, DP67 Shares, DP2011 General Ordinary Shares, DP2011 General A Shares, DP2011 Structured Ordinary Shares, DP2011 Structured A Shares and DP2011 Low Carbon Shares. The rights and obligations attached to those shares, including the power of the Company to buy back shares and details of any significant shareholdings, are set out on page 71 of the Report of the Directors.

CORPORATE GOVERNANCE (continued)

Compliance statement

The Listing Rules require the Board to report on compliance with the 52 UK Corporate Governance Code provisions throughout the accounting period. With the exception of the limited items outlined below, the Company has complied throughout the accounting year ended 31 March 2016 with the provisions set out in Section 1 of the UK Corporate Governance Code.

- a) New Directors do not receive a full, formal and tailored induction on joining the Board. Such matters are addressed on an individual basis as they arise. Also, the Company has no major Shareholders so Shareholders are not given the opportunity to meet any new non-executive Directors at a specific meeting other than the AGM. (B.4.1, B.4.2, E.1.1)
- b) Due to the size of the Board and the nature of the Company's business, a formal performance evaluation of the Board, its Committees, the individual Directors and the Chairman have not been undertaken. Specific performance issues are dealt with as they arise. Similarly, a senior independent director has not been appointed. (A.4.1, A.4.2, B.6.1, B.6.3, B.7.2)

- c) Non-executive Directors' contracts are on a three month rolling notice, following an initial three year fixed term, whereas the recommendation is for fixed term renewable contracts. In the Directors' opinion this does not make a substantive difference to the circumstances of the Company. (B.2.3)
- d) As the Company has had no staff, other than Directors, there are no procedures in place relating to whistleblowing. (C.3.4)

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DOWNING FOUR VCT PLC

Our opinion on the financial statements

In our opinion the Downing FOUR VCT plc financial statements for the year ended 31 March 2016, which have been prepared by the Directors in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice):

- give a true and fair view of the state of the Company's affairs as at 31 March 2016 and of its return for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an Auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

What our opinion covers

Our audit opinion covers the:

- Income Statement;
- Balance Sheet;
- Statement of Changes in Equity;
- Statement of Cash Flows; and
- Related notes

Respective responsibilities of Directors and Auditor

As explained more fully in the Report of the Directors, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Financial Reporting Council's (FRC's) Ethical Standards for Auditors.

A description of the scope of an audit of financial statements is provided on the Financial Reporting Council's (FRC) website at www.frc.org.uk/auditscopeukprivate.

Our approach

Our audit approach was developed by obtaining an understanding of the Company's activities, the key functions undertaken on behalf of the Board by the investment Manager and Administration Manager and, the overall control environment. Based on this understanding we assessed those aspects of the Company's transactions and balances which were most likely to give rise to a material misstatement. Below are those risks which we considered to have the greatest impact on our audit strategy and our audit response.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DOWNING FOUR VCT PLC (continued)

Risk area	Audit response
<p>Valuation of investments:</p> <p>Valuation of investments is a key accounting estimate which requires the exercise of considerable judgement and where there is an inherent risk of management override arising from the investment valuations being prepared by the Investment Manager, who is remunerated based on the net asset value of the Company.</p>	<p>The valuations are prepared in accordance with the International Private Equity and Venture Capital Valuation Guidelines. The investments are held in a diverse range of entities and are valued using various valuation models as appropriate in each circumstance. For a sample of investments held, our audit procedures included:</p> <ul style="list-style-type: none"> • considering the appropriateness of the valuation methodology ensuring that it is in accordance with the International Private Equity and Venture Capital Valuation Guidelines; • reviewing and challenging the assumptions inherent in the valuation models by comparison to appropriate benchmark data; • carefully examining the Investment Manager's assessment of maintainable earnings with reference to the investee's historic performance and current prospects; • assessing the appropriateness of discount rates and marketability discounts where applied in the model with reference to market data for comparable assets; and • assessing the impact of estimation uncertainty concerning these assumptions and the completeness of associated disclosures in the financial statements. <p>Where such investments were held in loans, we also considered wider economic and commercial factors that, in our judgement, could impact on the recoverability and valuation of those loans.</p> <p>Structured products are valued using published bid prices and a sample of these were verified to market data. Consideration was given to the possible impact on realisable values arising from low trading volumes or any other restrictions on sale.</p> <p>Where appropriate we developed our own point estimate using alternative assumptions that could reasonably be applied. We considered the overall impact of such sensitisations on the portfolio of investments in determining whether the valuations as a whole are reasonable and unbiased.</p>
<p>Revenue recognition:</p> <p>Revenue consists of loan stock interest, dividends receivable from investee companies and interest earned on cash balances. Revenue recognition is considered to be a significant audit risk as it is the key driver of dividend returns to investors and there is judgement required in determining whether accrued income should be regarded as recoverable.</p>	<ul style="list-style-type: none"> • We assessed the design and the implementation of the controls relating to revenue recognition and we developed expectations for interest income receivable based on loan instruments and investigated any variations in amounts recognised to ensure they were valid; • We considered whether the accounting policy had been applied correctly by management in determining provisions against income where recovery is considered doubtful, considering management information relevant to the ability of the investee company to service the loan and the reasons for any arrears of loan interest; and • We reviewed the recognition and classification of any accrued income, considering the appropriateness of the classification of income between revenue and capital in the Income Statement.

The Audit Committee's consideration of these key issues is set out on page 80.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DOWNING FOUR VCT PLC (continued)

Materiality in context

We apply the concept of materiality both in planning and performing our audit, and in evaluating the effect of misstatements. For planning, we consider materiality to be the magnitude by which misstatements, including omissions, could influence the economic decisions of reasonable users that are taken on the basis of the financial statements. In order to reduce to an appropriately low level the probability that any misstatements exceed materiality we use a lower materiality level, performance materiality, to determine the extent of testing needed. Importantly, misstatements below these levels will not necessarily be evaluated as immaterial as we also take account of the nature of identified misstatements, and the particular circumstances of their occurrence, when evaluating their effect on the financial statements. The application of these key considerations gives rise to two levels of materiality, the quantum and purpose of which are tabulated below.

Materiality measure	Purpose	Key considerations and benchmarks	Quantum £
Financial statement materiality	Assessing whether the financial statements as a whole present a true and fair view	<ul style="list-style-type: none">• The value of gross assets• The level of judgement inherent in the valuation• The range of reasonable alternative valuations	700,000
Specific materiality – classes of transactions and balances which impact on net realised returns	Assessing those classes of transactions, balances or disclosures for which misstatements of lesser amounts than materiality for the financial statements as a whole could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.	<ul style="list-style-type: none">• Level of gross expenditure	65,000

We agreed with the Audit Committee that we would report to the Committee all audit differences in excess of £20,000. We also reported to the Audit Committee on disclosure matters we identified when assessing the overall presentation of the financial statements.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion:

- the part of the Directors' Remuneration Report to be audited has been properly prepared in accordance with the Companies Act 2006;
- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the information given in the Corporate Governance Statement set out on pages 82 and 83 of the annual report with respect to internal control and risk management systems in relation to financial reporting processes and about share capital structures is consistent with the financial statements.

Statement regarding the Directors' assessment of principal risks, going concern and longer term viability of the Company

We have nothing material to add or to draw attention to in relation to:

- the Directors' confirmation in the annual report that they have carried out a robust assessment of the principal risks facing the entity, including those that would threaten its business model, future performance, solvency or liquidity;
- the disclosures in the annual report that describe those risks and explain how they are being managed or mitigated;
- the Directors' statement in the financial statements about whether they considered it appropriate to adopt the going concern basis of accounting in preparing them and their identification of any material uncertainties to the entity's ability to continue to do so over a period of at least 12 months from the date of approval of the financial statements; or

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF DOWNING FOUR VCT PLC (continued)

Statement regarding the directors' assessment of principal risks, going concern and longer term viability of the Company (continued)

- the Directors' explanation in the annual report as to how they have assessed the prospects of the entity, over what period they have done so and why they consider that period to be appropriate, and their statement as to whether they have a reasonable expectation that the entity will be able to continue in operation and meet its liabilities as they fall due over the period of their assessment, including any related disclosures drawing attention to any necessary qualifications or assumptions.

Matters on which we are required to report by exception

Under the ISAs (UK and Ireland), we are required to report to you if, in our opinion, information in the annual report is:

- materially inconsistent with the information in the audited financial statements; or
- apparently materially incorrect based on, or materially inconsistent with, our knowledge of the Company acquired in the course of performing our audit; or
- is otherwise misleading.

In particular, we are required to consider whether we have identified any inconsistencies between our knowledge acquired during the audit and the Directors' Statement that they consider the annual report is fair, balanced and understandable and whether the annual report appropriately discloses those matters that we communicated to the Audit Committee which we consider should have been disclosed.

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept by the Company, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements and the part of the Directors' Remuneration Report to be audited are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- a Corporate Governance Statement has not been prepared by the Company.

Under the Listing Rules we are required to review:

- the Directors' statements, set out on page 82, in relation to going concern and set out on page 67 in relation to longer-term viability; and
- the part of the corporate governance statement relating to the company's compliance with the provisions of the UK Corporate Governance Code specified for our review.

We have nothing to report in respect of these matters.

NOTES TO THE ACCOUNTS

for the year ended 31 March 2016

1. Accounting policies

Basis of accounting

The Company has prepared its financial statements in accordance with the Financial Reporting Standard 102 (“FRS 102”) and in accordance with the Statement of Recommended Practice “Financial Statements of Investment Trust Companies and Venture Capital Trusts” revised November 2014 (“SORP”).

The Company implements new Financial Reporting Standards (“FRS”) issued by the Financial Reporting Council when required.

The financial statements are presented in pounds sterling and rounded to thousands. The Company’s functional and presentation currency is pounds sterling.

Presentation of Income Statement

In order to better reflect the activities of a Venture Capital Trust, and in accordance with the SORP, supplementary information which analyses the Income Statement between items of a revenue and capital nature has been presented alongside the Income Statement. The revenue return is the measure the Directors believe appropriate in assessing the Company’s compliance with certain requirements set out in Part 6 of the Income Tax Act 2007.

Judgements in applying accounting policies and key sources of estimation uncertainty

Investments

All investments are designated as “fair value through profit or loss” assets due to investments being managed and performance evaluated on a fair value basis. A financial asset is designated within this category if it is both acquired and managed on a fair value basis, with a view to selling after a period of time, in accordance with the Company’s documented investment policy.

It is possible to determine the fair values within a reasonable range of estimates. The fair value of an investment upon acquisition is deemed to be cost. Thereafter investments are measured at fair value in accordance with FRS 102 sections 11 and 12, together with the International Private Equity and Venture Capital Valuation Guidelines (“IPEV”).

Structured Product investments are measured using bid prices.

For unquoted investments, fair value is established by using the IPEV guidelines. The valuation methodologies for unquoted entities used by the IPEV to ascertain the fair value of an investment are as follows:

- Price of recent investment;
- Multiples;
- Net assets;
- Discounted cash flows or earnings (of underlying business);
- Discounted cash flows (from the investment); and
- Industry valuation benchmarks.

The methodology applied takes account of the nature, facts and circumstances of the individual investment and uses reasonable data, market inputs, assumptions and estimates in order to ascertain fair value.

Gains and losses arising from changes in fair value are included in the Income Statement for the year as a capital item and transaction costs on acquisition or disposal of the investment are expensed. Where an investee company has gone into receivership or liquidation, or administration (where there is little likelihood of recovery), the loss on the investment, although not physically disposed of, is treated as being realised.

It is not the Company’s policy to exercise significant influence or joint control over investee companies. Therefore, the results of these companies are not incorporated into the Income Statement except to the extent of any income accrued. This is in accordance with FRS 102 sections 14 and 15 and the SORP that does not require portfolio investments to be accounted for using the equity method of accounting.

NOTES TO THE ACCOUNTS (continued)

for the year ended 31 March 2016

1. Accounting policies (continued)

Income

Dividend income from investments is recognised when the Shareholders' rights to receive payment has been established, normally the ex-dividend date.

Interest income is accrued on a time apportionment basis, by reference to the principal sum outstanding and at the effective rate applicable and only where there is reasonable certainty of collection in the foreseeable future.

Expenses

All expenses are accounted for on an accruals basis. In respect of the analysis between revenue and capital items presented within the Income Statement, all expenses have been presented as revenue items except as follows:

- Expenses which are incidental to the disposal of an investment are deducted from the disposal proceeds of the investment;
- Expenses are split and presented partly as capital items where a connection with the maintenance or enhancement of the value of the investments held can be demonstrated. The Company has adopted a policy of charging 50% of the investment management fees to the revenue account and 50% to the capital account to reflect the Board's estimated split of investment returns which will be achieved by the company over the long term.

Expenses and liabilities not specific to a share class are generally allocated pro rata to the net assets.

Taxation

The tax effects on different items in the Income Statement are allocated between capital and revenue on the same basis as the particular item to which they relate, using the Company's effective rate of tax for the accounting period.

Due to the Company's status as a Venture Capital Trust, and the continued intention to meet the conditions required to comply with Part 6 of the Income Tax Act 2007, no provision for taxation is required in respect of any realised or unrealised appreciation of the Company's investments which arises.

Deferred taxation, which is not discounted, is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the accounts.

Other debtors and other creditors

Other debtors (including accrued income and loan notes other than those held as part of the investment portfolio as set out in note 9) and other creditors are included within the accounts at amortised cost.

Issue costs

Issue costs in relation to the shares issued for each share class have been deducted from the share premium account for the relevant share class.

Acquisitions

Acquisitions made during the year are accounted for using the acquisition method. The purchase consideration is measured at the fair value of equity issued compared to the fair value of the assets and liabilities acquired.

	DSO C Shares	29,926,070	-	-
	DSO D Shares	7,877,527	120	84

As the Company has not issued any convertible securities or share options, there is no dilutive effect on return per DSO Ordinary Share, DSO A Share, DSO B Share, DSO C Share, DSO D Share, DP67 Share, DP2011 General Share, DP2011 General A Share, DP2011 Structured Ordinary Share, DP2011 Structured A Share or DP2011 Low Carbon Share. The return per share disclosed therefore represents both the basic and diluted return per Share for all classes of Share.

9. Fixed assets - investments (continued)

The Company has categorised its financial instruments using the fair value hierarchy as follows:

Level a	Reflects financial instruments quoted in an active market;
Level b	Reflects financial instruments that have prices that are observable either directly or indirectly; and
Level c	(i) Reflects financial instruments that are based on observable market data (ii) Reflects financial instruments that are not based on observable market data (unquoted equity investments and loan note investments).

	Level a £'000	Level b £'000	Level c(ii) £'000	2016 £'000	Level a £'000	Level b £'000	Level c(ii) £'000	2015 £'000

Balance at 31 March 2016	<u>15,269</u>	<u>17,512</u>	<u>32,781</u>

FRS 102 sections 11 and 12 require disclosure to be made of the possible effect of changing one or more of the inputs to reasonable possible alternative valuation assumptions where this would result in a significant change in the fair value of the Level c(ii) investments. There is an element of judgment in the choice of assumptions for unquoted investments and it is possible that, if different assumptions were used, different valuations could have been attributed to some of the Company's investments.

The basis of valuation of the investments was unchanged during the year.

The Board and the Investment Manager believe that the valuations as at 31 March 2016 reflect the most appropriate assumptions at the date, giving due regard to all information available from each investee company. Valuations are subject to fluctuations in market conditions and the sensitivity of the Company to such changes is shown within note 16.

12. Called up share capital (continued)

DSO Ordinary Share pool and DSO B Share pool

Provided that the performance hurdle is met (i.e. Shareholders receive proceeds of at least £1 per share and a 7% compound return) distributions or returns of capital shall be made on the following basis between the holders of DSO Ordinary Shares and DSO A Shares:

- 91% to DSO Ordinary Shares and 9% to DSO A Shares until an amount equivalent to 100p per one DSO Ordinary Share and one DSO A Share has been distributed; thereafter
- pro rata to the respective holdings of DSO Ordinary Shares and DSO A Shares

Provided that the performance hurdle is met (i.e. Shareholders receive proceeds of at least £1 per share and a 7% compound return) distributions or returns of capital shall be made on the following basis between the holders of DSO B Shares and DSO C Shares:

- 91% to DSO B Shares and 9% to DSO C Shares until an amount equivalent to 100p per one DSO B Share and one DSO C Share has been distributed; thereafter
- pro rata to the respective holdings of DSO B Shares and DSO C Shares.

If the distributions set out above would result in Shareholders receiving less than 100p per share or lower than a 7% compound return, then the return to members of the management team will be reduced until Shareholders receive at least 100p per share and a 7% compound return. The management team’s share of the total proceeds will be subject to a cap of 1.25% of net assets per annum and will only be payable if the hurdle is achieved. If, in any accounting period of the Company, the performance incentive payable is less than the cap then the shortfall will be aggregated to the cap in respect of the following accounting period and so on until fully utilised.

DP2011 General Share pool and DP2011 Structured Share pool

Distributions of income and returns of capital (whether by way of reduction of capital or otherwise) shall be made on the following basis to the holders of DP2011 General Ordinary Shares, DP2011 General A Shares, DP2011 Structured Ordinary Shares and DP2011 Structured A Shares:

Total Proceeds per Ordinary Share	Allocation of DP2011 General and Structured Shareholder Proceeds	
	Ordinary Shareholders	‘A’ Shareholders
Up to 70p	Remainder	$\frac{0.001 \times \text{‘A’ Shares in issue}}{\text{Total shares in issue}}$
Above 70p and below 120p	$\frac{0.001 \times \text{Ordinary Shares in issue}}{\text{Total shares in issue}}$	Remainder
120p and above	Remainder	$\frac{0.001 \times \text{‘A’ Shares in issue}}{\text{Total shares in issue}}$

“Shareholder Proceeds” means amounts paid by way of dividend or other distributions, share buybacks, proceeds on a sale or winding-up of the Company and any other proceeds or value received or deemed to be received, by Ordinary Shareholders and ‘A’ Shareholders (excluding any income tax relief on subscription) out of the assets attributable to the Ordinary Shares and the ‘A’ Shares.

“Remainder” is the dividends not paid to the Ordinary Shareholders/‘A’ Shareholders as applicable.

DSO D and DP2011 Low Carbon Share pools

The DSO D Share pool and DP2011 Low Carbon Share pool do not have ‘A’ Shares so all proceeds are distributable to the Ordinary Shareholders.

The Company does not have any externally imposed capital requirements.

The Special reserve, Capital reserve – realised and Revenue reserve are all distributable reserves. The distributable reserve is reduced by losses of £3,976,000 (2015: £2,892,000) which are included in the Revaluation reserve.

Capital redemption reserve

This reserve accounts for amounts by which the issued share capital is diminished through the repurchase and cancellation of the Company's own shares.

Special reserve

The Special reserve is available to the Company to enable the purchase of its own shares in the market without affecting its ability to pay capital distributions.

Share premium account

This reserve accounts for the difference between the prices at which shares are issued and the nominal value of the shares, less issue costs and transfers to the other distributable reserves. On 23 March 2016, following Court approval, the Share Premium reserves for the DSO Ordinary Share pool, DP67 Share pool, DP2011 General Share pool, DP2011 Structured Share pool and DP2011 Low Carbon Share pool were cancelled and the balances transferred to the respective Special reserve.

Revaluation reserve

Increases and decreases in the valuation of investments held at the year end against cost are included in this reserve.

Capital reserve - realised

The following are disclosed in this reserve:

- gains and losses compared to cost on the realisation of investments;
- expenses, together with the related taxation effect, charged in accordance with the above accounting policies; and
- dividends paid to equity holders.

Revenue reserve

This reserve accounts for movements from the revenue column of the Income Statement, the payment of dividends, and other non-capital realised movements.

15. Acquisitions

On 21 July 2015 the Company acquired the assets and liabilities of Downing Planned Exit VCT 2011 plc ("DP2011"), Downing Planned Exit VCT 6 plc ("DP6") and Downing Planned Exit VCT 7 plc ("DP7"). The proposals for the merger of the four companies were approved by the Company's Shareholders on 9 July 2015. The mechanism by which the merger was effected was one under which DP2011, DP6 and DP7 were placed into members' voluntary liquidation pursuant to Schemes of reconstruction under Section 110 of the Insolvency Act 1986 ("the Schemes"). Under the Schemes the assets and liabilities of DP2011, DP6 and DP7 were transferred to the Company in exchange for Shares issued in the following new share classes:

Fair value of shares issued 36,076

The book and fair value of assets and liabilities, shown above, have been taken from the respective management accounts at 20 July 2015. The market value of the shares issued is based on the fair value of the assets and liabilities acquired as at the date of the acquisition. The number of consideration shares issued were on a one for one basis, except for DP2011 Low Carbon Shares which issued at a ratio of 0.935 new shares for each original share. Accordingly there was no gain or loss as a result of the transaction.

The total costs of the merger were £306,000 of which Downing agreed to pay 50%. As a result, total net costs borne by the newly merged Companies was £153,000.

16. Financial instruments

The Company's financial instruments comprise investments held at fair value through the profit and loss account, being equity and loan stock investments in unquoted companies, Structured Products, loans and receivables being cash deposits and short term debtors and financial liabilities being creditors arising from its operations. The main purpose of these financial instruments is to generate cashflow and revenue and capital appreciation for the Company's operations. The Company has no gearing or other financial liabilities apart from short-term creditors.

The fair value of investments is determined using the detailed accounting policy as shown in Note 1. The composition of the investments is set out in note 9.

Loans and receivables and other financial liabilities, as set out in the Balance Sheet, are stated at amortised cost which the Directors consider is equivalent to fair value.

The Company's investment activities expose the Company to a number of risks associated with financial instruments and the sectors in which the Company invests. The principal financial risks arising from the Company's operations are:

- Market risks;
- Credit risk; and
- Liquidity risk.

The Board regularly reviews these risks and the policies in place for managing them. There have been no significant changes to the nature of the risks that the Company is exposed to over the year and there have also been no significant changes to the policies for managing those risks during the year.

The risk management policies used by the Company in respect of the principal financial risks and a review of the financial instruments held at the year end are provided below:

Market risks

As a VCT, the Company is exposed to investment risks in the form of potential losses and gains that may arise on the investments it holds in accordance with its investment policy. The management of these market risks is a fundamental part of investment activities undertaken by the Investment Manager and overseen by the Board. The Manager monitors investments through regular contact with management of investee companies, regular review of management accounts and other financial information and attendance at investee company board meetings. This enables the Manager to manage the investment risk in respect of individual investments. Investment risk is also mitigated by holding a diversified portfolio spread across various business sectors and asset classes.

The key market risks to which the Company is exposed are:

- Investment price risk; and
- Interest rate risk.

Investment price risk

Investment price risk arises from uncertainty about the future prices and valuations of financial instruments held in accordance with the Company's investment objectives. It represents the potential loss that the Company might suffer through market price movements in respect of Structured Products and also changes in the fair value of unquoted investments that it holds.

At 31 March 2016, the Structured Product portfolio was valued at £2,570,000.

The fair values of Structured Products are influenced primarily by changes in the FTSE 100 Index. The Company's sensitivity to fluctuations in the FTSE 100 Index is summarised below.

	Risk exposure at 31 March 2016		Risk exposure at 31 March 2015	
Structured Products (£'000)	<u>2,570</u>		<u>1,505</u>

Investment price risk (continued)

At 31 March 2016, the unquoted portfolio was valued at £32,781,000 (2015: £24,133,000).

As many of the Company's unquoted investments are classified as 'asset backed', a fall in share prices generally would have a lesser impact on the valuation of the unlisted portfolio. A 10% movement in the valuations of all of the unquoted investments held by the Company would have an effect as follows:

10% movement in unquoted investment valuations

Unquoted investments	2016		2015	
Share pool	Impact on net assets £'000	Impact on NAV per share pence	Impact on net assets £'000	Impact on NAV per share pence
DSO Ordinary Shares	-	-	557	5.4p
DSO B Shares	303	1.8p	1,367	6.8p
DSO D Shares	454	7.6p	490	6.2p
DP67 Shares	583	6.0p	-	-
DP2011 General Shares	1,044	8.2p	-	-
DP2011 Structured Shares	593	5.5p	-	-
DP2011 Low Carbon Shares	300	3.9p	-	-

The sensitivity analysis for unquoted valuations above assumes that each of the sub categories of financial instruments (ordinary shares and loan stocks) held by the Company produces an overall movement of 10%. Shareholders should note that equal correlation between these sub categories is unlikely to be the case in reality, particularly in the case of loan stock instruments. Where share prices are falling, the equity instrument could fall in value before the loan stock instrument. It is not considered practical to assess the sensitivity of the loan stock instruments to market price risk in isolation.

16. Financial instruments (continued)

Interest rate risk

The Company accepts exposure to interest rate risk on floating-rate financial assets through the effect of changes in prevailing interest rates. The Company receives interest on its cash deposits at a rate agreed with its bankers. Investments in loan stock attract interest predominately at fixed rates. A summary of the interest rate profile of the Company's investments is shown below.

There are three categories in respect of interest which are attributable to the financial instruments held by the Company as follows:

- "Fixed rate" assets represent investments with predetermined yield targets and comprise certain loan note investments and preference shares.
- "Floating rate" assets predominantly bear interest at rates linked to Bank of England base rate or LIBOR and comprise cash at bank and liquidity fund investments and certain loan note investments.
- "No interest rate" assets do not attract interest and comprise equity investments, certain loan note investments, Structured Products, loans and receivables (excluding cash at bank) and other financial liabilities.

	Average interest rate	Average period until maturity	2016 £'000	2015 £'000
Fixed rate	13.8%	469 days	17,512	15,832
Floating rate	0.5%		9,533	457
No interest rate			<u>18,037</u>	<u>9,014</u>
			<u>45,082</u>	<u>25,303</u>

The Company monitors the level of income received from fixed and floating rate assets and, if appropriate, may make adjustments to the allocation between the categories, in particular, if this should be required to ensure compliance with the VCT regulations. It is estimated that an increase of 1% in interest rates would have increased total return before taxation for the year by £5,000. As the Bank of England base rate stood at 0.5% per annum throughout the year, it is not believed that a reduction from this level is likely.

16. Financial instruments (continued)

Credit risk

Credit risk is the risk that a counterparty to a financial instrument is unable to discharge a commitment to the Company made under that instrument. The Company is exposed to credit risk through its holdings of loan stock in investee companies, cash deposits, debtors and Structured Products. Credit risk relating to loan stock investee companies is considered to be part of market risk.

The Company's financial assets that are exposed to credit risk are summarised as follows:

	2016	2015
	£'000	£'000
Investments in loan stocks	17,512	15,832
Investments in Structured Products	2,570	1,505
Cash and cash equivalents	9,533	456
Interest and other receivables	1,077	432
	<u>30,692</u>	<u>18,225</u>

The Manager manages credit risk in respect of loan stock with a similar approach as described under Investment risks above. Investments in Structured Products are managed so as to limit exposure to any one counterparty and taking into account the credit rating of the counterparty. Similarly, the management of credit risk associated interest, dividends and other receivables is covered within the investment management procedures.

Cash is mainly held by Bank of Scotland plc and Royal Bank of Scotland plc, both of which are A-rated financial institutions and both also ultimately part-owned by the UK Government. Consequently, the Directors consider that the credit risk associated with cash deposits is low.

There have been no changes in fair value during the year that are directly attributable to changes in credit risk.

16. Financial instruments (continued)

Liquidity risk

Liquidity risk is the risk that the Company encounters difficulties in meeting obligations associated with its financial liabilities. Liquidity risk may also arise from either the inability to sell financial instruments when required at their fair values or from the inability to generate cash inflows as required.

As the Company has a relatively low level of creditors, being £879,000 (2015: £612,000), and has no borrowings, the Board believes that the Company's exposure to liquidity risk is low. Also, some quoted investments held by the Company are considered to be readily realisable. The Company always holds sufficient levels of funds as cash and readily realisable investments in order to meet expenses and other cash outflows as they arise. For these reasons, the Board believes that the Company's exposure to liquidity risk is minimal. The Company's liquidity risk is managed by the Investment Manager in line with guidance agreed with the Board and is reviewed by the Board at regular intervals.

Although the Company's investments are not held to meet the Company's liquidity requirements, the table below shows an analysis of the assets, highlighting the length of time that it could take the Company to realise its assets if it were required to do so.

The carrying value of loan stock investments held and at fair value through the profit and loss account at 31 March 2016, as analysed by expected maturity date, is as follows:

As at 31 March 2016	Not later than 1 year £'000	Between 1 and 2 years £'000	Between 2 and 3 years £'000	Between 3 and 5 years £'000	Total £'000
Fully performing loan stock	1,671	1,321	171	750	3,913
Past due loan stock	8,706	3,123	1,022	748	13,599
	<u>10,377</u>	<u>4,444</u>	<u>1,193</u>	<u>1,498</u>	<u>17,512</u>

As at 31 March 2015	Not later than 1 year £'000	Between 1 and 2 years £'000	Between 2 and 3 years £'000	Between 3 and 5 years £'000	Total £'000
Fully performing loan stock	3,714	1,120	350	259	5,443
Past due loan stock	3,956	4,711	1,721	-	10,388
	<u>7,670</u>	<u>5,831</u>	<u>2,071</u>	<u>259</u>	<u>15,831</u>

Of the loan stock classified as "past due" above, £8,453,000 relates to the principal of loan notes where, although the principal remains within term, the investee company is not fully servicing the interest obligations under the loan note and is thus in arrears. As at the balance sheet date, the extent to which the interest giving rise to the classification of the loan notes as past due falls within the banding of one to two years past due. Notwithstanding the arrears of interest, the Directors do not consider that the loan note itself has been impaired or the maturity of the principal has altered.

Of the loan stock classified as "past due" above, £324,000 relates to the principal of loan notes where the principal has passed its maturity date. As at the balance sheet date, the extent to which the principal is past its maturity date giving rise to the classification of the loan notes as past due falls within the banding of nil to six months past due. Notwithstanding that the principal has passed its maturity date, the Directors do not consider that the loan note itself has been impaired.

17. Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in line with its planned exit strategies, so that it can continue to provide returns for Shareholders and to provide an adequate return to the Shareholders by allocating its capital to assets commensurately with the level of risk.

By its nature, the Company has an amount of capital, at least 70% (as measured under the tax legislation) of which is and must be, and remain, invested in relatively high risk asset class of small UK companies within three years of that capital being subscribed. The Company accordingly has limited scope to manage its capital structure in the light of changes in economic conditions and the risk characteristics of the underlying assets. Subject to this overall constraint upon changing the capital structure, the Company may adjust the amount of dividends paid to Shareholders, return capital to Shareholders, issue new shares, or sell assets if so required to maintain a level of liquidity to remain a going concern.

Although, as the Investment Policy implies, the Board would consider levels of gearing, there are no current plans to do so. It regards the net assets of the Company as the Company's capital, as the level of liabilities is small and the management of them is not directly related to managing the return to Shareholders. There has been no change in this approach from the previous period.

18. Contingencies, guarantees and financial commitments

At 31 March 2016, the Company had no contingencies, guarantees or financial commitments.

19. Controlling party and related party transactions

In the opinion of the Directors, there is no immediate or ultimate controlling party.

Notes

- (a) Any member of the Company entitled to attend and vote at the Annual General Meeting is also entitled to appoint one or more proxies to attend, speak and vote instead of that member. A member may appoint more than one proxy in relation to the Annual General Meeting provided that each proxy is appointed to exercise the rights attached to a different share or shares held by that member. A proxy may demand, or join in demanding, a poll. A proxy need not be a member of the Company but must attend the Annual General Meeting in order to represent his appointor. A member entitled to attend and vote at the Annual General Meeting may appoint the Chairman or another person as his proxy although the Chairman will not speak for the member. A member who wishes his proxy to speak for him should appoint his own choice of proxy (not the Chairman) and give instructions directly to that person. If you are not a member of the Company but you have been nominated by a member of the Company to enjoy information rights, you do not have a right to appoint any proxies under the procedures set out in these Notes. Please read Note (h) below. Under section 319A of the Act, the Company must answer any question a member asks relating to the business being dealt with at the Annual General Meeting unless:
- answering the question would interfere unduly with the preparation for the Annual General Meeting or involve the disclosure of confidential information;
 - the answer has already been given on a website in the form of an answer to a question; or
 - it is undesirable in the interests of the Company or the good order of the Annual General Meeting that the question be answered.
- (b) To be valid, a Form of Proxy and the power of attorney or other written authority, if any, under which it is signed or an office or notarially certified copy or a copy certified in accordance with the Powers of Attorney Act 1971 of such power and written authority, must be delivered to Downing LLP, Fifth Floor, Ergon House, Horseferry Road, London, SW1P 2AL or electronically at proxy@downing.co.uk, in each case not less than 48 hours (excluding weekends and public holidays) before the time appointed for holding the Annual General Meeting or adjourned meeting at which the person named in the Form of Proxy proposes to vote. In the case of a poll taken more than 48 hours (excluding weekends and public holidays) after it is demanded, the document(s) must be delivered as aforesaid not less than 24 hours (excluding weekends and public holidays) before the time appointed for taking the poll, or where the poll is taken not more than 48 hours (excluding weekends and public holidays) after it was demanded, be delivered at the meeting at which the demand is made.
- (c) In order to revoke a proxy instruction a member will need to inform the Company using one of the following methods:
- by sending a signed hard copy notice clearly stating the intention to revoke the proxy appointment to Downing LLP, Fifth Floor, Ergon House, Horseferry Road, London, SW1P 2AL. In the case of a member which is a company, the revocation notice must be executed under its common seal or signed on its behalf by an officer of the company or an attorney for the company. Any power of attorney or any other authority under which the revocation notice is signed (or a duly certified copy of such power or authority) must be included with the revocation notice; or
 - by sending an e-mail to proxy@downing.co.uk.
- In either case, the revocation notice must be received by Downing LLP before the Annual General Meeting or the holding of a poll subsequent thereto. If a member attempts to revoke his or her proxy appointment but the revocation is received after the time specified then, subject to Note (d) directly below, the proxy appointment will remain valid.
- (d) Completion and return of a Form of Proxy will not preclude a member of the Company from attending and voting in person. If a member appoints a proxy and that member attends the Annual General Meeting in person, the proxy appointment will automatically be terminated.
- (e) Copies of the Directors' Letters of Appointment and the Register of Directors' interests in the Shares of the Company, will be available for inspection at the registered office of the Company during usual business hours on any weekday (excluding weekends and public holidays) from the date of this notice, until the end of the Annual General Meeting for at least 15 minutes prior to and during the meeting.
- (f) Pursuant to Regulation 41 of the Uncertificated Securities Regulations 2001, the Company has specified that only those holders of the Company's shares registered on the Register of Members of the Company as at 11.15 a.m. on 20 September 2016 or, in the event that the Annual General Meeting is adjourned, on the Register of Members 48 hours (excluding weekends and public holidays) before the time of any adjourned meeting, shall be entitled to attend and vote at the said Annual General Meeting in respect of such shares registered in their name at the relevant time. Changes to entries on the Register of Members after 11.15 a.m. on 20 September 2016 or, in the event that the Annual General Meeting is adjourned, on the Register of Members less than 48 hours (excluding weekends and public holidays) before the time of any adjourned meeting, shall be disregarded in determining the right of any person to attend and vote at the Annual General Meeting.
- (g) As at 9 a.m. on 29 July 2016, the Company's issued share capital comprised 10,288,157 DSO Ordinary Shares, 15,506,488 DSO A Shares, 19,911,070 DSO B Shares, 29,926,070 DSO C Shares, 7,867,247 DSO D Shares, 11,320,258 DP67 Shares, 15,644,066 DP2011 General Ordinary Shares, 18,418,614 DP2011 General A Shares, 10,678,725 DP2011 Structured Ordinary Shares, 12,572,817 DP2011 Structured A Shares, or 7,575,419 DP2011 Low Carbon Shares and the total number of voting rights in the Company was 54,068,128,622. Information on the number of

shares and voting rights is included at www.downing.co.uk.

- (h) If you are a person who has been nominated under section 146 of the Act to enjoy information rights (“Nominated Person”):
- You may have a right under an agreement between you and the member of the Company who has nominated you to have information rights (“Relevant Member”) to be appointed or to have someone else appointed as a proxy for the Annual General Meeting;
 - If you either do not have such a right or if you have such a right but do not wish to exercise it, you may have a right under an agreement between you and the Relevant Member to give instructions to the Relevant Member as to the exercise of voting rights; and
 - Your main point of contact in terms of your investment in the Company remains the Relevant Member (or, perhaps your custodian or broker) and you should continue to contact them (and not the Company) regarding any changes or queries relating to your personal details and your interest in the Company (including any administrative matters). The only exception to this is where the Company expressly requests a response from you.
- (i) A corporation which is a member can appoint one or more corporate representatives who may exercise, on its behalf, all its powers as a member provided that no more than one corporate representative exercises powers over the same share.
- (j) A vote withheld is not a vote in law, which means that the vote will not be counted in the calculation of votes for or against the resolution. If no voting indication is given, the proxy will vote or abstain from voting at his or her discretion. The proxy will vote (or abstain from voting) as he or she thinks fit in relation to any other matter which is put before the Annual General Meeting.
- (k) Except as provided above, members who have general queries about the Annual General Meeting should write to the Chairman at the registered office set out above.
- (l) Members may not use any electronic address provided either in this notice of Annual General Meeting, or any related documents (including the Chairman’s letter and Form of Proxy), to communicate with the Company for any purposes other than those expressly stated.

NOTES AND INSTRUCTIONS:

1. Any member of the Company entitled to attend and vote at the Meeting is also entitled to appoint one or more proxies to attend, speak and vote instead of that member. A member may appoint more than one proxy in relation to the Annual General Meeting provided that each proxy is appointed to exercise the rights attached to a different share or shares held by that member. A proxy may demand, or join in demanding, a poll. A proxy need not be a member of the Company but must attend the Meeting in order to represent his appointor. A member entitled to attend and vote at the meeting may appoint the Chairman or another person as his proxy although the Chairman will not speak for the member. A member who wishes his proxy to speak for him should appoint his own choice of proxy (not the Chairman) and give instructions directly to that person.
2. Delete "the Chairman of the meeting" if it is desired to appoint any other person and insert his or her name and address. If no name is inserted, the proxy will be deemed to have been given in favour of the Chairman of the meeting. If this Form of Proxy is returned without stating how the proxy shall vote on any particular matter the proxy will exercise his discretion as to whether, and if so how, he votes.
3. Any alterations to the Form of Proxy should be initialled.
4. To be valid, this Form of Proxy and the power of attorney or other written authority, if any, under which it is signed or an office or notarially certified copy or a copy certified in accordance with the Powers of Attorney Act 1971 of such power and written authority, must be delivered to Downing LLP, Fifth Floor, Ergon House, Horseferry Road, London, SW1P 2AL not less than 48 hours (excluding weekends and public holidays) before the time appointed for holding the Meeting or adjourned meeting at which the person named in this Form of Proxy proposes to vote. In the case of a poll taken more than 48 hours (excluding weekends and public holidays) after it is demanded, the document(s) must be delivered as aforesaid not less than 24 hours (excluding weekends and public holidays) before the time appointed for taking the poll, or where the poll is taken not more than 48 hours (excluding weekends and public holidays) after it was demanded, and be delivered at the meeting at which the demand is made.
5. In the case of a corporation, this form must be under its common seal or under the hand of some officer or attorney duly authorised on their behalf.
6. In the case of joint holders, the vote of the senior holder tendering a vote will be accepted to the exclusion of the votes of the other joint holders. Seniority depends on the order in which the names stand in the register of members.
7. The completion and return of this Form of Proxy will not preclude you from attending and voting at the Annual General Meeting should you subsequently decide to do so. If a member appoints a proxy and that member attends the Annual General Meeting in person, the proxy appointment will automatically be terminated.
8. A vote withheld is not a vote in law, which means that the vote will not be counted in the calculation of votes for or against the resolution. If no voting indication is given, the proxy will vote or abstain from voting at his or her discretion. The proxy will vote (or abstain from voting) as he or she thinks fit in relation to any other matter which is put before the Annual General Meeting.
