# MI Downing UK Micro-Cap Growth Fund

July 2016

## About the Fund

MI Downing UK Micro-Cap Growth Fund ("the Fund") invests in a concentrated portfolio of between 25-30 UK companies within the Numis Smaller Companies Indices - typically those with market capitalisations between £20 million and £150 million.

The Fund seeks to generate capital growth, whilst retaining a strong focus on capital preservation. The Fund aims to outperform returns from other UK small-cap equity funds by selecting investments that the Manager believes are undervalued by the market.

### Market commentary

In June, the Fund outperformed the benchmark by 1%, but generated an overall loss of 5.6%. Following the UK's vote to leave the EU, equities - particularly those smaller companies where we invest - sold off as market participants factored in an increasing amount of uncertainty and the potential of a UK recession. Whilst our companies are not immune to sentiment and macro headwinds, we believe that our rigorous process and value led approach should continue to drive investor returns over the long term.

Pittards PLC, the international producer of high grade leather and leather products, was up 13% in the month, aided by the referendum decision. In the last full year, the company earned only around 10% of revenues in the UK, and the rest from Europe, the US and the rest of the world. We believe that the market is favouring these non-domestic, and particularly US, revenues. Sprue Aegis PLC, the safety products manufacturer, was also up in the month, staging a post profits-warning recovery on the back of a positive AGM statement and confirmation that they are entitled to a warranty claim against the third party battery manufacturer.

Conviviality PLC, the UK's largest franchised off-licence and convenience chain, sold off by 11% in the month as investors sought to reduce exposure to UK discretionary. We believe that Conviviality remains attractively positioned with significant exposure to the cheaper end of the market. Produce Investments PLC, the vertically integrated potato company, also sold off in the month due to negative sentiment.
