For international students, James Madison University (JMU) is an exciting destination, where the ideals of American education — first-class teaching, a rich campus life, and a strong sense of community — come together to offer an incredible experience.

JMU is surrounded by the beautiful mountains of Virginia's Shenandoah Valley, just two hours from the nation's capital of Washington, D.C. We are a large university with approximately 20,000 yet offer a safe and hospitable environment, with a family feel and strong culture of community.

We want all students to succeed and believe that our partnership with Study Group creates a friendly environment where our students can improve their English language skills while also taking courses in our academic programs. All students take courses in our General Education Program, which offers a liberal arts foundation that will help you to think in different ways as you solve problems and address issues in the world today. We also offer a wide variety of excellent academic majors. Our faculty members are devoted to teaching, guiding research, and mentoring as you develop as a scholar and mature as a human being.

Jonathan R. Alger, J.D.
President, James Madison University

“Not only does JMU have strong academic programs for students, but it also has different opportunities for us to explore and learn. JMU has so many opportunities for students to get involved. “I did an internship last summer here in Northern Virginia, which worked out perfectly. It was for civil engineering, so it gave me the opportunity to actually get in and see what it’s like to be a civil engineer. At the beginning I thought I would be learning by looking around and talking to people, but they gave me the opportunity to get certificates. It was a great experience. People were so welcoming, and so nice to me.”
