

DEPAUL  
UNIVERSITY

STUDY IN THE

# HEART OF CHICAGO

#1 BEST BIG CITY  
IN THE USA

Condé Nast Traveller, 2023

[GLOBALDIRECT.DEPAUL.EDU](https://globaldirect.depaul.edu)

# EXPERIENCE CAREER- LED TEACHING AT A HIGHLY RANKED U.S. UNIVERSITY.

If you want to study in one of the greatest cities in the world, DePaul University is the choice for you. Located in the heart of Chicago, DePaul offers premium access to internships and jobs across all sectors. We focus on inclusivity, personalism, and professionalism to produce well-rounded students who are ready to meet the challenges of the workplace and make a global difference.

## NATIONALLY RANKED

DePaul University is ranked 151<sup>st</sup> in the U.S. by U.S. News & World Report (2024), and several programs are ranked amongst the best in the nation. The undergraduate Driehaus College of Business is ranked 103<sup>rd</sup> nationally.

## GREAT CITY LIFESTYLE

As a DePaul student, you will live and study in Chicago, the third largest city in the USA. Chicago is famous for its amazing architecture, world-class sports, and thriving food and music scenes. It is also home to 30+ top Fortune 500 company offices, many of which offer internships.

## CONTENTS

- 02 Highly Employable Graduates
- 04 Living at DePaul
- 06 Welcome to the "Windy City"

## CAREER-FOCUSED

Throughout your time at DePaul, you will be encouraged to think about your future. You will build career skills through real-world exposure, with opportunities to partake in events and internships.

## COMMUNITY

DePaul values inclusion and diversity above all. Almost every culture and country is represented in Chicago, and about 6% of DePaul's population is international. Here, you will be welcomed into a friendly community from day one.

- 08 Degree Programs
- 16 Entry Requirements
- 17 How to Apply

**#151st**

**Best National University**  
(U.S. News and World Report, 2024)

**#59**

**Best Value School**  
(U.S. News and World Report, 2024)

# HIGHLY EMPLOYABLE GRADUATES.

## Alumni

More than 201,000 alumni worldwide work in areas including **business analytics, computer science, film, game design, and supply chain management** to make an impact on global industries.

DePaul is committed to student success. With our support, you can connect with internships, Optional Practical Training, and further career opportunities at 30+ Fortune 500 companies with locations in Chicago as well as other businesses that range from start-ups to internationally reaching organizations.

### STUDENT SUPPORT

Academic advisors are available to discuss long- and short-term curriculum planning, program requirements, course selection, major/minor selection and questions related to academic policy and procedure.

The Career Center provides services including career advising, help finding jobs and internships and help with résumés.

International Student and Scholar Services (ISS) provides quality advising services to international students and scholars. In addition to globally focused programs and events, ISS helps international students navigate visa and work authorization processes for Curricular Practical Training (CPT) and Optional Practical Training (OPT).

### GRADUATE SUCCESS

92% of DePaul students graduating with bachelor's degrees are employed, continuing education or pursuing other goals within six months of graduation.

More than 350 organizations actively recruit DePaul students on campus each year for job and internship opportunities. With access to Chicago's many company headquarters, start-ups, and organizations, DePaul provides students with access to more than 17,000 internship listings through the Career Center every year.

## Global employers

Graduates have worked for global employers such as **Accenture**, **IBM**, **Microsoft**, **Salesforce**, **GE Capital**, and **Aon**.

I think it's a great time for international students to feel supported and welcomed, because our leadership understands what they've been through and has had that direct experience.”

### KARI COSTELLO

Assistant Vice President,  
International Admission

# LIVING AT DEPAUL.

DePaul University encourages students to get involved in life out of the classroom to ensure a well-rounded and rewarding university experience.

There are more than 350 organizations and clubs to choose from, helping you grow transferable skills such as teamwork and leadership. Make friends and become part of the community as you follow your passions and discover new hobbies. The annual Student Involvement Fair makes it easy to find something for you.

## ORGANIZATIONS AND CLUBS INCLUDE:

- Asian Cultural Exchange
- Computer Science Society
- DePaul Accounting Club
- DePaul AI
- DePaul Women in Business
- E-Sports
- Kellstadt Business Analytics Organization
- Sales Leadership Society
- Supply Chain Management Society

## EVENTS AT DEPAUL

DePaul Activities Board (DAB) is DePaul's event-organizing body. DAB organizes events throughout the year, ranging from annual traditions, such as Homecoming and FEST (an outdoor concert and festival), to speakers, music, movies, comedy shows, and more.

## SPORTS AT DEPAUL

Trying out for an intramural athletic team like basketball, soccer, or softball is another great way to immerse yourself in University culture.

If you prefer something more flexible, Ray Meyer Fitness & Recreation Center offers group fitness classes, outdoor adventure trips, workout equipment, a swimming pool, and other facilities.

## SERVICE AT DEPAUL

At DePaul, students can take part in community service to help those in need. Here, you can participate in a service immersion trip during spring break, take part in New Student Service Day or Vincentian Service Day, or volunteer through community-based organizations.

## UNIVERSITY CENTER HOUSING

Many students choose to live in the University Center. This large housing and dining complex is less than a five-minute walk from DePaul's Loop Campus. Students live in semi-suites with three other students. Undergraduate and graduate students are allowed to live on or off campus. The DePaul Department of Housing Services is available to help students find off-campus housing.

### University Center amenities:

- Workout center, multimedia and meeting rooms
- State-of-the-art technology labs
- Music practice rooms and art studio
- Dining center
- Game room and student lounge with kitchen on every floor
- Study room on every floor
- 20,000 sq. ft rooftop garden on 3rd floor
- Bicycle storage
- Laundry facilities
- 24-hour security and keycard access
- All utilities included (heat, air, cable, local phone, and internet access)

### Your room:

- Shared with a roommate
- Single bed, desk, chair, and closet
- Shared bathroom

### Typical room layout:

# WELCOME TO THE "WINDY CITY."

DePaul has two campuses, both in central Chicago: Chicago Loop Campus and Chicago Lincoln Park Campus. They are home to different colleges and schools, as well as libraries and other student facilities. It's easy to get between campuses and around Chicago, with several public transportation options including the famous Chicago 'L' train.

## THE LOOP

The Loop campus is in downtown Chicago, home to some of the city's most famous landmarks, including the Cloud Gate sculpture and the 108-story Willis Tower. It is also Chicago's largest business district, home to Fortune 500 companies including Jones Lang LaSalle, Kraft Heinz, Motorola Solutions, and United Airlines. Living and studying in the heart of Chicago, there is plenty to explore between lectures.

### Facilities on the Loop campus include:

- DePaul University Public Safety Department
- Multiple cafés and dining outlets, where you can find a variety of international foods
- DePaul University Bookstore

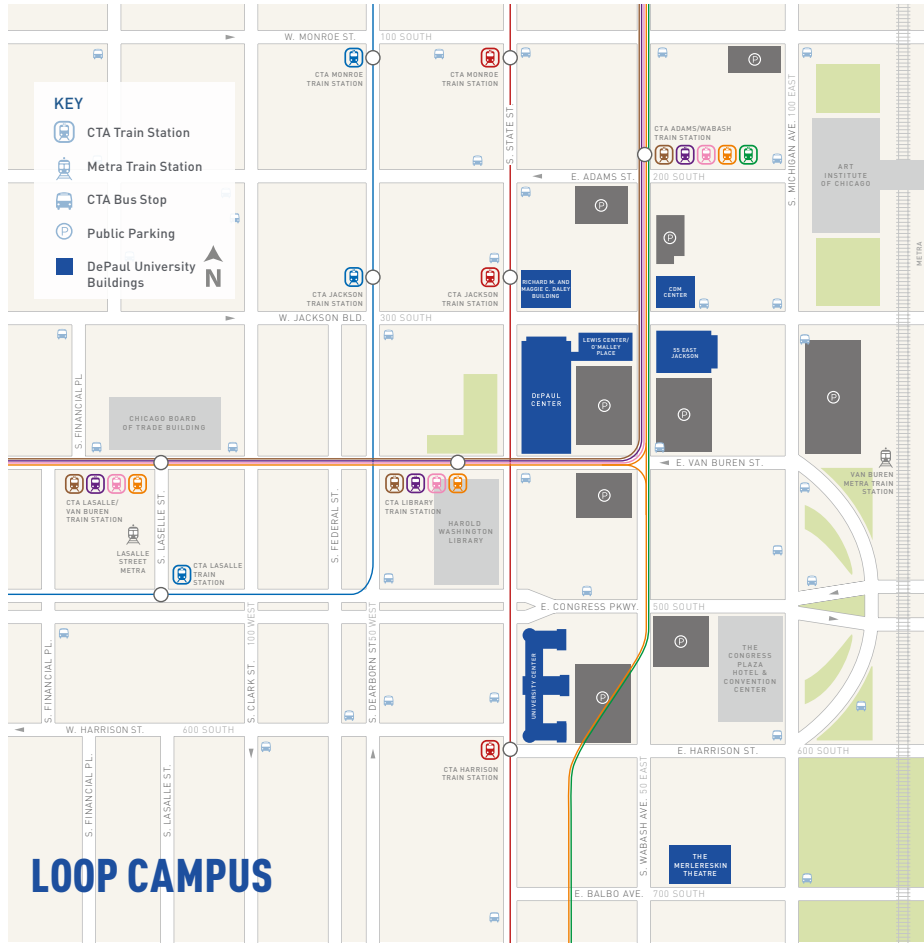

## LINCOLN PARK

8km from the DePaul Loop Campus is the Lincoln Park campus, home to most undergraduate classes. This lively neighbourhood has award-winning restaurants, great live music, famous theatres, and a massive park bordered by Lake Michigan.

### Facilities on the Lincoln Park campus include:

- Ray Meyer Fitness & Recreation Center
- The Student Center
- DePaul Urban Garden

“

The way DePaul designs a course is incredibly unique; it meets the needs of students and current industry trends. For any successful career, any person should have cognitive and technical skills. I feel lucky that I got a chance to learn both accurately at DePaul University.”

**PRACHI FROM INDIA**

Graduate, Computer Science MS '21

**#2**

Chicago is the **#2 most beautiful city in the world** (#1 in North America) and is the **5th friendliest city in the world**, according to Time Out (2022). The rankings come from an index of 27,000 survey voters across the world.

# DEGREE PROGRAMS.

DePaul University operates on a quarter system. The Fall, Winter, Spring, and Summer quarters each last 10 weeks. This means you can explore varied interests throughout your degree program.

## ACCOUNTANCY AND ANIMATION

Study Accountancy at DePaul and learn from award-winning faculty. Classes are in small groups with dedicated attention to help you achieve your potential.

### ACCOUNTANCY BSB, MS, MBA

Our Accountancy students have access to leading accounting and consulting firms while they learn from faculty who have served major corporations as chief financial officers, controllers, and internal auditors.

Bachelor of Science in Business (BSB) students take courses such as Advanced Financial Accounting and Financial Reporting.

Graduate students may pursue a Master of Business Administration (MBA) degree with a concentration in Accountancy or an Accountancy Master of Science (MS) degree.

Our graduates work at the Big Four Accounting firms: Deloitte, Ernst & Young, KPMG, and PricewaterhouseCoopers.

**96%** of Accountancy BSB graduates were employed, continuing education, or pursuing other goals within six months of graduation (DePaul University, 2023)

**48%** of Accountancy BSB graduates completed an internship while studying at DePaul (DePaul University, 2023)

Animation students learn to combine creativity, technical ability and critical thinking to be successful. DePaul's nationally recognized program will prepare you for a career in this in-demand field.

### ANIMATION BA, BFA, MA & MFA

DePaul has one of the largest full-time Animation faculties in the USA with work experience that includes *Beauty and the Beast*, *The Simpsons*, and *Futurama*. With our nationally ranked programs, you will have access to a 32,000-square-foot production facility at Cinespace Chicago, and we have a Los Angeles-based location for our 10-week L.A. Quarter and the new Creative Producing MFA.

Undergraduate students can choose between a Bachelor of Arts (BA) and a Bachelor of Fine Arts (BFA) degree in Animation. Both programs include courses in 3D Animation, Motion Graphics, and Stop-Motion Graphics.

The Master of Arts (MA) degree prepares students for a future in 3D character animation, traditional animation, computer game art, or visual effects.

Recent graduates have been hired in animation roles at DreamWorks Animation, Laika Studios, Google, Blizzard Entertainment, Phosphor Studios, Wargaming, Nickelodeon, Electronic Arts, and Synapse Games.

**#16** Animation School in U.S  
(Animation Career Review, 2023)

**#1** Animation School in the Midwest  
(Animation Career Review, 2023)

**#14** Film School in the U.S.  
(Hollywood Reporter, 2023)

STEM-designated degrees

## Advantages of the Quarter System

- Flexibility to add a 2<sup>nd</sup> Major or Minor program
- Opportunity to travel home in the December intercession
- Get involved in service projects

## STEM-DESIGNATED DEGREES

DePaul has been teaching AI-related programs for more than 20 years and is at the forefront as one of the first universities to offer an MS in the field.

### ARTIFICIAL INTELLIGENCE MS

The Artificial Intelligence MS program prepares students to be part of vastly emerging job growth in industries like cybersecurity, healthcare, manufacturing, retail, and more. Graduate students will learn to apply artificial intelligence (AI) to technical areas like natural language processing, big data systems, computer vision, image processing, and robotics.

The MS program does not require a bachelor's degree in computer science or a related field. We value all academic backgrounds and will provide the introductory courses you need to prepare for a career in AI.

Students will learn advanced technical skills and gain a deep understanding of AI and machine learning along with the creation of complex intelligent systems and how to integrate AI with existing applications and processes. Sample courses include:

- Introduction to Image Processing
- Advanced Machine Learning
- Tools and Techniques for Computational Analysis

STEM-designated degree

Enhance your data analysis skills as a financial professional in the center of Chicago's financial district. Firms like Aon, Boeing, JP Morgan Chase and United Airlines are all just steps away.

### BUSINESS ANALYTICS MS

With an MS in Business Analytics, DePaul students are prepared to become financial professionals with exceptional data analysis skills. They learn from expert faculty members and use their instructors' case studies and research to solve real-world business problems as they take courses such as Fundamentals of Business Analytics, Data Management, and Business Performance Analysis. Students choose from elective courses in areas like:

- Computer Science
- Data Science
- Economic Analysis
- Leadership
- Supply Chain Management.

Our Business Analytics MS students go on to work at companies like AlRajhi Bank, KeHE Distributors, and The Marketing Store, North America.

STEM-designated degree

## STEM-designated degrees

DePaul offers many STEM-designated degrees at the undergraduate and graduate levels. Completing these programs may qualify international students to extend their post-graduation stay in the USA through Optional Practical Training (OPT).

After finishing their program of study and initial post-completion OPT, eligible F-1 students may apply for a STEM-OPT extension for a 24-month period. Refer to [www.ice.gov/sevis](http://www.ice.gov/sevis) for more information.

Students should talk with their DePaul advisors to confirm that their chosen program is a STEM-designated degree.

Professors at DePaul are really kind. Computer science is one of the most popular majors in my homeland and in the U.S., and I have a great interest in this area. The most charming part of computer science is when you are facing a hard code and you try your best to figure it out. After a lot of process and tests, finally it runs successfully. The joy of success is unparalleled.”

**ZEYU FROM CHINA**

Studied Computer Science MS at DePaul University

**COMPUTER SCIENCE DEGREES**

With DePaul's strong reputation among employers and close ties to the tech and start-up communities in Chicago, studying Computer Science at DePaul offers practical, real-world experience. The MS program is customizable to your interests so you can focus on your interests.

**COMPUTER SCIENCE BS, MS**

DePaul's Computer Science programs prepare undergraduate and graduate students for success with innovative curriculum, inspiring faculty, and strong connections to industry.

Undergraduates explore aspects of mathematics, science, and engineering, and may choose a Game Systems or Software Development concentration. Sample courses include Data Structures, Optimized C++, and Game Engine Programming.

The MS program is the premier training ground for computing professionals in Chicago. Students learn the fundamentals of the field, explore programmatic applications, and can research topics like data mining and scientific computing. Sample courses include Artificial Intelligence, Game and Real-Time Systems, and Object-Oriented Software Development.

Our Computer Science graduates have gone on to work at Amazon, Microsoft, Deloitte, Discover Financial Services, and Oracle.

**89%** of Computer Science BS graduates were employed, continuing education, or pursuing other goals within six months of graduation (DePaul University, 2023)

**92%** of Computer Science MS graduates were employed at the time of graduation or within six months (DePaul University, 2023)

STEM-designated degrees

## CYBERSECURITY AND DATA SCIENCE DEGREES

Prepare for the fast-growing cybersecurity market by learning the foundations of information security.

Areas of focus can include computer forensics, incident response, network security administration, risk assessment, and web development.

### CYBERSECURITY BS, MS

With DePaul's CDM Security Lab that features more than 100 routers, 60 switches, 90 firewalls, and a wide variety of servers and specialized network appliances and access to the Cisco Networking Academy materials, Cybersecurity students are ready for careers in computer forensics, incident response, network security administration, and beyond.

Undergraduates learn to manage an organization's systems while working with various security infrastructure components. Sample courses include Data Structure and Host Based Security.

Graduate students choose from concentrations in Computer Security; Networking and Infrastructure; and Governance, Risk Management, and Compliance, and take courses like Cryptology and Digital Forensic Techniques. Students complete a capstone project with real-world experience.

---

**#3** Cybersecurity MS program in the US (Fortune.com, 2023)

---

**94%** of Cybersecurity BS and MS graduates were employed, continuing education, or pursuing other goals within six months of graduation (DePaul University, 2023)

---

STEM-designated degrees

---

Immerse yourself in data and learn how to manage and analyze complex data science models to support decision making. Gain the technical knowledge and skills needed to resolve the challenges with 'big data'.

### DATA SCIENCE BS, MS

CDM, home to our Data Science programs, features 30 labs and centers, including:

- The DePaul Center for Data Science: Partner with organizations for projects in data mining, predictive analytics, and machine learning.
- The Laboratory for Interactive Human-Computer Analytics (LIHCA): Explore Human-in-the-Loop analytics by using machine learning and interactive visualization.

Undergraduates study mathematical foundations in data analysis, build technical skills for data processing and application development, and learn advanced machine learning and statistical modeling techniques. Sample courses include Data Structures, Data Visualization, and Database Systems.

MS students choose from concentrations in Computational Methods, Healthcare, and Marketing, and gain advanced computational skills to meet emerging challenges in big data analytics. Courses include Advanced Data Analysis, Database Processing for Large-Scale Analytics, and Python Programming.

Our Data Science graduates have gone on to work at companies Amazon, Google, IBM, Facebook, Deloitte, GE Capital, and BMO Harris Bank.

---

**93%** of Data Science MS graduates were employed, continuing education, or pursuing other goals within six months of graduation (DePaul University, 2023)

---

STEM-designated degrees

---

### INCREASED CAREER PROSPECTS

We bring lessons to life with real-world experiences. You will immerse yourself in your chosen subject and learn how to build your career with activities like networking, résumé writing, and practicing interviews.

### SUPPORT AT EVERY STEP

From day one, we are here to support you on every step of your journey, from enrolling in classes to pursuing a career after your studies.

## Top university

In addition to being **ranked #151** by U.S. News & World Report (2024), DePaul University is one of The Princeton Review's **Best 388 Colleges for 2023**.

Every time I speak to students, I just say the most important element in all of this is your interest. If you are really interested in studying a specific area, that's the most important thing. And I think that pretty much drives everything you do. So as long as you are interested, we are here to help you learn, and we'll do everything we can, and we'll work with you throughout your MSF program.”

**DR. SANJAY DESHMUKH**

Professor and Director,  
MS in Finance Program  
Department of Finance  
& Real Estate

## FINANCE DEGREES GAME DESIGN/GAME PROGRAMMING DEGREES

Absorb everything you can from studying in the business and financial district of Chicago. You will learn how to navigate today's increasingly sophisticated global financial markets and have the option to find work in a global financial hub.

**FINANCE BSB, MS, MBA**

With DePaul's BSB and MS degrees, Finance students are prepared for financial sector careers as they develop strategic financial objectives, improve investment decisions, design financial instruments, and manage corporate risk.

BSB students have the option to study specialized curriculum in Banking, Corporate Finance, Investment/Financial Analysis, or Risk Management. Sample courses include Banking and Financial Services and Corporate Financial Management.

The Finance MS program is a STEM-designated program, teaching skills such as financial decision-making techniques; solution development; designing, using and evaluating financial tools and instruments; and risk analysis. Graduate students can choose to pursue an MBA with a Finance concentration as well.

Graduates go on to work at companies like Amazon, Allstate, CME Group, Capital One, and Taos Global Group.

---

**94%** of Finance BSB graduates employed, continuing education, or pursuing other goals within six months of graduation (DePaul University, 2023)

---

STEM-designated degree (MS only)

---

Develop your interest in game production at the highest level, including real-time computing and computer graphics, and address the real-world needs of the industry through topic-based classes.

**GAME DESIGN BS, MFA /  
GAME PROGRAMMING BS, MS**

Students can pursue exciting careers in game design under the guidance of DePaul faculty members who are industry-leading, experienced professionals. The Game Design BS and MFA programs prepare students to become storytellers, entrepreneurs, and leaders in the field. We also offer BS and MS degrees in Game Programming.

Game Design students take courses like 3D Animation, Playgramming, and Creative Computation. Game Programming students enroll in courses like

- 3D Design and Modeling
- Computer Graphics Development
- Architecture of Real-Time Systems
- Game Engine Programming I & II.

Recent graduates have gone on to work at Disney Consumer Products and Interactive Media, NeatherRealm Studios, Owlchemy Labs, and Phosphor Games, and they have formed their own gaming companies like YoungHorses, whose indie hit Octodad was developed at DePaul.

---

**#11** Game Design School in the U.S. (Animation Career Review, 2023)

---

**#33** Top Undergraduate Schools to Study Game Design (The Princeton Review, 2022)

---

**#25** Top Graduate Schools to Study Game Design (The Princeton Review, 2022)

---

STEM-designated degrees (Game Programming BS, MS)

---

## HOSPITALITY DEGREES

Discover cutting-edge hospitality technologies and strategies to use in your career. Learn the foundations of customer relationship management, data analysis and financial metrics.

### HOSPITALITY LEADERSHIP BSB

Located in the Driehaus College of Business, DePaul's School of Hospitality Leadership was established with the support of a \$7.5 million gift from the Conrad N. Hilton Foundation.

The Hospitality Leadership BSB program prepares students for careers in various industry areas with courses like Club Management, Hospitality Service and Experience Management, and Hospitality Strategy. BSB students complete two 2-credit internships and are strongly encouraged to divide their internships between the "Back of the House" where production often occurs and the "Front of the House" where customer contact occurs and service is delivered.

Our graduates go on to work at corporations like Hilton, Discover Global Network, Hyatt Hotels Corporation, and Four Seasons Hotels & Resorts. The Marriott Foundation Center for Student Development and Engagement assists DePaul hospitality students in career planning and helps connect them with industry partners and alumni.

My dream job is to be a manager in a hotel. I want to work in a hotel because I believe that a hotel is a place that makes people relax. So I believe that I can provide this service to people.

Building your confidence is important but I think more important is you need to know how to build a network with others."

You can make an inquiry through the website or visit [globaldirect.depaul.edu](http://globaldirect.depaul.edu)

This brochure is issued for the general guidance of students considering entry to DePaul University from 2024.

The information is correct at the time of going to press, and the programs and services described herein are those which Study Group is planning to offer.

However, Study Group reserves the right to amend, add or remove any program and/or services set out in this brochure and/or the timetable, delivery, content syllabi, and assessment of such programs.

The University (where applicable) also reserves the right to amend the regulations governing those programs without prior notice. Study Group therefore strongly recommends that immediately prior to making any application to Study Group or accepting any offer from Study Group, students should refer to the most up-to-date version of the program descriptions and specifications and the regulations on the DePaul University website [globaldirect.depaul.edu](http://globaldirect.depaul.edu).

Study Group also reserves the right to make variations to the content and method of delivery of the programs and services, to discontinue programs and services and/or to combine and merge programs, if such action is reasonably considered to be necessary by Study Group.

Applicants to Study Group programs will be notified as soon as practicable of any material changes likely to have a bearing on their applications, such as cancellation of, or major modification to programs offered, changes to accommodation provision, or fees and charges to be levied where applicable.

Neither the University nor Study Group shall be liable for any errors or omissions that may be contained.

Study Group is a global leader in preparing students for international academic success and rewarding careers through a life changing learning experience. We offer customized programs across higher and language education, starting from high school to life-long learning. To learn more, please visit [studygroup.com](http://studygroup.com).
