"The Online Pre-Masters Programme offered a way to progress to a higher education in my locality, giving me the capability to work in the daytime and take courses after. Frankly speaking, this programme exceeded my expectations."

Daniel from Taiwan

Studied the Online Pre-Masters Programme in Business Management. Studied MSc Accounting and Finance at Lancaster University.

Begin your academic journey with our Digital Learning Programmes

Access to a quality education from anywhere in the world with our digital programmes.

Unlock your potential with Study Group Digital Learning

Whether you are looking to study at undergraduate or postgraduate level or improve your English in order to progress to the next stage of your education, our high-quality digital programmes will prepare you for degree study at the university of your choice.

Our experienced staff provide flexible, supportive learning opportunities to help you develop your English language and academic knowledge – no matter where you are in the world.

Choose from the following online programmes:

- Online Pre-Masters Programme
- Online Accelerated Pre-Masters Programme
- English Language Preparation Programme - Online

Connecting you with a choice of universities

Our programmes are recognised by a number of UK universities, providing you with a choice of progression options following the successful completion of your digital programme and meeting the university entry requirements. As there are different entry requirements for each university, we are able to cater for a wide range of students, ensuring that you progress to the best university for you.

With such a wide range of universities to choose from, you may not know where to start. Our dedicated University Ready team will support you in selecting a progression university and degree programme which is suitable for your individual needs.

Study Group partner progression universities

Our recognising universities

Flexible approach to study

Enhance your language and academic skills, providing you with the skills to succeed at university.

Why digital learning is the right choice for you

There has never been a better time to study with Study Group Digital Learning. Our programmes are right for you if you answer 'yes' to any of these questions:

➤ Are you interested in gaining a qualification to expand your knowledge and improve your career prospects?

➤ Would you like to experience the UK education system before travelling for your university studies?

➤ Would you like the freedom to choose where you study?

➤ Would you like to study without having to travel?

➤ Are you self-motivated, responding well to new challenges?

➤ Do you enjoy connecting, interacting, and exchanging ideas with people all over the world?

➤ Are you inquisitive and like to question yourself and others, explore new topics and engage in discussions?

➤ Do you have existing study, family, or work commitments, which make campus study difficult?

University Ready Programme

With our University Ready Programme, you'll have support writing your personal statement, have access to our university fair, and participate in activities that will help you develop skills that will impress universities and future employers.

Why you'll love online study

You will receive the same quality teaching and the same level of support as an on-campus programme. You will be taught by our expert teachers, who are experienced in teaching international students.

Studying your pathway programme online allows you to learn about the UK education system so you can adapt to your university studies more quickly. You also have more time to become confident in your studies before making your university and degree programme choice. And with insendi, our online learning environment, you will have easy access to a wide range of quality learning materials including an online library.

Flexible and accessible

Our full-time programmes consist of live (synchronous) and asynchronous sessions. With live sessions you will have real-time, interactive lessons and discussions with your tutor and classmates, as well as individual tutorials. You are also able to ask questions and discuss topics in more detail.

Your asynchronous sessions provide you with the flexibility to study in your own time. Available on-demand, these consist of recorded lectures - which you can watch at any time - engaging self-study tasks, background reading and online assignments.

Build your global community

Through our wide range of additional activities you are able to meet with your fellow classmates and start to build your global community. We offer a variety of online forums, social gatherings, a virtual homework club, book and movie clubs as well as a weekly conversation club.

We also ensure that you are supported throughout your studies so that you are fully prepared to succeed at university.

Prepare for the future and save money

Our programmes give you the opportunity to study from home, no matter where you are in the world. This flexibility means you can save on accommodation and travel costs, only traveling to your chosen university when you are ready to begin your on-campus studies.

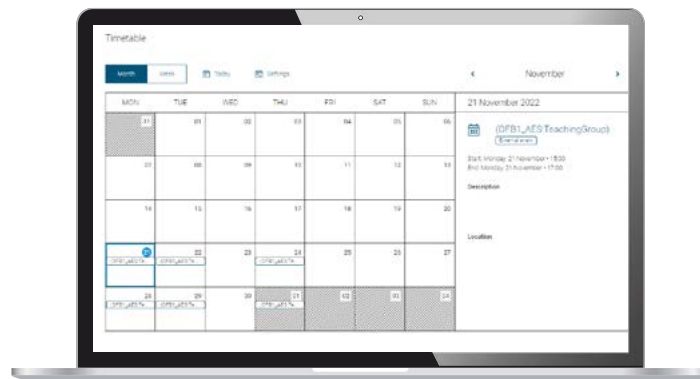

Your online study experience

Digital-focused learning in a digital-focused world

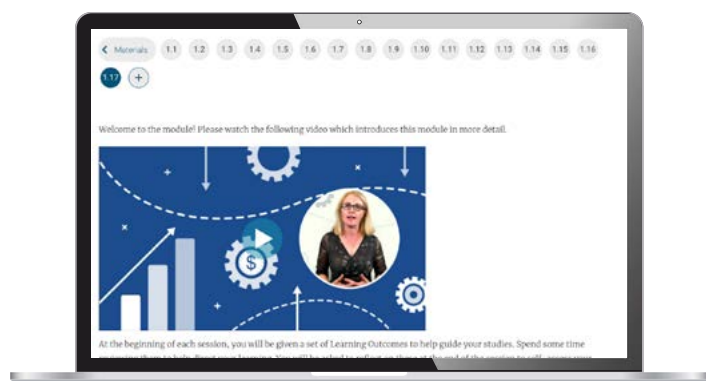

Your programme is easily accessible from your computer and is available 24/7.

Short videos introduce weekly learning objectives and themes, live sessions with tutors give you the opportunity to ask questions and interactive forums allow you to engage with your classmates. Your live lectures will be recorded, allowing you to review materials at any time to ensure you get the most out of your course.

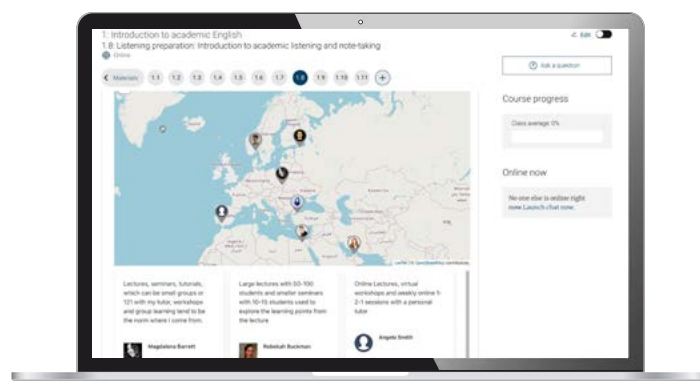

From the start of your programme, you'll be sharing your experiences as a part of an active learning community, ensuring you feel supported from day one.

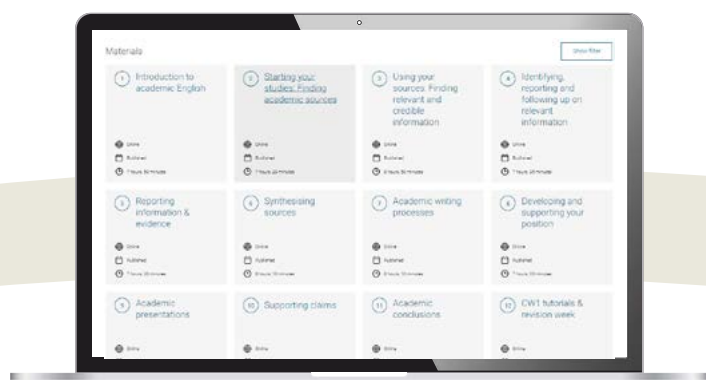

A digital timetable with all your live session information

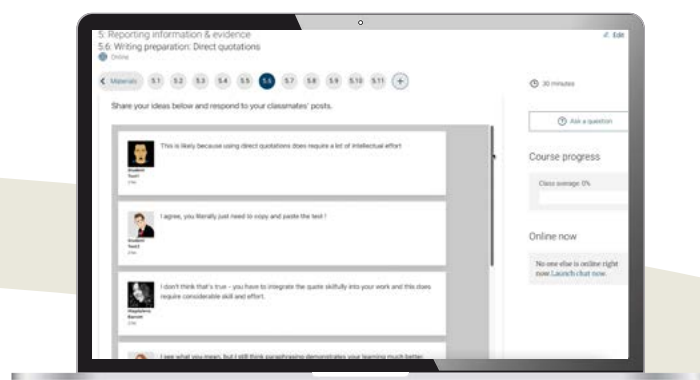

Regular short videos with in-built chat and video call functionality

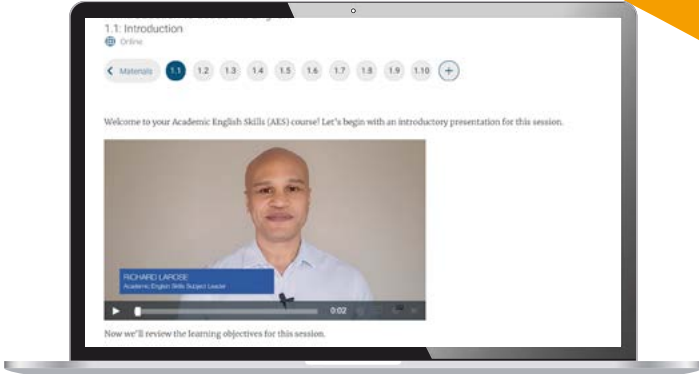

Join a global network of learners dedicated to personal and professional growth

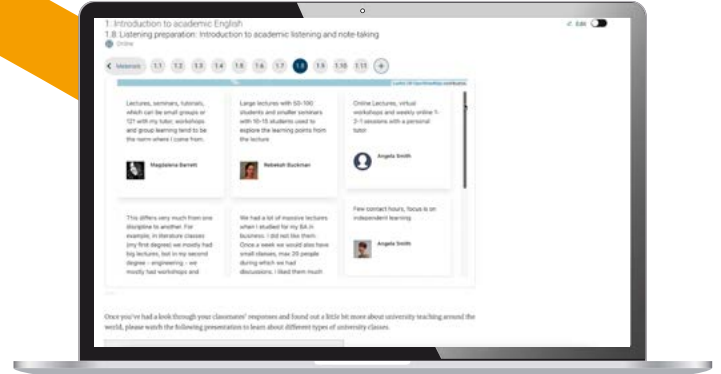

Manageable blocks of learning with estimated timings for your study

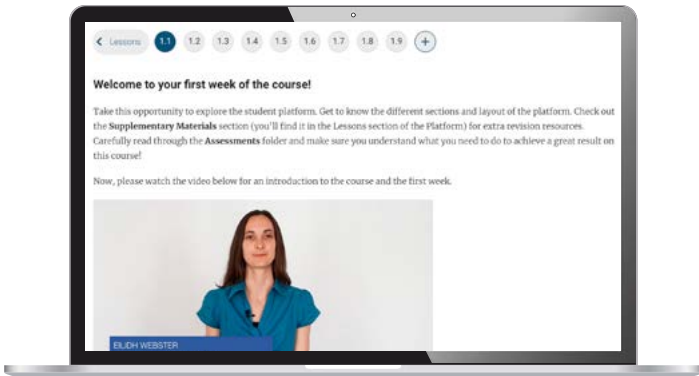

Develop your international community - the opportunity to discuss ideas with your peers from around the globe

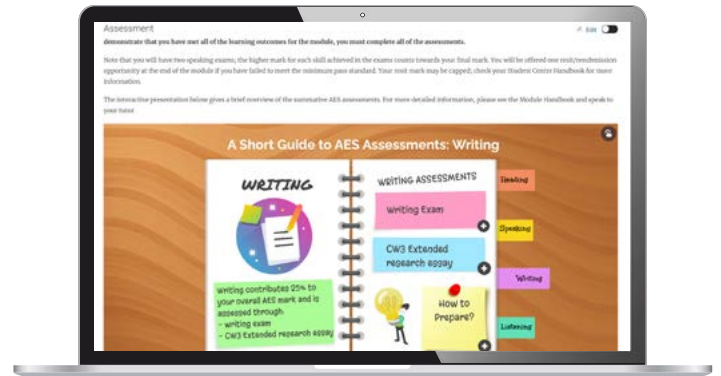

Engage with your tutors to build a strong and effective learning community

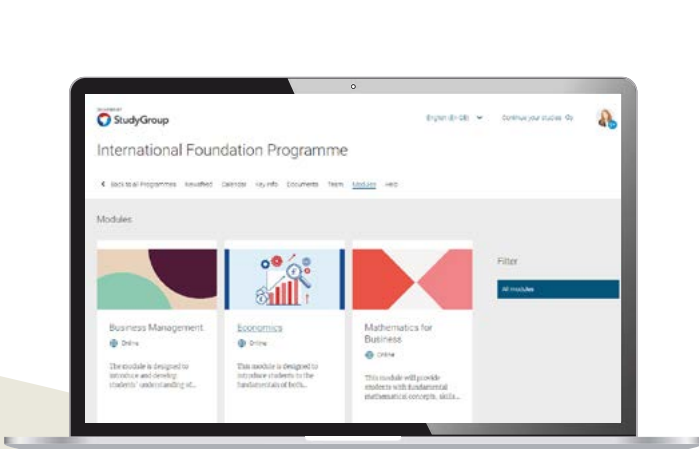

Learn from your peers - you're never alone when studying a digital learning programme

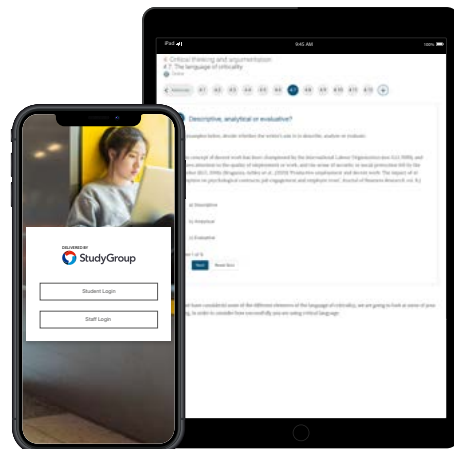

Your tutor will introduce the topics and learning outcomes for your programme

Assessment strategies, interactive overviews - everything you need to prepare

Students will join live sessions every week in addition to completing independent study tasks, research and assessment preparation

Easily accessible from your computer which means you have full flexibility wherever you are

It's all about choice

Providing you with the skills needed to progress to a world-class university.

It's all about choice

Study Group Digital Learning provides you with the choice to progress to a range of universities. All our programmes are multi-articulation. This means that there are different universities and degree courses that you can apply and progress to depending on your English language level, academic background, academic study and career aspirations.

And you do not have to decide on which university you want to progress to until after you start your digital programme. This is different from a single-articulation programme where you need to have a particular university in mind and commit to that university before you start your studies.

Your progression options

When you receive your offer to study one of our digital programmes, you will automatically receive letters of guaranteed conditional progression* from a range of universities. The number of letters you receive will depend on which programme you are studying.

These letters list the degree courses you can progress to as well as detailing the university progression requirements you will need to meet.

You also have the choice to apply to other universities which recognise our programmes. These universities have a range of entry requirements which allows us to offer you the widest choice of university progression options.

Wide range of subjects and degrees to choose from

When you study one of our online programmes, you may think that you can only progress to a business-related subject. However, our range of progression universities allows us to offer you a wide range of degree subjects to choose from. The degree subject you choose will depend on which university you are looking to progress to.

University Ready

With so many universities to choose from, you may not know where to start. Our dedicated team will provide expert guidance on applying to study your postgraduate degree in the UK. You will receive independent advice and personalised support to apply to the right university and degree course for you.

*Letters of guaranteed conditional progression are subject to the successful completion of academic programme, meeting university progression requirements and submission of university application. Only for degree programmes listed and conditions stated on conditional progression letters.

Support every step of the way

We will support you throughout your programme, from enrolment to progression to your chosen university. We monitor your academic progression along the way to ensure you are reaching your goals and getting the most out of your course. Your Learning Experience team are only ever a click of a button away and offer both personal and academic support.

Online Pre-Masters Programme: Business Management

Bridge the gap between your undergraduate degree and a masters degree at a UK university with our Online Pre-Masters Programme. You will gain the specialist academic and English language preparation you need to succeed as a postgraduate student.

2-semester
