PREMIUM TIMBER SELECTION

Our eco-friendly, 100% solid and non-toxic wood, is hand-selected and kiln-dried to add heat and moisture to keep the wood from cracking. We take pride in premium quality craftsmanship and robust construction to ensure we provide the highest quality and sustainable saunas on the market.

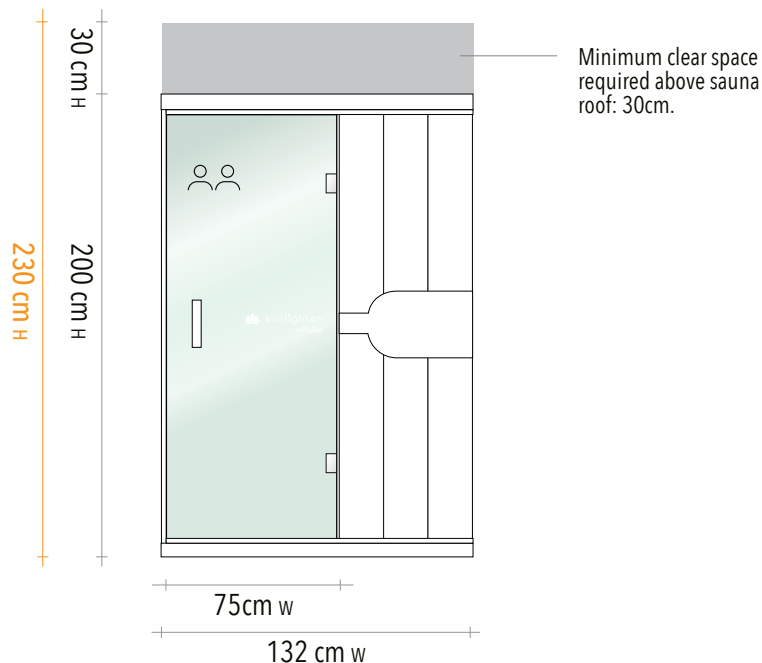

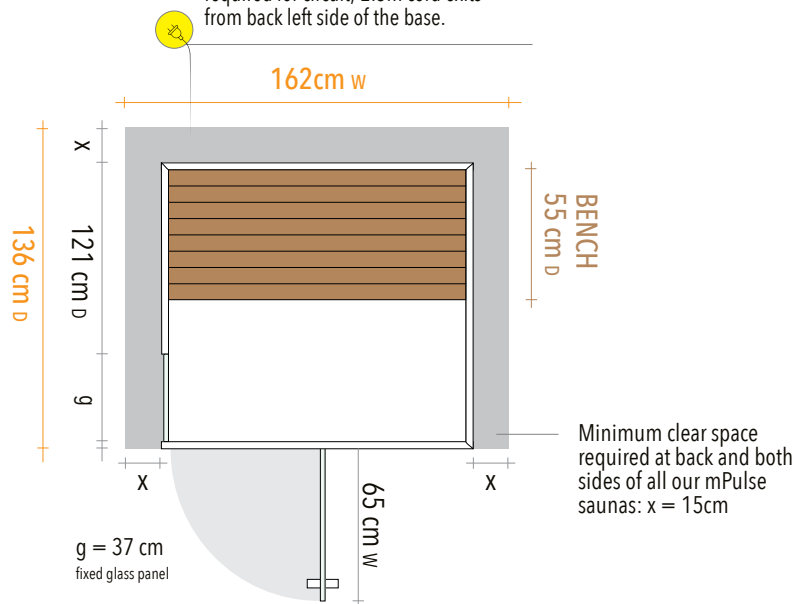

- (E)** EUCALYPTUS [ENTIRE SAUNA]
- (EC)** EUCALYPTUS [EXTERIOR] & CANADIAN WESTERN RED CEDAR [INTERIOR]
- (HB)*** HYPOALLERGENIC BASSWOOD [ENTIRE SAUNA]

* PLEASE NOTE: Available as special order only. Please discuss with our sales support team.

						TOTAL	15

POWER 240V, 2251 watts. Dedicated 15A circuit and 15A power socket protected by a 16A RCBO installed in the meter box. Minimum 2.5mm cable required for circuit; 2.5m cord exits from back left side of the base.

PRE-INSTALLATION CHECKLIST

It is important to ensure there is enough space through the doors and pathways to the sauna's location in your space. Please measure any access doorway or hallway prior to purchase for easy installation.

If your sauna is being installed in a tight space, talk to your sales representative to confirm installation is possible.

In addition, please ensure any electrical works are completed prior to delivery and installation of your Sunlighten sauna. Please locate the power outlet for easy access to turn the sauna on and off at the power source after installation.
