

Venafi Academy

Driving customer success with a robust curriculum of certifications and educational content

Key Features

- **Reduce deployment time**
Access to tailored, timely and task-oriented learning helps speed successful deployment and adoption.
- **Minimize deployment risk**
Direct access to Venafi experts and hands-on experience helps minimize project risk.
- **Maintain consistent skill sets**
Train new and additional resources when Venafi administrators get promoted or leave.
- **Accelerate time to value**
Rapidly realize value for machine identity management on the Venafi Platform investment.
- **Harness time-honored expertise**
Learn from the source. As the industry leader, Venafi knows best!

Ensuring Success: Venafi Academy Subscription

Investing in software is only the first step. Many customers have found that Venafi training is a highly effective way to accelerate their implementations and reduce risk. Robust training is just one way Venafi strives to set up our customers for success.

To expand on our popular training program, we've created the Venafi Academy Subscription. This new training and certification package helps ensure that your organization's experts get the training they need to optimize their approach to deploying, supporting and expanding the Venafi solution—immediately and well into the future.

The Venafi Academy subscription gives *anyone at your company* UNLIMITED access to Venafi training—including certification courses, online self-study courses, modules, videos and more. All are designed to help you successfully deploy and adopt the many features of the Venafi Platform.

In addition to training, you ensure that your Venafi administrators can get knowledge directly from Venafi experts, as well as the hands-on experience they need to successfully deploy the Venafi Platform. The Venafi Academy minimizes project risk while maximizing the ROI brought by effective machine identity management.

Here's what you get with your Venafi Academy Subscription:

- UNLIMITED seats in public Venafi Security Administrator (VSA) certification classes
- UNLIMITED access to self-study certification courses and exams
 - Venafi Security Professional (VSP)
 - Venafi Security Administrator (VSA)
 - SSH Protect Administrator (SPA)
- 50% discount on dedicated (including onsite) VSA classes
- Exclusive access to the latest set of valuable training modules such as:
 - Working with Amazon AWS
 - Working with Microsoft Azure
 - Configuring and validating applications, including Apache, F5 and PEM, among others
 - Automating certificate renewal for DevOps using Venafi APIs
- The newest value-oriented courses, as they become available

Why should you subscribe?

You'll get unlimited access to industry-validated best practices and proven methodology based on more than a decade of experience with:

- Unlimited instructor-led training delivered by Venafi experts
- Robust self-study courses structured to learn at your convenience
- Up-to-the-minute training on refreshes and updates
- Efficient, nugget-sized microlearning delivered just in time
- Optimized functionality of the Venafi Platform, such as automation and API integration
- Demo videos that walk you through advanced features
- Flexibility to select onsite and remote options

What do attendees find useful?

Recent survey comments from Venafi Security Professional courses

"Instructor(s) knew their stuff, which really helped. Applying the course knowledge to some real life examples really helped me."

"Labs, content and all teachers were good."

"Instructor is very friendly and helpful throughout the course, and review slides are very interactive. Loved that."

"Well delivered, great tutor to follow and understand. Each and every question was answered in great depth for us to understand."

"One of the best trainers I have come across. Very knowledgeable and friendly."

Next steps: Customize your learning program

What's right for your organization? Instructor-led? Self-paced? Nugget-sized modules? You don't have to choose because the Venafi Academy Subscription includes ALL of those learning methods. Consult with your Venafi account representative to help you determine whether the Venafi Academy Subscription is a good fit for your organization's initial and ongoing training needs.
