# Introduction

EAL is the specialist awarding organisation for industry qualifications.

## Getting the most from EAL ...

EAL is the specialist awarding organisation for industry qualifications.

**As an EAL Recognised Centre that means you benefit from;**

- ✓ a highly competitive pricing structure that offers genuine value for money
- ✓ all-inclusive registration fees with no hidden costs
- ✓ the option to add new qualifications to your Centre remit at no extra cost
- ✓ support from a dedicated, expert External Quality Assurer
- ✓ products developed with industry support and recognition

\* All products and services listed exclude VAT. VAT will be applied if a centre is VAT Registered

\* The Engineering Technologies qualifications are included within apprenticeship frameworks too.

This means they could be delivered to apprentices alongside learners who are seeking employment in the sector.

(Once employed, the individual would just need to complete the additional components of the apprenticeship framework, such as the competency based element, to gain their full apprenticeship qualification).

[Download our leaflet for further information \*\*EAL Qualifications Awarded UCAS \(138 KB\)\*\*.](#)

*Please note:* Just because a qualification is on the Tariff, it does not mean a university or college will accept it. Therefore, it is important to check the course entry requirements. Equally, if a qualification is not on the Tariff, a university or college may still accept it. It is always best to check with the university or college offering the course.
