Here's just one of many new and exciting updates to come from the 8.7 Release

I-9 Dashboard

To make it more convenient to manage the I-9 process using the new method rolled out with the last release, a new dashboard has been created to view key performance indicators and link to screens where action can be taken.

The dashboard is located under **Employee Admin Tools › Employee Administration › I-9 Management**

This dashboard will contain I-9 information utilizing the new method for completing I-9s that was released in 8.6. We are not pulling in data from the Informational I-9 Data UI (which contains I-9 info using the old method.) Instead, there is a report under Client Reports called the 'Employee I-9 Verification' report can be run to view I-9 statuses captured via the old method and as time goes on, there will be no need to utilize this report as I-9 information completed going forward from 8.6 will be contained in this new dashboard.

EEO deadline- The U.S. Equal Employment Opportunity Commission (EEOC) recently posted information on the EEO-1 landing page stating that the 2021 EEO-1 filing platform is tentatively scheduled to open on April 12, 2022, with the filing deadline tentatively set for May 17, 2022. This approximately four-week filing period is significantly shorter than the length of time provided for recent EEO-1 filing periods
