## Busy Bots

Have you ever wondered what an octopus made from a coat hook would look like? Or a crocodile made from pliers? How about a fish made from a light bulb? Wonder no more, because they have all been created in this unique book.

Each page has tactile embossing, specially de-signed to stimulate young children through sensory play, and bouncy rhyming text, great for reading out loud.

- These quirky characters are sure to spark creativity, encourage young children to think about recycling and inspire them to invent their very own Bot creatures.
