9.3.3 Child care centre code

9.3.3.1 Application

- (1) This code applies to assessable development identified as requiring assessment against the Child care centre code by the tables of assessment in **Part 5 (Tables of assessment)**.
- (2) All provisions in this code are assessment benchmarks for applicable assessable development.

9.3.3.2 Purpose and overall outcomes

- (1) The purpose of the Child care centre code is to ensure child care centres are appropriately located and are designed in a manner which provides a safe environment for users and protects the amenity of surrounding premises.
- (2) The purpose of the Child care centre code will be achieved through the following overall outcomes:-
 - (a) a *child care centre* is located in a convenient location, close to residential communities and major employment nodes;
 - (b) the health and safety of children and staff is not compromised by incompatible land use activities or poor design; and
 - (c) a *child care centre* does not have a detrimental impact on the amenity of surrounding residential premises.

9.3.3.3 Performance outcomes and acceptable outcomes

Table 9.3.3.3.1 Performance outcomes and acceptable outcomes for assessable development

Perform	ance Outcomes	Acceptable	Outcomes
Location	n and Site Suitability		
PO1	The <i>child care centre</i> is located so as to maximise its accessibility to the community.	AO1	The <i>child care centre</i> is located adjacent to, or is integrated with, another compatible community activity.
			OR
			The <i>child care centre</i> is located at the entrance to a residential neighbourhood.
			OR
			The <i>child care centre</i> is located in an activity centre.
PO2	The <i>child care centre</i> is located on a road which is accessible and safe, but which is not predominately used by local residential traffic.	AO2	The <i>child care centre</i> is located on a <i>site</i> with <i>access</i> and <i>frontage</i> to a collector street.
PO3	The <i>child care centre</i> is located and designed to ensure that children and staff are not exposed to unacceptable levels of noise, unhealthy air emissions, contaminants or other nuisance.	AO3	 The child care centre is located on a site where:- (a) soils are not contaminated by pollutants which represent a health or safety risk to children and staff; (b) maximum concentrations of air pollutants are less than those recommended by the National Health and Medical Research Council; and (c) noise levels from external sources (measured at the maximum L₁₀ [1 hour]) are less than:- (i) 48dB(A) within buildings; and

Perform	ance Outcomes	Acceptable	Outcomes			
			(ii) 55dB(A) when measured at the centre of any outdoor play area.			
PO4	The <i>child care centre</i> is located on a <i>site</i> that is capable of accommodating a well-designed and integrated facility, incorporating:- (a) required buildings and structures; (b) private motor vehicle <i>access</i> , parking and manoeuvring; (c) on-site landscapes; and (d) any necessary buffering.	A04	The <i>child care centre</i> is located on a <i>site</i> having:- (a) a <i>slope</i> of not more than 10%; (b) a regular shape; and (c) a minimum area of 1,000m ² .			
P05	A <i>child care centre</i> adjacent to an electricity transmission line incorporates adequate setbacks to protect the health and wellbeing of staff and children.	A05	 The <i>child care centre</i> is set back from the most proximate boundary of an electricity transmission line easement as follows:- (a) a 20 metre separation distance for transmission lines between 33kV and 132kV; (b) a 30 metre separation distance for transmission lines between 133kV and 275kV; and (c) a 40 metre separation distance for transmission lines greater than 275kV. 			
Scale of	Scale of Buildings and Structures					
PO6	The scale of buildings and structures associated with the <i>child care centre</i> is appropriate, having regard to its location and setting, and the nature and scale of surrounding development.	AO6	Where a standalone use and not located in a <i>centre zone</i> , the <i>child care centre</i> has a maximum <i>site cover</i> of 50%. OR			
			Where not a standalone use or where located in a <i>centre zone</i> —no acceptable outcome provided.			
Protecti	Protection of Residential Amenity					
PO7	The <i>child care centre</i> is designed to minimise potential conflict with surrounding residential premises, including by way of noise, light or odour nuisance.	A07.1	All buildings, structures and outdoor play areas are set back at least 3.0 metres from all <i>site</i> boundaries adjoining a residential use or land included in a <i>residential zone</i> .			
		A07.2	A minimum 1.8 metre high solid acoustic screen fence is erected along the full length of all <i>site</i> boundaries adjoining a residential use or land included in a <i>residential zone</i> .			
			Editor's note—Section 9.4.3 (Nuisance code) sets out requirements for managing nuisance.
