

The Resident

Frank Mclvor Park – Public Amenities Renewal

Project summary

Sunshine Coast Council will soon be commencing construction of a new public amenities building in Frank Mclvor Park, Currimundi.

The existing public amenities building, located near the Currimundi Lake boat ramp at the end of Westaway Parade, has reached the end of its service life and will be replaced.

The new facility will be in a similar look to the facilities located in Grahame Stewart Park, Currimundi.

The new amenities will consist of two unisex toilets, one ambulant toilet, and one unisex Person with a Disability (PWD) cubical. The building also has facilities to assist the adjoining soccer clubs' operations.

Council will endeavour to keep the existing facility open while construction is being undertaken, however some changeover period will be required.

Start date

Works are scheduled to commence late October 2022 with completion expected by mid-February 2023, site and weather conditions permitting.

Traffic management

Short-term closure of the boat ramp will occur to allow for a pathway reconstruction

Please follow pedestrian and vehicle management signs that will be in place to assist in the safe delivery of the project. There will be minimum impact on boat ramp access.

Your patience during construction is appreciated.

Further information

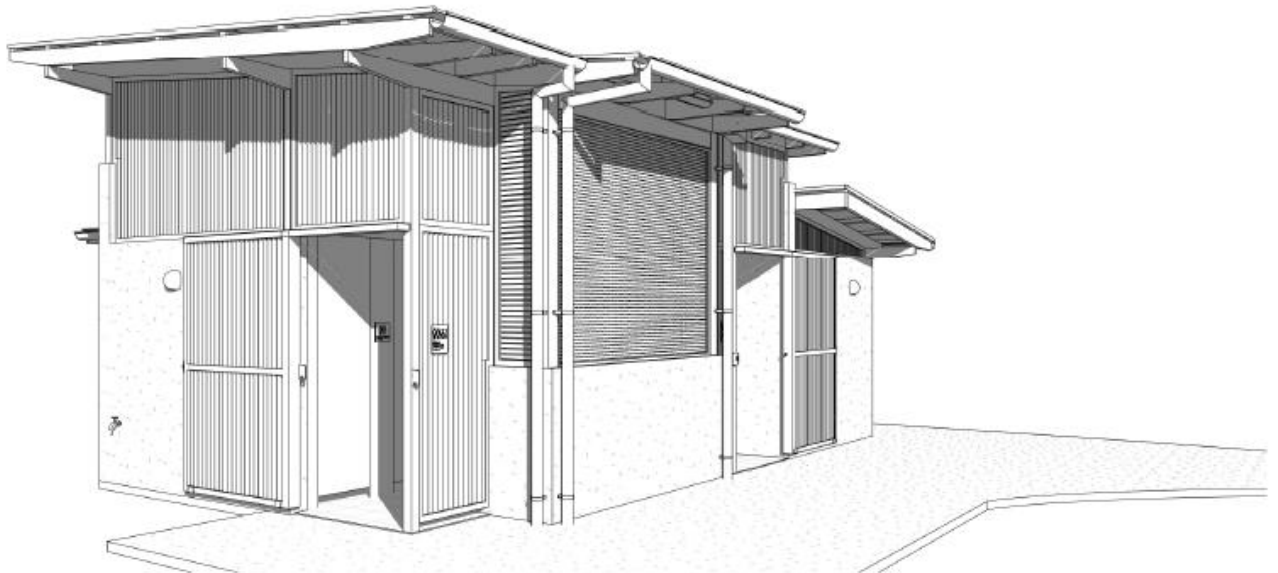

For further information please contact the project officer Christopher Lloyd through Council's customer service via the details below, please quote Frank Mclvor Public Amenities Renewal project # K1619.

A note from your local councillor

I am pleased these works are about to commence. This new amenity project will not only service the local Currimundi community but also the Currimundi United Football Club with storage and change rooms.
