

## To The Resident

# Parking Bay and Drainage Construction – Croydon Avenue Currimundi

### Project summary

Sunshine Coast Council is committed to increasing access to community venues across our region.

Works will begin soon on the installation of a ten-car parking bay on Croydon Avenue, adjacent to Grahame Stewart Park in Currimundi. The outcome will be improved parking during peak periods for both residents and the community. For the exact location please see figure 1 overleaf.

Works also include upgrading the current street drainage.

No trees will be removed for the works.

### Start date

Work is scheduled to start the week beginning Monday 13 March 2023.

Construction is expected to be completed within three weeks, weather and site conditions permitting.

### Property access and parking

During construction, property access and on-street parking will be affected for short durations. Council officers will fence off areas and, in some instances, contact residents to discuss timing for access or parking.

### Traffic management

Traffic management measures will be in place throughout construction to ensure the safety of all road users. Temporary road closures will be required during drainage construction.

Your patience during construction is appreciated.

### Further information

Please contact council's project officer, Brian Counihan on the details below. Please quote project K3370.

### A note from your local councillor

I remain committed to delivering positive infrastructure projects and good outcomes for our community. In formalising these specific car parks we also improve drainage conditions, which will benefit both local residents and visitors to Grahame Stewart Park. Thank you in advance for your patience and understanding during the upcoming construction phase.

Cr Peter Cox
