Mary Cairncross  
Scenic Reserve

Connecting people with nature  
in the heart of Jinibara Country

Natural jewel of the Sunshine Coast hinterland.

## WELCOME

Mary Cairncross Scenic Reserve is a Sunshine Coast must-do. A treasured remnant of the rainforests that once covered much of the Blackall Range, the reserve is a living museum of diverse plant and animal life, including several rare and threatened species.

The 55-hectare Reserve has more than 2km of walking tracks and also offers one of the best vantage points to admire the spectacular National Heritage listed Glass House Mountains.

A gold coin donation is appreciated. Donations help us preserve this special place for generations to come through research, conservation activities and community education.

## MAJESTIC RAINFOREST WALKS

The Reserve is a rich subtropical rainforest remnant that is home to a diverse range of species some of which can only be found at Mary Cairncross. Some 299 plant, 141 bird and 25 mammal species can be found in the Reserve including the spectacular paradise riflebird, the cryptic southern angle-headed dragon and the shy red-legged pademelon.

## RAINFOREST DISCOVERY CENTRE

Our state-of-the-art Rainforest Discovery Centre offers a multi-sensory, interactive and imaginative experience for all ages. Take your time and learn about the wealth of flora and fauna inhabiting the rainforest, get a glimpse into the rainforest at night in the immersive dark room and enjoy the augmented reality surprises hidden within. Our friendly and knowledgeable volunteer guides are also happy to share their knowledge and advice. You can conduct your own frog symphony on our unique gaya-phone, match our most popular birds with their calls and enjoy listening to Avium Aria, a musical duet between singers and songbirds.
