

CFS SANITATION WORKSHOPS COME TO INDIA FOR THE FIRST TIME

**2–3 and 9–10 September 2025 at
Intralox's facility in Bangalore, India**

This September, Commercial Food Sanitation (CFS) will bring our signature practical, hands-on training to India for the first time. In specialist-led, 1.5-day sessions, participants will sharpen their wet cleaning skills and learn best practices that the world's leading food brands follow.

TOPICS COVERED

- Wet sanitation
- Developing written cleaning procedures (SSOP)
- Evaluating hygienic equipment design
- Periodic cleaning programs and execution (PIC/PEC)
- Master sanitation schedules (MSS)
- Environmental monitoring (EM)
- Maintenance and sanitation
- Effective leadership for sanitation success

WHO CAN BENEFIT

- Sanitation and Quality supervisors
- Operations and Maintenance managers/supervisors
- Managers from plant, microbiological, and corporate quality areas
- Engineers and Project Managers who need to learn about plant cleaning to maximize operational excellence in their projects

Join us in building a global passion for food safety.
