living

Enhance the Experience

Nate & Natty is designed to soften the experience. With height adjustment and knee-tilt control, the conference chair adds exceptional comfort to meeting and private office spaces. The coordinating stools rise to the occasion by completing the welcoming environment. When space is at a premium, the smaller scale side chairs provide a lighter footprint without sacrificing comfort.

Establish the Mood

Nate & Natty provides a versatile design palette that builds the perfect atmosphere. This complete family of seating features a robust offering of configuration and material options. Mixing of textiles is encouraged to create interesting blocks of color and bring character to the space. The addition of contrasting stitching shows that every detail has been considered.

Statement of Line

Please reference the price list for full statement of line, specifications, and material options.
