

PhD Housing

If you are an international VU University PhD student you may apply for Short Stay Housing and PhD Housing. For our PhD's we have a very limited number of studios available that can be rented for the complete period of the PhD project, with a maximum of 5 years. Please be aware that there is a waiting list for PhD Housing, which means we will not be able to offer such housing within a short period after your application is submitted.

PhD accommodation generally concerns unfurnished studios with private facilities. Only studios at Marnixstraat are furnished. Contact information of companies that can provide you with furniture will be made available for tenants of this type of accommodation.

Depending on the type of housing (single/ double) and location the price of accommodation varies between € 445,- and € 690,-. Please find the details of the different type of studios in the schedule beneath. Not every housing corporation offers the same service regarding washing/drying, TV and Internet. Furthermore, there are deposit- and administration costs involved at the start of the rental period, that differ for each housing corporation. This specific information is stated in the overview as well.

Please note that where gas/electricity etc. is included in the monthly price, this is an estimated price. A final calculation of the actual costs will be made at the end of each year. Depending on this calculation, you might receive an amount back or you are asked to pay an additional amount. The responsible housing corporation will provide you with more information if applicable.
