

## Available places for exchange, round 2

This is the list of the remaining available exchange places for the academic year 2025-2026.

### Important information:

- Application deadline: 17 February 2025 before 13:00h.
- Check which universities are available for you on our Study Abroad Map (SAM - mobility.vu.nl) and always select your own study programme. The available places shown on the SAM are not up to date, only this document is.
- If this document says field of study "All fields", you still have to check if this university appears for your own study programme on the SAM.
- Carefully check the language requirements for each university on the SAM.
- If you plan to do an extracurricular exchange, you can only choose universities outside of the Erasmus+ programme.
