

VU Reading Lists

Een korte gids voor studenten

Docenten kunnen VU Reading Lists gebruiken om studenten eenvoudig en eenduidig een overzicht te geven van de benodigde literatuur in de cursus. Indien er online toegang is tot de literatuur, geeft de applicatie snel toegang.

Ook kan je als student makkelijk zien of literatuur beschikbaar is in de bibliotheek. Hieronder zie je hoe het eruit ziet in Canvas.

The screenshot displays the Canvas LMS interface for a course titled 'Talis Aspire - reading lists'. On the left is a dark navigation sidebar with icons for Home, Account, Dashboard, Courses, Calendar, Inbox, History, Commons, Help me!, and a back arrow. The main content area has a top navigation bar with 'VU > Talis Aspire - reading lists'. Below this is a filter bar with 'Table of Contents', 'Type: All', 'Filter: All', and 'Citation Style: None', followed by a search box. The page content includes a notice: 'Please note this is a fictional text.' A paragraph follows: 'Football is one of the most popular, globalized and injury prone sports at the moment. The sport is also one of the most criticized sports due it's recent controversies with the Fifa World Cup in Qatar and rumours of fraud. In this course, we will discuse none of this. We will focus on injuries, Arsenal and the greatest football grounds. After completing this course, students will have a clear understanding of the football clubs in Londen, Arsenal and the injuries of midfielder Abou Diaby.' Another paragraph states: 'In this reading list, you can find all the readings required for this course. Also you can find the literature we recommend students to have.' A section titled 'Required literature for students.' contains two entries: '365 - World's Greatest Football Grounds' (Book - by John Brewin - 2021 - Required reading) and 'Wenger: My Life and Lessons in Red and White' (Book - by Arsene Wenger - 2020 - Required reading). Below this is a section 'Reading week 1: Injuries of football players' with the text: 'Below you can find the educational materials for week 1. Please focus on football injuries and the shared webpage. The assignment posted in Canvas shares details about the assignment.' This section contains two entries: 'Globalization & football' (Book - by Richard Giulianotti; Roland Robertson - 2009 - Required reading) with a 'Google Preview' icon, and 'Kinematic and kinetic analysis of the goalkeeper's diving save in football' (Article - Required reading) with a 'VIEW ONLINE' button and a checkmark. At the bottom right of the content area is a 'Back to top' button.

VU Reading Lists maakt het makkelijker voor studenten om literatuur te vinden en te gebruiken.

De lijst is gemaakt door jouw docent en is toegankelijk via VU Canvas. Je kunt inloggen met je VUnetID.
