Level 3 Electrotechnical Installation– Qualification Content

Qualification trade areas

Level 3 Building Services Engineering (EAL)

- Heating and Ventilating Craftsperson
- Heating and Ventilating Installation
- Plumbing and Heating
- Electrotechnical Installation

Qualification structure

Rule of combination

To achieve the EAL Building Services Engineering (Level 3) – Electrotechnical Installation qualification learners must successfully undertake all the units in this qualification achieving a Pass grade or higher in the assessment methods and successfully complete the safety critical assessment.

Building Services Engineering (Level 3) – Electrotechnical Installation

7 Common core units (301-304/ 312-314)

9 trade specific Units

Assessments (Graded and Safety Critical Assessment)

The Employer Confirmation must have been completed prior to commencement of the Professional Discussion.

Learners must have completed the Practical Project assessment prior to undertaking the Professional Discussion assessment.

Math o Aesiad – Cyfanswm Oriau Cymhwyso ac Oriau Dysgu dan Arweiniad

Assessment Type – TQT & GLH

Qualification	TQT	Credits
EAL Building Services Engineering (Level 3) – Electrotechnical Installation	1211	121

Total GLH 1047

Summary of assessment

This qualification is assessed using the following assessment methods:

Assessment type	Approach to assessment	Weighting (Contribution to overall qualification grade)
On-Screen Assessment (Tests: 1, 2, 3)	Externally-set, externally-marked	20%
Practical Project	Internally-set, internally-marked, externally verified	60%
Professional Discussion	Externally-set, externally-marked, externally verified	20%
Safety Critical Test (practical assessments)	Externally-set, internally-marked	N/A

The Safety Critical Test consists of practical assessment tasks. It is a ‘hurdle test’ only and does not contribute toward the grade of this qualification, it must be passed for the qualification to be awarded.

Summary of assessments

Assessment type	Approach to assessment	Weighting (Contribution to overall qualification grade)
On-screen Assessment (Test 1, 2, 3)	Externally-set, externally-marked	20%
Practical Project	Internally- set, externally verified, Internally marked	60%
Professional Discussion	Externally set, Externally marked	20%

- An assessment pack detailing the requirements of the assessment will be able to be downloaded from the Skills for Wales website. <https://www.skillsforwales.wales>
- Details of coverage of each assessment can be found in the assessment specifications within the assessment pack

Summary of Assessments

On- Screen Assessment

- Three tests (Test 1, 2, 3) consisting of a range of multiple-choice and advanced question types
- Externally set and auto-marked
- Results received by the Centre same-day except for initial release of new versions. The first runs of tests will be **moderated** which will incur a delay in results being issued, thereafter will be same day
- Recognition of prior achievement can be gained for Test 1 when achieved Progression in same trade

Practical Project

- Work based tasks
- Collaboration with Employer/Training Provider
- Internally marked
- Provisional marks awarded following internal assessment
- Subject to External verification
- Grades are to be shared with EAL EQAs for verification (sampling), prior to certification

Professional Discussion

- Conducted by an External Assessor
- Carried out in one timed sitting
- External assessor will be occupational competent
- Units covered in the Professional Discussion are outlined within the Qualification Manual
- Can only take place once the learner has completed the Practical Project and Employer Confirmation

Summary of Assessments

Employer Confirmation

- Document available on Qualification page on Skills for Wales
- Provides guidance to employers and training providers on how the occupational competency statements set by industry have been met
- All mandatory sections of the employer confirmation must be completed
- Employer confirmation must be completed before the point of booking the Professional Discussion
- Support the learner in applying for their relevant competency card

Overall qualification result

- Qualification is graded Pass, Merit, Distinction
- Provisional grades for the practical project will undergo internal and external quality assurance
- Professional discussion External assessor will confirm grade
- Final grading will be issued by EAL

Resubmission/re-sit of assessment

- When a learner fails to successfully achieve a pass grade in any of the assessments, they are permitted to re-sit/submit
- When a learner is required to re-sit or resubmit any of the assessments, appropriate feedback and support must be provided to enable the learner to do so within an appropriate timeframe
- Guidance on the re-sit/resubmissions can be found in the assessment pack

Employer Confirmation Guide

Employers will have an enhanced role in the delivery of the new apprenticeship qualifications in the construction and building services engineering sector.

The purpose of the Employer confirmation sign-off

- is to provide centres and trade bodies with the assurance that the candidate is occupationally proficient and has covered the full range of relevant standards.

The Collection of Evidence

- allows the centre to check that the employer confirmation is valid and that there is an audit trail to support the decision.

Available for centres and employers are instructions and requirements for completing this sign-off process within our [Employer Confirmation Guide](#), available on the [Qualification page on Skills for Wales website](#)

City &
Guilds

eal®

Employer Confirmation Guide

EMPLOYER ROLE

- Employers will work with learners throughout their apprenticeships.
- Apprentices will log the work they have completed in line with national standards.

SIGN-OFF

- Employers will confirm when the learner has met the required standard for the trade, this must be done by completing the Employer Confirmation documents.
- Learners can then be entered for the Professional Discussion to complete the qualification assessment.

WORKING WITH CENTRES

- Work-based learning providers will work with employers to guide and support them to ensure the quality of the apprentice's log.

AWARDING BODY ROLE

- City & Guilds and EAL will offer training to support.
- We will ensure work-based learning providers have suitable processes in place.
