THE CHALLENGES

- Mobile/Responsive Designs can't use tables
- Kentico's Row/Column webparts use Tables
- Content Editors don't/won't/can't use Divs
- Current design trends for long-scroll/striped pages

Bootstrap framework = Great for Mobile
+ Great for Stripes

BOOTSTRAP LAYOUT WEB PART

Convotherm

Anyone who has ever worked with a Convotherm combi steamer knows how our pioneering products inspire better food preparation. "Your meal. Our mission." is our philosophy born out of our passion and commitment to provide the best combi steamer solution that answer the varied needs of our customers.

The new Convotherm 4 range of combi steamers brings style into the professional commercial kitchen. From first glance, this oven combines world-class technology with user-friendly, ergonomic and hygienic design and all models share the same logical and intuitive system of operation: a real plus in the often hectic daily life of foodservice. Our new combi steamers includes seven sizes of ovens, each with six different model options. The result is a combination of functional versatility and consistent design that is revolutionary in this product category.

Passion is behind every Convotherm combi steamer: passion for excellence, for creativity, for practical partnership – and for making our customers more successful each and every day.
