to end of school year

67 instructional days

# Grade 1 Course of Study: Block 1

Beginning of school year to Winter Break 71 instructional days

1

## First 20 Days

15+ days

### Social-Emotional Learning Skills:

A1. apply, to the best of their ability, a variety of social-emotional learning skills to support their use of the mathematical processes and their learning in connection with the expectations in the other five strands of the mathematics curriculum

2

## Number

20+ days

**Number:** B1. demonstrate an understanding of numbers and make connections to the way numbers are used in everyday life

**Number:** B2. use knowledge of numbers and operations to solve mathematical problems encountered in everyday life

(B1.1 - B1.5, B2.1 - B2.3)

3

## Geometric Reasoning

12+ days

**Spatial Sense:** E1. describe and represent shape, location, and movement by applying geometric properties and spatial relationships in order to navigate the world around them

**Spatial Sense:** E2. compare, estimate, and determine measurements in various contexts

(E1.1 - E1.3, E2.1 - E2.2)

4

## Patterns and Algebra

12+ days

**Algebra:** C1. identify, describe, extend, create, and make predictions about a variety of patterns, including those found in real-life contexts

(C1.1 - C1.4)

Progress Report

Term 1

## Ongoing Focus:

**Social-Emotional Learning:** A1. apply, to the best of their ability, a variety of social-emotional learning skills to support their use of the mathematical processes and their learning in connection with the expectations in the other five strands of the mathematics curriculum

**Mathematical Modelling:** C4. apply the process of mathematical modelling to represent, analyse, make predictions, and provide insight into real-life situations

**Properties and Relationships:** B2.1 use the properties of addition and subtraction, and the relationship between addition and subtraction, to solve problems and check calculations

**Math Facts:** B2.2 recall and demonstrate addition facts for numbers up to 10, and related subtraction facts

**Mental Math:** B2.3 use mental math strategies, including estimation, to add and subtract whole numbers that add up to no more than 20, and explain the strategies used

**Probability:** D2.1 use mathematical language, including the terms "impossible", "possible", and "certain", to describe the likelihood of events happening, and use that likelihood to make predictions and informed decisions

**Time:** E2.3 read the date on a calendar, and use a calendar to identify days, weeks, months, holidays, and seasons

# Grade 1 Course of Study: Block 2

Winter Break to March Break 48 instructional days

5

## Number

15+ days

**Number:** B1. demonstrate an understanding of numbers and make connections to the way numbers are used in everyday life

**Number:** B2. use knowledge of numbers and operations to solve mathematical problems encountered in everyday life

**Financial Lit:** F1. demonstrate the knowledge and skills needed to make informed financial decisions  
(B1.1 - B1.8, B2.1 - B2.5, F1.1)

Term 1

6

## Algebra and Coding

15+ days

**Algebra:** C2. demonstrate an understanding of variables, expressions, equalities, and inequalities, and apply this understanding in various contexts

**Algebra:** C3. solve problems and create computational representations of mathematical situations using coding concepts and skills  
(C2.1 - C2.3, C3.1, C3.2)

7

## Location and Movement

10+ days

**Spatial Sense:** E1. describe and represent shape, location, and movement by applying geometric properties and spatial relationships in order to navigate the world around them

**Algebra:** C3. solve problems and create computational representations of mathematical situations using coding concepts and skills  
(E1.4, E1.5, C3.1, C3.2)

Term 2

## Ongoing Focus:

**Social-Emotional Learning:** A1. apply, to the best of their ability, a variety of social-emotional learning skills to support their use of the mathematical processes and their learning in connection with the expectations in the other five strands of the mathematics curriculum

**Mathematical Modelling:** C4. apply the process of mathematical modelling to represent, analyse, make predictions, and provide insight into real-life situations

**Properties and Relationships:** B2.1 use the properties of addition and subtraction, and the relationship between addition and subtraction, to solve problems and check calculations

**Math Facts:** B2.2 recall and demonstrate addition facts for numbers up to 10, and related subtraction facts  
**Mental Math:** B2.3 use mental math strategies, including estimation, to add and subtract whole numbers that add up to no more than 20, and explain the strategies used

**Probability:** D2.1 use mathematical language, including the terms “impossible”, “possible”, and “certain”, to describe the likelihood of events happening, and use that likelihood to make predictions and informed decisions  
**Time:** E2.3 read the date on a calendar, and use a calendar to identify days, weeks, months, holidays, and seasons

# Grade 1 Course of Study: Block 3

March Break to end of school year 67 instructional days

8

## Number/Financial Literacy

10+ days

**Financial Literacy:** F1. demonstrate an understanding of the value of Canadian currency

**Number:** B2. use knowledge of numbers and operations to solve mathematical problems encountered in everyday life

(B1.6, - B1.8, B2.1 - B2.5, F1.1)

9

## Data and Probability

15+ days

**Data:** D1. manage, analyse, and use data to make convincing arguments and informed decisions, in various contexts drawn from real life

**Data:** D2. describe the likelihood that events will happen, and use that information to make predictions

(D1.1 - D1.5, D2.2)

10

## Measurement

20+ days

**Spatial Sense:** E2. compare, estimate, and determine measurements in various contexts

**Number:** B2. use knowledge of numbers and operations to solve mathematical problems encountered in everyday life

(E2.1, E2.2, B2.1, B2.3 - B2.5)

11

## Last 20 Days

15+ days

**Social-Emotional Learning Skills:** A1. apply, to the best of their ability, a variety of social-emotional learning skills to support their use of the mathematical processes and their learning in connection with the expectations in the other five strands of the mathematics curriculum

Term 2

## Ongoing Focus:

**Social-Emotional Learning:** A1. apply, to the best of their ability, a variety of social-emotional learning skills to support their use of the mathematical processes and their learning in connection with the expectations in the other five strands of the mathematics curriculum

**Social-Emotional Learning:** A1. apply, to the best of their ability, a variety of social-emotional learning skills to support their use of the mathematical processes and their learning in connection with the expectations in the other five strands of the mathematics curriculum

**Mathematical Modelling:** C4. apply the process of mathematical modelling to represent, analyse, make predictions, and provide insight into real-life situations

**Properties and Relationships:** B2.1 use the properties of operations, and the relationships between addition, subtraction, multiplication, and division, to solve problems involving whole numbers, including those requiring more than one operation, and check calculations

**Math Facts:** B2.2 (*Grade 2*) recall and demonstrate addition facts for numbers up to 20, and related subtraction facts; (*Grade 4*) recall and demonstrate multiplication facts for  $1 \times 1$  to  $10 \times 10$ , and related division facts

**Mental Math:** B2.3 (*Grade 3*) use mental math strategies, including estimation, to add and subtract whole numbers that add up to no more than 1000, and explain the strategies used; (*Grade 4*) use mental math strategies to multiply whole numbers by 10, 100, and 1000, divide whole numbers by 10, and add and subtract decimal tenths, and explain the strategies used

# Grade 4 Course of Study: Block 3

March Break to end of school year 67 instructional days

8

## Financial Lit/Number

15+ days

**Financial Literacy:** F1. demonstrate the knowledge and skills needed to make informed financial decisions

**Number:** B2. use knowledge of numbers and operations to solve mathematical problems encountered in everyday life

(F1.1 - F1.5, B2.4, B2.8)

9

## Data and Probability

20+ days

**Data:** D1. manage, analyse, and use data to make convincing arguments and informed decisions, in various contexts drawn from real life

**Data:** D2. describe the likelihood that events will happen, and use that information to make predictions

(D1.1 - D1.6, D2.1, D2.2)

10

## Measurement

15+ days

**Spatial Sense:** E2. compare, estimate, and determine measurements in various contexts

**Number:** B2. use knowledge of numbers and operations to solve mathematical problems encountered in everyday life

(E2.1, E2.2, E2.4, E2.5, E2.6, B2.4, B2.5)

11

## Last 20 Days

10+ days

**Social-Emotional Learning Skills:** A1. apply, to the best of their ability, a variety of social-emotional learning skills to support their use of the mathematical processes and their learning in connection with the expectations in the other five strands of the mathematics curriculum

Term 2

## Ongoing Focus:

**Social-Emotional Learning:** A1. apply, to the best of their ability, a variety of social-emotional learning skills to support their use of the mathematical processes and their learning in connection with the expectations in the other five strands of the mathematics curriculum

20+ days

11

### Last 20 Days

A1  
15+ days

Term 2

# Grade 8 Course of Study: Block 1

Beginning of school year to Winter Break 71 instructional days

1

## First 20 Days

15+ days

### Social-Emotional Learning Skills:

A1. apply, to the best of their ability, a variety of social-emotional learning skills to support their use of the mathematical processes and their learning in connection with the expectations in the other five strands of the mathematics curriculum

2

## Number

20+ days

**Number:** B1. demonstrate an understanding of numbers and make connections to the way numbers are used in everyday life

**Number:** B2. use knowledge of numbers and operations to solve mathematical problems encountered in everyday life  
(B1.1, B1.2, B2.1 - B2.5, E2.1)

3

## Geometric Reasoning

15+ days

**Spatial Sense:** E1. describe and represent shape, location, and movement by applying geometric properties and spatial relationships in order to navigate the world around them

**Spatial Sense:** E2. compare, estimate, and determine measurements in various contexts  
(E1.1, E1.2, E2.2)

4

## Patterns and Algebra

10+ days

**Algebra:** C1. identify, describe, extend, create, and make predictions about a variety of patterns, including those found in real-life contexts  
(C1.1 - C1.4)

Progress Report

Term 1

## Ongoing Focus:

**Social-Emotional Learning:** A1. apply, to the best of their ability, a variety of social-emotional learning skills to support their use of the mathematical processes and their learning in connection with the expectations in the other five strands of the mathematics curriculum

**Mathematical Modelling:** C4. apply the process of mathematical modelling to represent, analyse, make predictions, and provide insight into real-life situations

**Properties and Relationships:** B2.1 use the properties and order of operations, and the relationships between operations, to solve problems involving rational numbers, ratios, rates, and percents, including those requiring multiple steps or multiple operations

**Math Facts:** B2.2 (*Grade 5*) recall and demonstrate multiplication facts from  $0 \times 0$  to  $12 \times 12$ , and related division facts; (*Grade 6*) understand the divisibility rules and use them to determine whether numbers are divisible by 2, 3, 4, 5, 6, 8, 9; (*Grades 7-8*) understand and recall commonly used percents, fractions, decimal equivalents, square numbers, and their square roots

**Mental Math:** B2.3 (*Grades 3-5*) use mental math strategies to add and subtract whole numbers, decimals and explain the strategies used; (*Grades 6-7*) use mental math strategies to calculate percents of whole numbers, and increase and decrease a whole number by 1%, 5%, 10%, 25%, 50%, and 100%, and explain the strategies used; (*Grade 8*) use mental math strategies to multiply and divide whole numbers and decimal numbers up to thousandths by powers of ten, and explain the strategies used

# Grade 8 Course of Study: Block 2

Winter Break to March Break 48 instructional days

5

## Number

15+ days

**Number:** B2. use knowledge of numbers and operations to solve mathematical problems encountered in everyday life

**Financial Literacy:** F1. demonstrate the knowledge and skills needed to make informed financial decisions

(B2.1, B2.6 - B2.7)

Term 1

6

## Algebra and Coding

15+ days

**Algebra:** C2. demonstrate an understanding of variables, expressions, equalities, and inequalities, and apply this understanding in various contexts

**Algebra:** C3. solve problems and create computational representations of mathematical situations using coding concepts and skills

(C2.1 - C2.4, C3.1, C3.2)

7

## Location and Movement

10+ days

**Spatial Sense:** E1. describe and represent shape, location, and movement by applying geometric properties and spatial relationships in order to navigate the world around them

**Algebra:** C3. solve problems and create computational representations of mathematical situations using coding concepts and skills

(E1.1 - E1.3)

Term 2

## Ongoing Focus:

**Social-Emotional Learning:** A1. apply, to the best of their ability, a variety of social-emotional learning skills to support their use of the mathematical processes and their learning in connection with the expectations in the other five strands of the mathematics curriculum

**Mathematical Modelling:** C4. apply the process of mathematical modelling to represent, analyse, make predictions, and provide insight into real-life situations

**Properties and Relationships:** B2.1 use the properties and order of operations, and the relationships between operations, to solve problems involving rational numbers, ratios, rates, and percents, including those requiring multiple steps or multiple operations

**Math Facts:** B2.2 (*Grade 5*) recall and demonstrate multiplication facts from  $0 \times 0$  to  $12 \times 12$ , and related division facts; (*Grade 6*) understand the divisibility rules and use them to determine whether numbers are divisible by 2, 3, 4, 5, 6, 8, 9; (*Grades 7-8*) understand and recall commonly used percents, fractions, decimal equivalents, square numbers, and their square roots

**Mental Math:** B2.3 (*Grades 3-5*) use mental math strategies to add and subtract whole numbers, decimals and explain the strategies used; (*Grades 6-7*) use mental math strategies to calculate percents of whole numbers, and increase and decrease a whole number by 1%, 5%, 10%, 25%, 50%, and 100%, and explain the strategies used; (*Grade 8*) use mental math strategies to multiply and divide whole numbers and decimal numbers up to thousandths by powers of ten, and explain the strategies used

# Grade 8 Course of Study: Block 3

March Break to end of school year 67 instructional days

8

## Financial Lit/Number

15+ days

**Financial Literacy:** F1. demonstrate the knowledge and skills needed to make informed financial decisions

**Number:** B2. use knowledge of numbers and operations to solve mathematical problems encountered in everyday life

(F1.1 - F1.6)

9

## Data and Probability

20+ days

**Data:** D1. manage, analyse, and use data to make convincing arguments and informed decisions, in various contexts drawn from real life

**Data:** D2. describe the likelihood that events will happen, and use that information to make predictions

(D1.1 - D1.6, D2.1, D2.2)

10

## Measurement

15+ days

**Spatial Sense:** E2. compare, estimate, and determine measurements in various contexts

**Number:** B2. use knowledge of numbers and operations to solve mathematical problems encountered in everyday life

(E2.3, E2.4, B2.2, B1.3)

11

## Last 20 Days

10+ days

**Social-Emotional Learning Skills:** A1. apply, to the best of their ability, a variety of social-emotional learning skills to support their use of the mathematical processes and their learning in connection with the expectations in the other five strands of the mathematics curriculum

Term 2

## Ongoing Focus:

**Social-Emotional Learning:** A1. apply, to the best of their ability, a variety of social-emotional learning skills to support their use of the mathematical processes and their learning in connection with the expectations in the other five strands of the mathematics curriculum
